Twice-a-Week Edition VOL. 36. **RALPH SMITH** AT ROYAL OAK

> LIBERAL POLICY IS FULLY DISCUSSED

# **Deliver** Excellent Addresses.

(From Monday's Daily.) "Let Laurier finish his work" is a had done all this and more, that he had nauts who had entered the internation litical faith since.

of the district. The candidate was in splendid form, and in a thirty-fiveminute speech gave abundant reasons why he should again be elected to support the Laurier government and do his share in assisting Canada's greatest premier to complete the work to which he has devoted his life. There is no doubt, from the tone of the meeting and the general feeling in the district, that the Royal Oak poll will give Mr. Smith a handsome majority. David Stevens presided, and other speakers were R. L. Drury and Frank Higgins. The "band of eight" was only half present, that half having clubbed together to hire an express wagon to drive them out. Only one of them took together to have been out. Only one of them took any part, and he held himself down until the close of the meeting, save one interruption while Mr. Higgins was speaking. The little party was without hacking in the meeting, the elec-meeting in the meeting, the elec-meeting in the meeting, the elec-meeting in the meeting in the meeti

by Sir Wilfrid Laurier-immeasurably superior as this was to the settlement by Premier McBride and Mr. Bowser-and with the machinery provided for enforcing the agreement made with Ja-pan, it was, as the Colonist said, three onths ago, dead and buried and could not be made a football of. Now, with YOUTH KILLS FATHER an election on, the Colonist was trying to make an issue out of this question. A copy of the Bowser Act was produced by Mr. Drury, and from it he read the remedy the British Columbia ament proposes to apply to the Shocking Double Crime During Japanese problem. Describing the almost general study of English in the Japanese schools, as seen by himself, Mr. Drury showed how useless the test reading and writing in English or a European language would be to keep out the Japanese. The settlement ef-fected by Sir Wilfrid Laurier not only effectually shut out the Japanese laborer from Canada, but preserved for this country the large and exceedingly valuable market for Canadian products in that land. If Mr. Shepherd was in a position to carry out his policy of ex-clusion it would inevitably follow that Japan would exclude our business agents and travellers, and where then would our chance to secure any part of that immense trade be. To-day the United States got a larger share of Japan's trade than Canada, because more favorable freight rates were to be had south of the line, but with the comwould bring rates down.

The great stock in trade to-day of the Conservative party, Mr. Drury said, tragedy, arcse. was scandal. It was one thing to hint at and charge scandal, and another and very different thing to justify the cry. The Conservatives had never yet n able to prove one single charge, made against the government or any nember of it. One of the latest misre presentations was that of Premier Roblin, who said that certain people had obtained 250,000 acres of coal lands for nothing. He neglected to say that the lands had been given by the British Columbia government, and that the Dominion government had secured from the C. P. R. 50,000 acres which was being held for the public and assured to the inhabitants of British Co umbia cheap coal. Another scandalhad warmly endorsed the lease, he was Tenyo-Maru from San Francisco mb on that subject.

ier government was spending money Frank Higgins.

of Mr. Smith. When the people con- given in honor of the visitors,

sidered the record of their member, he said, it was impossible for any fairninded man to refuse him re-election He had helped to get the bounty which was doing so much to develop the lead industry; he had supported the chartering of the Vancouver, Victoria & Eastern Railway, which was opening up ? fine country; he had secured necessary railway subsidies and large expenditures on public works on the Island; he 3 d advocated the exploration and survery of the iron mines on the Island, which were now attracting the atten-tion of capitalists abroad; he was a Candidate and Other Speakers warm friend of labor, and had introduced excellent legislation, and he sup ported the subsidizing of a railway line on from Victoria to Fort George, which would give direct connection with a great transcontinental line. When Mr Shepherd asked what their member had done, the only answer could be that he

# PEACE PROBABLE **IN NEAR EAST**

NO. 84

POWERS TO FIND A FRIENDLY SOLUTION

## Servia is Less Belligerent-**Russia's Claim to Passage** of Dardanelles.

London, Oct. 12 .- The news received this morning from the storm centres in the Near East confirms the belief held in London that the powers will find a friendly solution of the crisis which has agitated Europe for more than a week. Servia, it is now thought, has fallen in line with the other states directly interested, and is taking a more quiet view of the situation. The resolution of the Servian national assembly, passed this morning, which amounts practically to a vote of confidence in the government, has taken the matter of Servia's attitude toward Austria-Hungary out of the hands of that easily swayed body, and placed it with the cabinet. The members of the cabinet are aware of the actual state of affairs, and doubtless will heed the warnings of the powers and take no rash steps. The owers can, therefore, continue negotiations in the matter of an international conference without fear of an interrup-tion by the outbreak of hostilities among any of the Balkan powers.

There is no reason to believe that the Russian minister of foreign affairs, in asking for a conference, does not desire to reopen the entire Near East-çrn question. That he is asking for something, however, is confirmed by a statement made to-day by an official of the Russian embassy. This diplomat said:

"Great Britain cannot adhere to the stand she has taken, namely that the conference must be confined to the actions of Bulgaria and Austria-Hungary."

Lulu, Miss., Oct. 12 .- Jim and Frank The cabinet had a long meeting this

and the steps taken by it, expects vigorous activity will be displayed for protection of the nation's threatened in-RUSSIA-OR DIE terests. With this object in view the Skupshtina will support the. government to the fullest extent." The Skupshtina has sent an encour

aging telegram of greeting to the Mon-tenegran national assembly which assembled to-day and voted an extraordinary credit of \$3,200,000 to the ministry of war.

War Fever in Montenegro Cettinje, Montenegro, Oct. 12 .- The St. Petersburg, Oct. 12 .- Only the Montenegran national assembly opened The war fever rising from the incipient consumption, Empress Alex-andra has refused to take the only pos-Bosnia and Herzegovina which already ant, because if the West goes Liberal, as usual, and the eastern province on the whole do not, then a situation of the gravest political dangers to Concident the the structure of the structure the gravest political danger to Canada physicians and the issues only on one upon the people of Montenegro, and ed in righting this grievance.

On Grain. German steamer Serapis, Captain port last evening bringing a consign-ment of about 250 tons of nitrate for the tory, have become so wedded to its op-posit, that is an old truism of Cana-true cannows and the case of the c policy, recalled Cyprus and Egypt to show that Great Britain has not always been the disinterested friend of Turkey

The Temps thinks that the Anglo-Russian entente justifies the regime in the Dardanenes, so irksome to Russia, being modified. It argues that it would be possible for a new arrangement to be reached, conciliatory, to the interest of all and without danger of humiliating Turkey, and suggests the ap-plication of the rules ratified in 1888 neutralizing the Suez canal and placing it under a joint commission.

"A new, sincere and less vexatious arrangement," says the Temps, "seems to us to be desirable as a guarantee for the fucure.'
