

## PUGSLEY TELLS HOW HAZEN ETAL STOOPED TO CONQUER

Another Splendid Effort by Minister at Gagetown

Picnic

LAUDS CANDIDATE, COLONEL McLEAN

The Colonel Delivers Excellent Address—  
Queens-Sunbury in Line for  
Liberalism

GAGETOWN, Sept. 11.—The Liberal picnic held at Upper Gagetown today was one of the most successful of the series which Col. McLean has been holding for the past two weeks in the constituency of Queens-Sunbury. The speakers of the day were Col. McLean, the candidate, B. R. Macaulay, of St. John, and Dr. Pugsley, Minister of Public Works. The greatest of enthusiasm marked the occasion. The attendance was remarkably large, all parts of the surrounding country being represented. William Macaulay, of Gagetown, acted as chairman. He introduced the candidate as the first speaker. Col. McLean received a most hearty reception when he arose to address the audience. He began his speech by remarking upon the success which had attended the picnics already held and also upon the fact that tomorrow's picnic at Hampstead would be the last of the series. His opponents evidently did not like his picnic campaign, said the colonel, but he was desirous of pleasing the people, not his opponents. (Applause.)

The speaker next referred to the fiscal policy of the Laurier administration and to the fact that the change in the tariff, together with the British preference had increased Canada's trade until the amount per capita was third in the world. At the same time the rate of taxation had been materially reduced. The government immigration policy also received some attention. In the last year, said Col. McLean, 250,000 souls had been added to the Dominion's population as a result of energetic work by the immigration department and while the present government had been in power 1,000,000 inhabitants had been received in the same way.

Scandals Dealt With

The scandals which Conservative speakers and newspapers had made out-

ferred to the benefit which the cold storage plant erected in St. John by the aid of the federal government and of the late provincial government would afford the farmers. He had formerly been a Conservative, said the speaker, but his eyes had been opened. He had been converted by what at present administration had done for St. John. That had been largely due to the efforts of Hon. Wm. Pugsley, whom he felt sure the electors of St. John would return to parliament as the electors of Queens-Sunbury would Col. McLean. (Cheers.)

Dr. Pugsley, the last speaker of the day, was received with a tremendous enthusiasm, which showed that notwithstanding what had been said about him by his opponents he had a very high place in the estimation of the people of this constituency. He complimented Col. McLean in the opening portion of his speech. The colonel, he said, was a native of Queens. An early age he had gone to St. John, where by industry, force of character and ability he had built up a successful legal business. He was also connected with many important enterprises. He was of the type of man which Dr. Pugsley thought would make an excellent representative. (Applause.) Col. McLean, said Dr. Pugsley, had shown his interest in Queens-Sunbury by the energy which he had displayed in urging the construction of public works, which the speaker had been pleased to approve of.

Referring to the Conservative convention at which Messrs. Hazen and Sprout and others had been present Dr. Pugsley commented on the fact that instead of discussing national issues the speakers at that gathering had stooped so low as to make grossly unfair attacks upon himself and to make statements wholly false.

Though greatly interested in St. John's welfare, said Dr. Pugsley, he would not have asked the government of Canada to make large expenditures on the port had they not been for the benefit of the Dominion at large and part of the grand Canadian policy of diverting traffic originating in the West from United States ports to those in Canada. The tremendous development in the western part of the Dominion would, he felt sure, result in such an increase in the quantity of grain shipments that would tax to their utmost capacity the terminal facilities at St. John, Halifax and other ports in the Maritime Provinces.

