

SCENE FROM BEVERLY OF GRAUSTARK AT OPERA HOUSE,
MONDAY AND TUESDAY, FEB. 5 AND 6—MATINEE TUESDAY

Beverly of Graustark

The production of Beverly of Graustark, which comes to the Opera House on Monday, for three performances—Monday and Tuesday evenings and Tuesday matinee.

is a magnificent scenic dramatization of George Barr McCutcheon's novel of the same name. The lines and situations of the dramatist so closely follow the story

that the characters seem to be stepping out of the pages of the book; and the charming heroine and strapping hero assume the lifelike portrayal of our imagination. The play is amply mounted

and costumed; the cast is an excellent one, and the company comes to us, praised by the public and press of all quarters. The New York Telegram refers to it as "an artistic triumph."

Skin-Tortured Little Ones

Mothers! Are your little ones suffering from itching, burning, disfiguring skin troubles? Are you, yourself, worn out with long, sleepless nights and ceaseless anxiety in caring for them? Then you should know that, in most cases, a warm bath with

Cuticura Soap and a gentle application of Cuticura Ointment bring immediate relief, the little sufferers sleep, tired, fretted mothers rest, and peace falls on distracted households.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a postal order to "Cuticura, Dept. 28, Boston, U. S. A." will secure a liberal sample of each, with 25-p. book on the skin and scalp, and treatment of their afflictions.

"I say, my dear," exclaimed a "golden youth," to a pretty nursemaid, "I do wish I was a youngster in your charge."

"So do I," responded the girl. "I should then have the chance to teach you better manners!"

"While I do not positively assert that Jones is a dishonest man," said Jones' acquaintance, "I strongly recommend people who shake hands with him to count their fingers carefully when he leaves."

Scientific Wrinkle Remover Easily Made

(From Ladies' Favorite Magazine).

A few dermatologists have long held the secret—that a certain product, known to the drug trade as exfoliant, had the property when used in solution, of instantly removing wrinkles. Any one can readily make this same solution by dissolving an ounce of powdered exfoliant in a half pint of which wash. Bathe the face in this and note the immediate transformation!

The skin tightens, becomes firmer—deeper wrinkles at once begin to smooth out. This action will of course also reduce large, deep-set wrinkles or double chin.

When the hands show signs of aging, the skin becoming coarse, creased or flabby, bathe them in the solution. Since the recent publication of this formula, men and women all over the country have taken advantage of the information, according to reports, with most satisfactory results.

ALLEGED "PLANTER" OF DYNAMITE IS HELD

Lawrence, Mass., Feb. 2.—Charged with two counts of conspiracy in connection with the alleged "planting" of dynamite in the home of textile strikers, John J. Breen, an undertaker, who is a member of the Lawrence school committee, was bound over to the grand jury today, after a hearing in the police court. He furnished bail in the sum of \$2,000 on each count.

Seven other persons, arrested when police detectives made a descent upon the foreign quarter, and found several packages of dynamite, were released on charges of keeping dynamite without license, having proved to the satisfaction of the court that they were not responsible for the presence of the explosive in their apartments.

In the case of Breen, eighteen witnesses appeared for the state, including state and local police, while the defense offered no evidence. The commissioner of public safety, Cornelius F. Lynch, who conducted the state's case, said that when the strike started he asked Mr. Breen to use his best efforts in the Syrian quarter to keep matters quiet, as it was well known that Mr. Breen was influential among these people.

Continuing Commissioner Lynch told the court that on Saturday, Jan. 20, Breen came to the police station, and said he had received a telephone message to go to Boston. Following the telephone directions, he said he went to Rowe's, where in that city and met a man who gave him a letter which said:

"You will find dynamite at 234 Oak street, at 6 Lawrence street and in the cemetery."

The letter, he claims, was not signed but bore a postscript asking that it be destroyed, so he had destroyed it.

Commissioner Lynch then related in what manner the dynamite had been located by the officers at the places named by Mr. Breen.

When all the cases for the state were in, Attorney Kane for the defense argued that the only evidence against Breen was that he had secured information of where dynamite might be found and had so told the police; that no evidence had been submitted to show that Breen had any relations with any of these people, in whose places dynamite had been found, and that was reason to believe he had conspired with any of those persons.

