PARIS DISASTER.

Eighty-four Bodies Have Already Been Recovered.

And the Death List Will Probably Exceed One Hundred-Hard Work of the Rescuers.

PARIS, Aug. 11.—Eighty-four bodies have been recovered and the death list probably will exceed 100, on the underground railway disaster, which occurred here last night. The accident, which occurred on the Metropolitan lectric railway, assumed terrible proportions early this morning. More than our score bodies of the burned and uffocated victims were recovered from the subtarranean passage. The work ontinues and indications are that the leath list will perhaps exceed five core.

scription. Crowds of weeping men and women struggled forward in an effort to recognize their missing relatives and friends. Most of the victims are from the middle and working class, as the trains were carrying them home from their work. Atthough the accident occurred at 5 o'clock last evening, the officials and firemen were unable early this morning to descend into the tunnel on account of the blinding clouds of smoke from the burning train. Frequent attempts were made by heroic volunteers when it was necessary to rescue half suffocated people and carry them away to the hospitals. At ten minutes after three Sergeant Ahers, wearing a respirator, succeeded in making the descent. He remained seven minutes and brought the first information to the effect that corpses were strewn all about the roadway of the tunnel. Then he collapsed and was taken to the hospital. Twenty minutes later, firemen forced their way down through the tunnel station at Monimonelt and returned soon afterwards with seven bodies, two men, two young women and three boys. These persons had been agroping through the smoke that filled the tunnel, seaking a way to escape, when they were overcome.

The work of bringing up the bodies work on steadily after that, under the direction of Prefect of Police Lepine, who summoned a large reserve force to hold back the crowd, including the relatives of the victims.

There is trouble between Le Soleil and L'Evanement of Quebec. A despatch from Rome states that the Pope rose at 5.80 on the morning after his election. The Pope is reported to have said that he did not desire to change his habits. As the despatch appeared in L'Evenement the Pope "ne desirait pas changer see habits." The intimation that the Holy Father was unwilling to change his clothes, leads Le Soleil to say that Senator Landry, whom it accuses of some connection with the offending newspaper, used to wear a certain garment supposed to date from the time of the French regime.

SAN FRANCISCO, Aug. 10.—The latest news from Harbin Springs is to the effect that Champion Jeffries now weighs close to 230 pounds, but does not appear to be fleshy. Trainer Delaney is confident that the fight with Corbett next Saturday will be a short one. "The champion," he said, "does not intend to permit the bout to drag along to an endless length. Jeffries will fight with such strength and speed that he will early bring Corbett down to his level in the question of egility. When he once gets him there the battle can be considered over."

Well, I hope he tries to, for if he does he will find me on hand. He will not have to chase me cither, for I have invented a short arm defense which I believe will prove an enigma to him. I am much stronger now than I have ever been and firmly believe I will be able to put force enough in my blows to knock Jeffries down and put him out."

The pope has been over exerting himself to such an extent that his naturally strong constitution was unable to bear the strain put upon it by the coronation ceremonies. Pope Pius was seen to grow paler and paler, finally throwing out his hands as though seeking support. He would have fallen had not Mgr. Bressan, his private chaplain, been quick to catch him. It is impossible to describe the confusion and alarm among the worshippers while the pope lay motionless and unconsclous with his eyes closed. Fortunately, among the Venetians present was Dr. Davenezia, who for nine years had been the pope's attending physician at Venice, but had been called only once during that time to treat a sore throat. Davenezia gave the pontiff immediate assistance, while the messengers telephoned for Dr. Lapponi. The latter rushed to the vatican, but did not arrive until after the pope had been restored to conscithe pope had been restored to consci-ousness and taken to his own apart

Allen, the Defaulting Treasurer, Was Seen in Rochester on Thursday.

BOSTON, Mass., Aug. 11.—It was stated with assurance last night, although confirmation by officers of the society was not to be obtained, that the funds of the Methodist Episcopal Society, of which Willard Allen was treasurer, and amounting to several thousand dollars, had been entirely wiped out by the defalcation. Louis Cates, a life long acquaintance of Allen, who has been in the west, returned to Boston last night, and reported having met Allen at Rochester, N. Y.. Thursday last, the day before the defalcation became public. While the train on which Mr. Cates was coming east was standing in the station, he approached the absconding treasurer, by whom he was cordially greeted. Cates asked the other Joking't whether he was not a long way from home. Allen replied in the affirmative, and added that he intended taking a long vacation as his health was not good. Last night the police were notified and Inspector Burke was immediately dispatched to Rochester.

It is Expected that the Gate Re ceipts Will Amount to \$50,000.

SAN FRANCISCO, Aug. 11.—While betting is rather quiet on the big fight, about to come off between Corbett and Jeffries, the lack of interest in this respect is more than made up by the enthusiasm which is being developed ail over the country in the coming contest. The saie of seats for the contest will be one of the largest in the annals of pugilism in this city. The gate receipts, it is said, will amount to \$50,000, and it is expected that nearly a third of the audience will be made up of visitors from out of town. A party is being made up as far away as Philadelphia and reservation made of a block of twenty seats. Both men are now tapering off in their training. Corbett still does a fair amount of work, buf it is principally limited to physical culture movements. At Harbin Springs, Jeffries is finishing up work and will arrive here on Thursday to enter the ring on that evening. Both men are said by experts to be in the pink of condition.
