PEOPLE WE KNOW.

The type of humanity that knows it all is not yet extinct. When the popular mind is agitated over any question as it is at present over smallpox, the person who knows it all is particularly in evidence. You have all met him the last week or two and he is almost worse than the disease itself. He starts out by informing you that the doctors of St. John should all be hanged and that if he had been in charge of the public health there wouldn't be any such thing as infectious disease. After hanging the doctors for permitting the infection he proceeds to arruely the newspapers for telling the people that it exists in St. John. His lengthy dissertation on how to run a newspaper is usually ended by his query to you if you happen to be a newspaper man "Have you heard of any new cases?" And then he continues to wonder why the newspapers print the news.

Perhaps the most unpopular man we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor, he is always with us, although we know is the tax collector. He is like the poor is the extent of the left ear which was making the race one sided in this important discovery ridiculed. My friend informed me is twas the habit of vaccinating on the left arm that caused the peculiarity. It

The sect called the "Holy Ghost and Us Society" has been conducting a Bible school in St. John for three months, but little information respecting its work has reached the public at least through newspaper columns. This is the society which was organized by Rev. Frank W. Sanford at Shilo. Maine, where it built the "Temple of Truth" that cost several hundred thousand dollars. Among the miradles Leader Sanford claims to have performed was raising from the dead Mrs. Olive A. Mills at Shilo.

A band numbering fourteen members of the society arrived in St. John last July, and the work of evangelization has been going on here since that time. At present there are five persons in the school, the others having returned to the temple at Shilo.

Friday The Telegraph visited the school which is located on the corner of Queen and Wentworth streets. Being informed that the head of the school was Elder Higgins, the reporter was admitted the least of the school was Elder Higgins, the reporter was admitted by the members as living apartments. Rather modestly furnished, the place has the appearance of domesticity excepting for the mechanical click of typewriters. A NOBLE WORK BEING DONE IN HELPING THE FALLEN.

the visit of some coun. ed conditions of the 20th century girl. He lead been intending of One of St. John's Institutions, the Salvation Army Maternity Home and Refuge--Its Work and Methods.

> There are few cities in Canada which is its chief charm. Its inmates come from nake a better showing of charitable instisome one has observed, these institutions are a city's crown of glory, then have we reason to be proud indeed of our achievements in that line. Every church has its

special arangements for the care of the sick and the needy, the unfortunate ones of earth who wask in the shadow of dark trais, and upon whom fate has bestowed rowns instead of smiles. These arrangements are, as a rule, broad and comprenensive, and the distribution of charity as reduced to a system in most of the churches, which makes it most effective and far reaching. These are denominational and of the good work of each The and far-reaching. These are denominational and of the good work of each The relegraph told in detail some time ago.

Inere is, however, another institution in this city which knows no lines of creed or condition, and where a certain class is befriended for whom no provision has otherwise been made. Through creeds may differ and each have its own claims regarding the orthodoxy of form and ceremonials, there can be but one opinion recording the humans and charitable work.

nity home and refuge on St. James street. The Evangeline Home and Hospital it is called, after a daughter of the great founder of the army, and herself a tireless worker among the unfortunate of her

life has been unkind, and who are now reaping the remorse that comes of having loved not wisely but too well. The major

sion, was bought and put into order for practical work. There are 13 of these homes in Canada, and the need of them is ever growing. The Evangeline Refugr to whom is the practical work. There are 13 of these child, after a certain age, with us, a small monthly payment being exacted for board. I need hardly say I suppose that we self-contains at present 19 women, to whom dom get paid. We meet with considerable ingratitude, though indeed, personally, I like to think of it by some other name than that, for we can't always control circumstances and it is impossible to Lose Muscatel,

parts of the province. Since the opening of the home, 107 women have been sheltered and cared for in their time of trial. Eighteen babies, of varying ages are in the nursery and keep the staff busy keeping up with their numerous demands for attention.

Miss Holman, the present matron has been engaged in the work for 11 years and was on the staff of the first hospital opened, which was in Toronto. She is eminently fitted for the work and receives valuable aid from Miss Hicks, a nurse especially trained for maternity work, besides a corps of other helpers. The amount of good done by the refuge is incalculable and its quiet, unobtrusiveness

EXCESSIVE FREIGHT RATES

Railway That Reductions Must

Ottawa. Nov. 17.—(Special)—The extraordinary freight rates which are charged on the White Pass Railway are said by all Yukoners to be a great drawback to the development of that mining region.

The minister of the interior has been making an unofficial enquiry into the complaints that have been made from time to time, and has laid the whole matter before the minister of railways. In one case it is said that \$1.100 freight was charged on a carload of nails from Skagway to Dawson, a distance of 58 miles. Such rates were of course never sanctioned by law. Mr. Blair has, therefore, notified the company that a very large reduction will require to be made at once. The minister of railways has also called the attention of the company to the fact that the rates which are now being adjusted to the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way re suits in lung troubles that are called by serious names. It is in this irritated pronchal tube that the germ of consumption finds lodgment and breeds. Great numbers of persons disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botahic Cough Balsam is a well-known remediate thiroat. It soothes the irritated pronchal tube that the germ of consumption finds lodgment and breeds. Great numbers of persons disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botahic Cough Balsam is a well-known remediate throat.