Bank Messenger in Paris Seized in Street and Robbed of \$30,000

Paris, Jan. 3.—Another attack upon a bank messenger took place last week and the robber escaped with about \$30,000. The bank messenger was making his way along the Passage Meslay at nine o'clock in the morning when a man approached him. After a short struggle the aggressor threw pepper into the eyes of the messenger. He then pinned his arms behind his back and threw him to the pavement. He extracted a case of notes to the value of 100,000 francs from the messenger's pocket.

An effort is being made to prevent further attacks upon these messengers.

WHAT ARE THOSE?
Doctor—Has he had any lucid intervals? Mrs. Perkins (with dignity)—He's had nothing except what you ordered, doctor.—Philadelphia Telegraph.

THE NERVOUS INVALID

or Greater Sufferer Than Man with Broken Leg

Both Mind and Body Are Restored by the Use of Dr. Chase's Nerve Food

There is no suffering so keen as that which arises from diseases of the brain and nerves. Physical pain is intermittent and can be relieved, but when the nerve cells become feeble and wasted mind as well as body is affected, and all is blackness and discouragement to the sufferer.

The brain is starved for lack of rich blood, and there are headaches, neuralgic pains, sleeplessness, irritability, indigestion and loss of energy and vigor among the symptoms.

The man with a broken leg has the sympathy of all who know him, but the man who is broken in mind as well as body by nervous exhaustion is told that he only thinks he is sick.

Since the cause is in the condition of the nervous system, it can be removed by the use of Dr. Chase's Nerve Food, which goes directly to the formation of rich blood and the restoration of the feeble, wasted nerve cells.

Rest, seek cheerful companions, live in the sunshine and by using Dr. Chase's Nerve Food fill the nervous system with new vigor and energy. A few weeks of this treatment will do wonders for any sufferer from an exhausted condition of the nerves.

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, at all dealers or Edmonson, Bates & Co., Limited, Toronto.

A LIBEL
"John M. Harlan," said a Chicago lawyer, in an eulogy of the late supreme court justice, "had a way of pointing an observation with a story."

"Once he wanted to rebuke a man for exaggeration, so he said he was as big as a Pittsburgh millionaire who was being interviewed by a New York reporter."

"Where, sir, were you born?" the reporter asked as he sharpened his pencil.

"I was born in Pittsburgh," said the millionaire.

"And when did you first—er—see the light of day?"

"When I was nine," the millionaire replied. "My people then moved to Philadelphia."—Washington Star.

Dermatologist Gives Complexion Secret

"The great secret of keeping the face young is to keep off the dead cuticle," said Dr. J. Mortimer Mitchell, the noted English dermatologist, now visiting this country. "It is well-known that the surface skin is constantly dying, falling off in imperceptible particles, except in some diseased conditions, when the same appears like dandruff. But the particles do not drop off immediately they die, being held for awhile by the live skin."

To have the dermatological surgeon peel off the entire cuticle at one time is a painful and expensive process. The same result is obtained by applying ordinary mercurized wax, as you would cold cream. This is both painless and inexpensive. The wax, procurable at your drug store, softens the natural shedding process. It gradually absorbs the dead and half-dead skin, revealing the new, healthy, youthful-looking skin beneath."

CLEMENCEAU THE CAUSE OF MUCH TROUBLE

(Continued from page 7).
The court took the hint. It indicated a nominal fine of \$1 with the benefit of the first offenders act, and the benignant retired with a satisfied blush.

Chloroformed and Robbed
On arrival of the Paris express at Cannes yesterday one of the passengers, Mme. Bourguin, reported to the local police that she had been chloroformed and robbed in the compartment which she occupied alone.

Hours afterwards she awakened with the feeling of nausea. Her handbag was lying by her side minus its contents, which had consisted of money and jewelry to the value of about \$200. From the floor of the carriage were picked up Mme. Bourguin's handkerchief and a ring, both of which had been abstracted from the handbag. Her theory is that while she was asleep someone entered her compartment, and after administering an anesthetic carried off her valuables. No trace of the daring thief has been found.

Bernhardt
Mme. Sarah Bernhardt, no doubt by way of definitely wiping all rumors of her marriage, is going to play the part of Queen Elizabeth in this city sometime this month. The play has no translation or adaptation of any Elizabethan play in English, but has been written for Mme. Bernhardt by Mr. Maurice Maeterlinck, who was Sarah's collaborator in "Madame Sans-Gene" and many other of his most successful plays.

