Medical Association Declares War Upon Christian Science Teaching.

TORONTO, March 4.—Stating that "the teachings on the subjects set forth in 'Science and Health' are a positive menace to the public," the Ontario Medical Association, in a memorial submitted to Premier Drury, declares war upon Christian Science. The memorial states that "a careful study of 'Science and Health' with 'Key to the Scriptures,' the text book of this denomination, and other writings of the cult, reveals a deplorable condition of ignorance about disease, injuries, matriculation and therapeutics."

The Ontario Medical Association, in the memorial, also asks that "no practice be given no consideration in law."

"It is anything at all," the memorial states, "it is only a system of gross and pitiable ignorance."

The memorial also states that "it is not a system of medicine at all, but merely a phase of general therapeutics or treatment."

"To allow osteopaths and chiropractors to secure the right to practice the study of a limited part of the medical course would be a very dangerous course," the Ontario Medical Association states.

The association takes the ground that all who in this Province desire to heal the sick or treat the injured should have the qualification obtained from the Ontario College of Physicians and Surgeons.