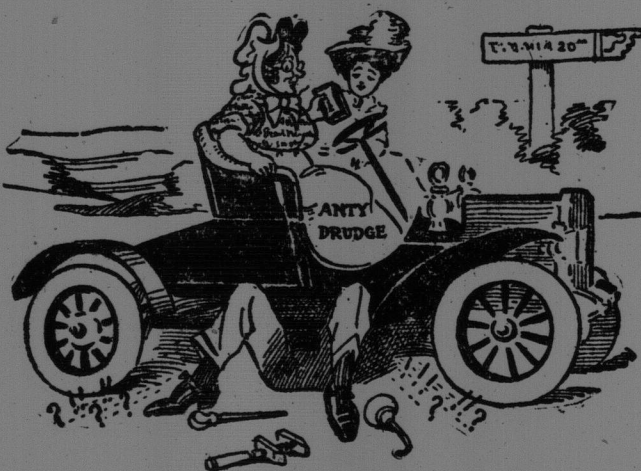

Besides attending to transportation matters the government had sought also by building wharves and breakwaters in the smaller places throughout the country to give the farmers better means of communication and the fishermen and coasters places of shelter.

The speaker closed his speech by refuting the charges of extravagance brought against the government. He was greeted with loud and prolonged cheering at the end of his address.

Dr. Pugsley returned to St. John tonight by steamer.

### THE VIOLIN.

The violin is mentioned as early as the beginning of the thirteenth century.

### Anty Drudge Tells How to Do "Dry Cleaning" at Home.

His Wife—"Come out from under there, George! Your clothes will be all covered with grease again and you know it won't come off. We'll walk home."

Anty Drudge—"Let him fix it, Dearsie; and don't fear the grease. Fels-Naptha will take out all the grease spots and stains. It's as good for 'dry cleaning' garments as it is for washing clothes."

Where there's a will there's a way. But, usually, only one way. Fels-Naptha is the way through which you can free yourself from the drudgery of the old-fashioned washday—if you will.

What is that drudgery? You know. Boiling clothes, making fires, hard rubbing.

Fels-Naptha lops it all off, takes it out of your washday program.

Fels-Naptha itself does all the work that you yourself would have to do in the roundabout way, summer or winter.

And it does it in cool or lukewarm water, without hot fire, without nauseous suds or steam in the house, without hard rubbing.

Have you the will to cut loose from the old ways—to free yourself from this drudgery?

Follow the easy directions on the back of the red and green wrapper.

### NO FEAR NOW OF GRAIN BLOCKADE

Threshing Has Now Commenced—No Apprehension

GRAIN HARVESTED

OTTAWA, Sept. 11.—Tenders are being called for the construction of locomotive shops for the Winnipeg terminals of the G. T. P. The following condensed particulars as to harvesting conditions on the west have been received by the interior department from their agents in the west. Reports on western conditions of crops, fuel and transportation for the week ending September 10th, show a most satisfactory conclusion of harvesting operations, and a feeling of safety with regard to the present facilities for removing the grain, but in some districts a little uneasiness regarding the local supply of fuel for the coming winter. Practically speaking all the grain has been harvested and threshing operations have commenced.

Lots of Employment

This will give considerable employment to the surplus farm hands that have crowded some districts. Nevertheless all reports to hand at this writing state that there is ample supply of help for all local demands.

In Alberta it is worthy of note that the market for cattle and horses is good and the stock being in exceptional condition are realizing good prices.

So far transportation conditions do not give serious apprehension, although while the strike is an actual fact it is doubtful as to what may happen in the near future, when the rush of grain is on. In the province of Manitoba reports state that there is a plentiful supply of wood and coal for the winter. This also applies to Saskatchewan, except in some few places.

### THERMOMETER GOES TO 77 YESTERDAY

Yesterday was an exceptionally fine and warm day for the month of September. There was considerable smoke in the air. The highest temperature registered was 77 degrees during the afternoon. The warm weather was felt by all during the afternoon. In the evening at 9 o'clock 84 degrees was registered. It looks as though there would be fine weather for the exhibition.

TRULUS, Sept. 11.—Julian Clerice, the composer, is dead here. He was born in Buenos Ayres in 1883 and came to Paris in 1882. He composed several comic operas.