Mme. Bernhardt has been hard at work for some time hunting up every historic detail which might help in the composition of her role, and the other day she sent for Willy Clarkson to come over from London, on purpose to confer with her on Queen Elizabeth's personal appearance.

Mme. Bernhardt will reproduce as exactly as possible the best authenticated pictures of the queen. The play is a comedy, but it is in it that she will play with Queen Elizabeth's death, and just before the end she hears the voices of her victims, Mary Queen of Scots, Essex, and others. It is said that the haunting tragedy in Sarah Bernhardt's voice as she repeats the requiem of the ghosts of her victims will prove to be one of the most magnificent efforts of the world's greatest actress.

Le Moine, a Frenchman, aged twenty-four, has just accomplished a journey by train, but at Ghardaia he and his companion, bought camels, engaged an Arab guide and two bearers, and the little caravan went out into the desert. At Ain Sahel, the caravan was attacked by thirty-two days, the travelers met another Frenchman and his wife living in the lonely district. After that the caravan went for twenty-five days without meeting another human being.

South, through the plains, the party proceeded to Gao-Qao on the banks of the Niger River. Thence up the waterway, they made a good voyage to Timbuctoo, where M. Le Moine remained for three months.

SUNDAY PELLING IN CANADA

Major Stephens, in Montreal, Commands Swiss System

(Montreal Star.)
Major Guerin and Major G. W. Stephens were the principal speakers at the banquet of the Nomads' Club at the Edinburg Cafe last night.

"I venture to say," said His Worship, "that Montreal may in the near future be the second city in the British empire. Is it not right, therefore, that this city should be regarded as the most precious thing in the dominion since it is the distributing point for the merchandise of the country?"

The responsibilities, he went on to point out, called for an able and honest civic administration, and the first endeavor of those who had the city's interests at heart must be to stay the high infant mortality. In relation to the conservation of the children, the city must have more parks and playgrounds.

Major G. W. Stephens, of the harbor commission, replying to the toast of "Our Country," said the true type of patriotism was that wherein the ruling passion of heart must be to stay the high infant mortality. In relation to the conservation of the children, the city must have more parks and playgrounds.

In Switzerland the national elections were held on the Sabbath because to vote was regarded as a sacred duty of citizenship, and Major Stephens commended this practice as being better than the haphazard, unrelenting system followed in Canada.

The MEDICAL PRESS and Experiments with BOVRIL

"THE RESULTS WERE SIMPLY STARTLING"—Medical Times.

The report on the nutritive value of Bovril read before the annual meeting of the British Medical Association is attracting wide attention in the medical profession.

The "British Medical Journal" of September 16 devoted some six pages to giving a detailed account of the recent experiments, in which it was shown that in the case of human beings the body-building power of Bovril was "even more marked" than had been previously shown in the experiments with animals. A further article has just appeared in the

"Medical Times," and that journal points out that the results of these experiments "were simply startling."

"It was found that in all cases the administration of the extract (Bovril) caused an immediate increase of weight."

One important point brought out by these experiments is the fact that this increase in weight is in tissue and muscle, and not fat, showing that Bovril must therefore be regarded as a true nutrient, and an essential part of the diet of every man, woman and child.

EXPERIMENTS ON HUMAN BEINGS 10 GRAMS OF BOVRIL WERE USED IN EACH CASE

Two examples, the figures being taken from the table published in the "British Medical Journal."

EXPERIMENT ON	Mean Weight during previous interval in kilos.	Mean Weight during Feeding period in kilos.	Mean Increase in Grams.	Nitrogen of Extract in Grams.
Subject S.	84.032	84.248	216	0.920
Subject C.	61.661	61.790	129	0.890

The body-building power of Bovril proved to be from 10 to 20 times the amount taken.

DR. J. O. LAMBERT'S SYRUP

The only remedy known to cure Cough, Cold, Bronchitis, Catarrh, Asthma, Whooping Cough, Croup, and specially Consumption at its first stage, if not money refunded. Beware of imitations—insist on having Dr. Lambert's photograph on every package. For sale everywhere at 35c. 8 oz. bottle by all first-class druggists in St. John, N. B.
