Grand Falls, Perth, Chatham, Pinder, Millstream, Shediac and Other Places Preparing For New Crop.

A few weeks ago it was announced that the Department of Agriculture had decided to increase the grants to four mills which were to be erected in the province from one to two thousand dollars. This was to be given on condition that prospective millers erect mills with a fifty barrel per day capacity instead of the old twenty-five barrel mill which the government bonded to the extent of one thousand dollars. It was also decided to have mills erected at Grand Falls, Perth, Chatham and at Pinder, York county.

Mr. George Pinder, of Pinder, proposes to erect one of these mills and be ready to grind the season's flour for corn for the farmers of that district. It is understood that the cost of erecting the mill will be in the vicinity of ten thousand dollars. He will receive the provincial government bonus of two thousand dollars.

Mr. G. Charles Reinsborough, of Chatham, will also erect a ten thousand dollar mill which will have a capacity of two thousand barrels. In addition to milling Mr. Reinsborough intends to install apparatus to crush oats and other cereals and may even take up the manufacture of a brand of breakfast food.

Arrangements have not yet been completed for the erection of the other mills. One of them, however, will be located at Grand Falls and the other at Andover or Perth.

Mills have been built at Millstream, Shediac and other places. Besides the modern mills a number of old-time grist mills will continue to do business.

Arrangements have not yet been completed for the erection of the other mills. One of them, however, will be located at Grand Falls and the other at Andover or Perth.

Mills have been built at Millstream, Shediac and other places. Besides the modern mills a number of old-time grist mills will continue to do business.

MARINE PREFERRED A MARKET LEADER FOR SHORT TIME

Realizing Towards End of First Hour Wipes Out Many Early Gains — Good War News.

(McDougall and Cowan.)
New York, Sept. 28.—The market opened with fractional gains with trading lively at the outset. Some of the issues which made the largest gains yesterday sold off, but many of them made a partial recovery later. Marine Preferred, which had been reactionary, was the leader early, but by the end of the first hour, realizing wiped out many of the early gains. The close was quiet and steady. Cables reported British troops making further gains around Cambrai, having taken 10,000 prisoners since Friday morning, and had begun a new offensive in Flanders. A London dispatch said Americans had broken through the subsidiary defenses behind the Hindenburg line on a ten mile front, northwest of Verdun.

GENERAL REACTION IN WALL STREET NOT WIDESPREAD

United States Steel, Mexican Oil and Baldwin Under Pressure.

CANADIAN PACIFIC SHOWS SOME LIFE

Some New High Records Established, But Market Generally Heavy.

New York, Sept. 28.—Trading in the stock market today was in fairly large volume for a short session, notwithstanding Wall Street's interest in the military and naval demonstrations held in the financial district in connection with the inauguration of the Liberty Loan campaign.

The outside demand for shares engendered by yesterday's marked rise, was supplied by the professional element, and there was continuous profit-taking which carried prices down. The readiness evinced by investors, however, to absorb the standard shares at concessions, and a continuance of the recent special buying in particular stocks, kept the general reaction within narrow bounds. Lib- eral offerings of United States Steel, Mexican Petroleum and Baldwin Lo- comotive encouraged professional sell- ing, and their heaviness counteracted intermittent intervals of strength in Marine Preferred and Canadian Pacific.

New High Marks.

Some new high records were estab- lished, but the whole market felt the effect in the final dealings of the per- sistent pressure against United States Steel, and several other leaders.

Sales amounted to 2,700,000 shares. Extensive bank statements showed the effect of the early restrictive measures toward borrowers, loans de- creasing \$14,184,000. Surplus re- sources decreased \$13,700,000.

Extensive offerings of the Liberty Bonds carried these issues down sub- stantially, but foreign war issues sold higher.

Tail sales (per value) \$4,450,000. United States Bonds, old issues, were unchanged on call.

THE LACROSSE CHAMPIONSHIP

The Maitlands Defeated St. Catharines At Toronto Saturday By Score of 5 to 2.

Lacrosse team defeated St. Catharines here today in the first of the home games for the C. L. A. championship, by a score of 5 to 2. About a thou- sand fans braved the cool breeze to wit- ness the game. St. Kitts brought along all of the regular team and had four additions from Montreal, in the per- sons of McCarthy, Farney, Doran and Walsh. Maitlands had only their usual team.

Toronto, Sept. 28.—Toronto Scottish defeated the Davenport Albions in the final soccer fixture for the Ontario cup at the Varsity Stadium here this af- ternoon by 1 to 0. The lone goal was put over in the latter part of the sec- ond half.

SPORTING NEWS AND GOSSIP

ISLAND RACE MEET CLOSED ON SATURDAY

White Sox Broke the Track Record — Boutillier Drove Into Peter Farren, Causing Small Riot — Exciting Match Race.

Charlottetown, P. E. I., Sept. 28.—The exhibition races closed today with fine weather and good track, and it was the most sensational and exciting day of the meet.

The 235 trot stake and the 222 trot, 225 pace, unfilled yesterday owing to the heavy rain, were finished.

The feature of the day was the breaking of the track record of 2:13 1/4 (made by Locomotive) by the Sussex mare White Sox, driven by Fred Carson.

The 235 trot stake and the 222 trot, 225 pace, unfilled yesterday owing to the heavy rain, were finished.

The feature of the day was the breaking of the track record of 2:13 1/4 (made by Locomotive) by the Sussex mare White Sox, driven by Fred Carson.
