"Because," said the little garden fairy, "it's raining."

"Rain, rain, go away,
Come again some other day,
Little Johnny wants to play."
sang Johnny Jump Up, the little garden fairy, on the Twins' window sill.

"What's the matter, what are you singing that for?" saked Nick, sitting up in bed and rubbing his eyes.

"Because," said the little garden fairy, looking all funny and forlorn under his umbrella, "it's raining. The flowers are soaked and all of my playmates are in their little violet houses sound asleep and—"

"Goodness alive?" cried the titmouse flying down from his tree to the window sill beside Johnny. "I heard your whole conversation, and the way people fuss about a little bit of rain is the limit."

"Don't you inhind it?" cried Johnny playmates are in their little violet houses sound asleep and—"

# **Best Health Foods**

Lean, or fat; blonde or brunette—the man that lives in the suburbs and the man that lives in the city—they all need the same food materials to keep them in health.

Health is a fairly democratic entity and serf alike; and illness does likewise.

There are certain variations of healthful food elements and these are generally as obtainable by the man in the cottage as by the man in the castle.

As a short cut to knowledge of these necessities, let each reader write in his notebook that the normal man, woman and child needs:

Milk, vegetables, products from grain, fresh fruit, fats and eggs, some meats and some sweets (except where doctors order otherwise) and lots of fresh fruits.

Such calculations as have been made indicate that sweets are the least necessary on this list and that meats in excess are also bad.

But in the root and leafy vegetables lie certain necessary vitamines and in the milk, as well.

Unless diet has been ordained a simple variation from day to day in these substances insures a nutritious series of meals.

## EATS AND SLEEPS LIKE HEALTHY MAN

Dreco Brings Remarkable Relief to Mr. Guerin, Despite Severity of His Former Suffering—Rejoices in Present Good Health and Gives Credit to Dreco.

Mr. Francois Guerin, of 161 Murray St., Montreal, was a victim of chronic indigestion and its attendant miseries. He had no appetite, was tired, nervous and moody. Pains in stomach and back added to his burden and chronic constipation necessitated steady recourse to laxatives. See what a difference Dreco made in this man's condition:

"For many years I suffered from indigestion," says Mr. Guerin. "It got to such a stage that I could not eat anything without feeling terrible pains in the stomach after. I also had pains across my back, and could not sleep at nights. After a restless night, I would awake in the morning so tired out that I could hardly walk. I was chronically constipated and frequently used strong laxatives.

"Dreco, however, has made a new man of me. I have a fine appetite. The pains in my stomach have disappeared completely and I have no more pains in my back. I sleep soundly and wake up in the morning feeling refreshed and in high, good humor. My bowels are regular. I am delighted with my present good health, which I feel is entirely due to Dreco."

Dreco contains no mercury, potash or habit forming drugs. It is a reliable tonic and regulator for digestive ailments and is made solely from the pure extracts of herbs, roots, bark

Dreco is being specially introduced in St. John by Ross Drug Co., 100 King Street, Moore's Drug Store, 105 Prince Edward Street, F. W. Munro. 357 Main Street, and in West St. John by Watson R. Dunlop. It is also sold in Fairville by T. H. Wilson, and by a good
