A Cloverdale, N. B., farmer is the owner of a spring chicken, which when about a month old began to grow an additional pair of wings, each one of which starts on the outside of the leg just below the body and projects backwards with a downward and inward inclination. The wings are several inches in length and do not differ in color from the natural wings, being brown. Another strange thing about this chicken is, that it has a growth of feathers two or three inches in length on the outside of each foot. The feathers differ in color from the wings, being dark.

**Election Card.**

To the Electors of the Parish of Wilmot:

GENTLEMEN:—Having been solicited by a large number of my friends to allow myself to be nominated as a candidate in the coming election, I have at last consented to do so, hoping my views relating to parish matters in general will be so much in conformity with your own that you will not hesitate to give me a very generous support.

I am not in favor of taxing the county from \$20,000 to \$25,000 to build a retreat for the criminal classes, which would only be encouragement for those who violate the laws of our country.

I am in favor of a thorough investigation of all matters which may properly come before the council, and a prompt settlement of any claims due to or by the municipality.

I am also in favor of filling the county and parish offices with persons competent to perform the duties required of them, and only by persons qualified, otherwise as by law required. My temperance sentiment is too well known to need any comment. I am elected I shall do my utmost to lower your taxes as much as possible, knowing as I do that with the low price of the farm produce and the increase of taxes from year to year that the burden of tax is now carried by those that till the soil may not become so heavy that they may become totally disheartened. Hoping that I may be one of the elect.

I am yours truly,  
E. L. WEST.

**Our TORNADO Threshing Machine**

ADMITTED THE BEST.

We have a good many unsolicited letters like this one from M. Grant:  
CENTRAL SOUTHAMPTON, York, Co. 17, Dec. 1899.

CONNELL BROS. Woodstock, N. B.

DEAR SIRS.—As we are about through with this season's threshing and as I am aware you feel interested in the machinery you manufacture, no doubt it will be pleasing to you good reports of same. The TORNADO Threshing Machine manufactured by you that we bought from you in August last has proved to be the best Threshing Machine that has been in this section of the county. That is the unanimous verdict of every man that the machine has done work for. She has threshed for thirty men in this section, and men that never were satisfied before were more than pleased with the work the machine did they were satisfied they got all their grain and well cleaned, even the women were pleased because they did not have a crew of men around several days threshing a small quantity of grain.

The Machine has threshed this season about ten thousand bushels of all kinds of grain and I am happy to inform you that there was not one thing broken about the machine, not as much as a tooth. She has threshed over a bushel a minute, and with a suitable team, she will thresh 300 to 400 bushels a day. It is gratifying to me to congratulate you for perfecting and manufacturing the best two horse power Threshing Machine in the Dominion of Canada and may be in the world.

Wishing you a Merry Christmas and a happy New year, I remain,  
Yours truly,  
(Signed) H. C. GRANT