### CROP ESTIMATE OVER A MILLION

Constant Uniformity Maintained in Maritime Provinces

MONTH'S REPORTS

OTTAWA, Sept. 11.—The census and statistics monthly for September, published by the Department of Agriculture, estimates the Western wheat crop at 104,025,000 bushels, as compared with an estimate of 110,524,000 bushels made at the end of July from reports received from special correspondents throughout the West. The estimated yield of oats has also fallen from 120,358,000 bushels to 117,800,000 bushels, and of barley from 23,597,000 bushels to 23,951,000 bushels.

The rainfall of the month, according to reports sent the department, was scant and the temperature high throughout Canada and the condition of the later ripening cereals was somewhat lowered as compared with the promise of June and July. A fairly constant uniformity was maintained in the Maritime Provinces, excepting in the case of spring wheat in Prince Edward Island, where the condition fell from 54 in June to 64 in August. In Quebec the outlook has continued to be favorable and in Ontario also, in spite of the drought, the conditions have been fairly maintained. West of the Great Lakes cereals were considerably affected by hot winds in August, but less in Alberta than elsewhere, owing to the early ripening conditions there.

### AGED MAN WALKS

OUT IN THE BAY

Mentally Unbalanced, George C. Brittain Attempts Suicide

ST. MARTIN'S, Sept. 11.—George C. Brittain, an aged shoemaker living alone in a house on Park street, has been found mentally unbalanced lately. This afternoon it was reported that he had attempted suicide. At 3 o'clock he walked out into the bay and had got beyond reach, when he was luckily rescued by James Sprout, of Hampton, who is foreman here on the Grand Trunk Pacific concrete work. Mr. Sprout took Brittain to his own house.

While the suicide theory is generally believed a large number are of the opinion that Mr. Brittain was so weak that he was unaware what he was doing when he took the step which so near endangered his life.

### Who Doesn't Like Toast?

Bread of our baking toasted properly is a treat to almost every one, sick or well, whether it's dry, or buttered, covered with boiling water or boiling milk there's not a man, woman or child not fond of good toast. See that Heatt's Hygienic Bread is the foundation. Bakery—134 to 135 Mill street. Phone, day and night, 1167.

ERNEST J. MEATT, Proprietor.

### DOUBLING THE RATE FOR WINTER MONTHS

Emigration Has Been Cut Down One-Half by Restrictive Policy

A WISE POLICY

OTTAWA, Sept. 11.—An order in council has passed raising the minimum money qualification of \$5 now required for emigrants coming to Canada, to \$50 for the period from Jan. 1 to Feb. 15. The doubling of the money qualification during mid-winter is with a view to restricting as far as possible the arrival of any emigrants thought to be without independent means during the period when employment is not easy obtained. The restrictive emigration regulations adopted by the government early this year have had the desired effect in cutting down emigration this year by considerably over one-half and the total emigration for the year will, it is expected, be only a little over one hundred thousand.

Financial Statement

The financial statement of the Dominion for the first six months of the present fiscal year, shows a total revenue of \$33,444,571, as compared with \$4,856,406 for a corresponding period last year, a decrease of \$28,588,165.

The manufacturers of wall-paper in Germany have at last succeeded in forming a trust. The total output of wall-paper in that country is valued at \$7,000,000 and the five largest concerns have gone into the combine.

### FIRES ATTACK A QUEBEC VILLAGE

QUEBEC, Sept. 11.—The district of Beauce is being devastated by forest fires. Millions of cords of pulp wood have been destroyed. On Wednesday night the village of St. Tonin de Shaney was attacked by the flames and partly destroyed. Fully thirty buildings were consumed, notwithstanding the hard battle fought by the inhabitants against the devouring element. For over a week the village had been surrounded by forest fires, which gradually crept up until the village itself was attacked, destroying residences, barns, saw mills, cheese factories, stores, etc. The fire was still raging in the vicinity of the village at last account. The village of Weeden was also being threatened by a forest fire, and other points in the eastern townships were also raging.
