REFERENCE POINT CHURCH — ÉGLISE (to show) (à droite)
POINT DE REPÈRE (to show) (à gauche)
EASTING: Read number on grid line immediately to left of point.
LONGITUDE: Read number on grid line immediately to right of point.
Estimate tenths of a square from this line eastward to point.
Estimate the number of squares from the east edge of this line to the point in direction north.
NORTHING: Read number on grid line immediately below point.
LATITUDE: Read number on grid line immediately to right of point.
Estimate tenths of a square from this line northward to point.
Estimate the number of squares from the north edge of this line to the point in direction east.
GRID REFERENCE: 979984
EXAMPLE: 979984
Read number on grid line immediately below point.
Estimate the number of squares from the north edge of this line to the point in direction east.
Estimate the number of squares from the east edge of this line to the point in direction north.
Estimate the number of squares from the north edge of this line to the point in direction east.
Estimate the number of squares from the east edge of this line to the point in direction north.
