

## AROUND THE CITY

### FAIR AND WARMER

**TWO YOUNGSTERS ESCAPED.**

Both these young ladies passed their second year examinations with honors. They are both graduates of St. John High school.

**GOOD CROP EXPECTED.**  
A. G. Turner, the provincial horticulturist, reports that the prospects are good for the New Brunswick apple crop this year. The trees have wintered well and show a plentiful supply of blossoms. Owing to the heavy preceding winter the apple trees were not in good condition and the crop was not much more than half the normal yield. Fruit growers are giving increasing attention to their orchards, and spraying is generally adopted.

**THE WAR VETERANS' REGULAR MEETING.**  
Resignation of President Logan Read and Accepted—Election for Vacant Office at Next Regular Session of Association.

At the meeting of the G. W. V. A. held last evening the business transacted was largely of a routine nature. William Vassie, 2nd vice-president, occupied the chair. The secretary read the resignation of President G. Earle Logan, and this was accepted. It was decided to hold the election for the vacant office at the next regular meeting. The secretary reported that any man whose discharge certificate was not properly made out could have the errors in it rectified by applying at the office of the Association.

## Suggestions At Citizens' Meeting

**Problem Created by Court House Fire is Still up to Commissioners — Projects Offered Yesterday Were Numerous.**

Various suggestions to solve the problem created by the fire in the court house were put forward at a meeting of citizens held in the mayor's office yesterday afternoon, but it will apparently still be up to the city commissioners to make a decision as to what to do in the matter. One suggestion was that the city should purchase the whole block on which the courthouse is located, and put up a handsome building there to house all city and county offices, as well as the courts. Such a building would be, it was said, a civic centre of which every body could be proud, and give the city a character for municipal enterprise that would make it famous. Another suggestion was that the court house should be repaired, have another story added to it, and be used for city purposes, turning over the present city hall to the county officials. Included in this suggestion was the proposal that a new court house should be built on the vacant square on Prince William street opposite the Customs House.

Other citizens thought that the city should tear down the old court house and build a new one on the site, a modern building. It was said that the Barristers' Society had discussed the question and that there were many views as to what should be done. The city commissioners did not appear to be particularly enamored of the more ambitious projects, having no doubt in their mind a prudent concern for the tax rates, which in spite of the commission form of government have persisted in going up all the time. Also while it was recognized that St. John could do with some fine new buildings adding to its architectural beauties there are more citizens who would be better suited to public buildings, and there are also many who think that if the city can raise any money for public improvements something ought to be done about the streets.

However, if the city gets paid for its harbor property it will have a few dollars to spend on self adornment, and the city commissioners do not appear to be likely to make a hurried decision as to what to do about the court house in view of the chance of getting \$2,000,000 or so from the Dominion. Rupert Wignone, M. P., was present at the meeting.

**Grand Opening of Odd Fellows' Fair.**  
Premier Foster, Mayor Hayes and Commissioner Jones Took Part Last Night—All Trails Lead to St. Andrew's Rink This Week.

The grand opening of the Oddfellows' Fair took place last evening in St. Andrew's Rink. Premier Foster, Mayor Hayes and Commissioner Jones took part in the opening exercises and all the attractions got away to a great start.

The interior of the old rink was a mass of color and light. The committees in charge of the different booths had everything in full swing, and the large crowd in attendance had all sorts of opportunities of passing both a profitable and pleasant evening.

Everyone purchasing an admission ticket had a chance of securing a load of coal and ticket 350 was the lucky draw, but at the time of closing last evening the owner had not claimed his coal. Another load will be available tonight.

The tight-fisted Scots loosened up better than either the English or Irish with the result Scotland led the others in the voting contest for the most popular country. It only cost a nickel for a vote. The representative of the society of the country receiving the most votes during the week will be given a huge flag.

Dainty teas and refreshments were served in the Japanese room where Miss H. A. Smith was in charge. The ice cream department was well patronized. Mrs. William Gibb and her staff were kept busy at all times.

A novel feature was the Chinese Laundry, where Miss Garnet and her associate Chinks delivered a variety of laundry parcels. For a time one could secure about fifty cents worth of goods of the kind usually found in a laundry.

Mrs. C. R. Nelson and her associates sold chances on different fancy goods. The exhibit of fancy work was particularly fine and the arrangement of the decorations was pleasing.

At the candy counter there was a great variety of home-made and other sweets. Mrs. Joseph Murdoch was in charge here and her wares were in fine demand.

Besides all this there was a place where you could throw things at the Kaiser or take a chance with an air rifle or with some of your loose change.

The Temple of Honor band played a programme of dance numbers and there was a fine floor to try out.

Even if one is not lucky, several pleasant hours can be spent any afternoon or evening during this week in St. Andrew's Rink.

All the money realised will be spent on the orphans and the homeless. A record attendance is expected this afternoon and evening when all the games will be given full blast as well as a delightful card concert.

**PERSONALS**  
Mr. and Mrs. A. McN. Shaw are expected to arrive at their summer cottage at Pan-deux Bay.

## Board of Trade Monthly Meeting

**After Session Last Night Meeting Adjourned Until First Monday in October—Little Business Was Transacted.**

The last monthly meeting of the Board of Trade until October next was held last evening. After the reading of the minutes of the May meeting and the summary of the May council meetings a resolution moved by W. C. Allison and seconded by R. H. Dockrill, that when the meeting adjourns in October until the first Monday in October was passed.

W. C. Allison asked whether anything further had been done in the matter of the minimum charge imposed by the C. P. R. for top wharfage on goods shipped by the steamer Empress. The charge is two cents per hundred pounds, with a minimum of fifteen cents. The merchants do not object so much to the charge as to the amount of the minimum, which they claim is driving business from St. John to other places. Secretary Armstrong explained that the matter was being taken up with the C. P. R. by the chairman of the costal services committee, G. B. Barbour.

The secretary reported having received from the Chambers of Commerce of Windsor and Guelph, invitations for the St. John Board of Trade to pay them a fraternal visit. The meeting then adjourned to meet in October unless sooner called together by the president.

At that place he gave a number of addresses and lectures on the necessity for conserving the supply of this fast disappearing crustacean, and much of his time will be devoted for that purpose. He also made some direct observations on the lobster, going out with the fisherman. From here he expects to go to Nova Scotia and a little later to the Magdalen Islands, where he will spend some time carrying on research work in connection with the lobster.
