Sandy Row, at which

the Rev. John Walker preached. A similar service had been held in the same place on Friday evening, at which the Rev. Robert Huston preached. On both occasions large crowds were in attendance, and the power of God was remarkably displayed. A Prayer Meeting was held after the sermon on Saturday evening, at which the Rev. W. G. Campbell assisted. Many penitents knelt in the open street, crying for mercy. The meeting was adjourned to the Wesley-place Chapel, and continued till half-past ten o'clock.

It has been said that, in that district of the town, in consequence of the extraordinary religious influence spreading among the people, the publicans have not one-tenth of the business which they formerly had.

On Sunday, June 19, the various Chapels were occupied by the Ministers who had come to attend the Committees.

In all these Chapels Prayer-meetings were held after the evening services, and many were brought into the enjoyment of forgiveness of sins.

A Field Meeting.—At three o'clock yesterday afternoon, a field meeting was held in the field opposite Eglinton-street and adjoining the Old Lodge road. Although rain was falling at the time, yet about three thousand persons attended and remained during the service, while several hundreds left owing to the unfavourable state of the weather, and it is not too much to suppose that had the day been fine it would have been the largest religious meeting which has ever been assembled in Belfast. The religious exercises were conducted by the Rev. Wm. Arthur, of London; the Rev. R. Wallace, of Londonderry; the Rev. Mr. Ballard; the Rev. W. Carey, of Manorhamilton; the Rev. J. C. Storey, the Rev. G. Vance, the Rev. W. G. Price, and other Wesleyan Methodist Ministers. Singing and prayer formed the chief portion of the proceedings, as it was considered best to terminate the meeting speedily as the evening was wet. The Rev. Robert Wallace delivered a very short address, and in concluding called upon those present who wished to show that they were for Christ to kneel down during the prayer, and this appeal was responded to by the vast congregation—formed of all ranks, classes, and ages—kneeling down *en masse* on the ground, while the Rev. Mr. Ballard offered up a most earnest prayer. The scene was of a most solemn and impressive character, not to be easily forgotten by those who were present.

At Sandy Row, another Open Air Service was held, at which the Rev. R. Huston preached from Matt. xi., 28. When the rain came on the congregation adjourned to Wesley Place. Open Air Services had been announced for other places at a later hour in the afternoon, but the state of the weather prevented their being held.

Deaf and Dumb Entertainment.—A most interesting examination of the pupils of the "Deaf and Dumb School" took place last evening, at the Temperance Hall, under the direction of their excellent tutor, Mr. Hutton. We have not for a long time derived so much real pleasure from any entertainment we have attended, as we did from witnessing the very creditable manner in which those afflicted but interesting children performed the various exercises submitted to them by Mr. Hutton. The correct manner in which they expressed by signs and gesticulations, the various sensations and passions of the human heart, such as love, hatred, anger, envy, suspicion, jealousy, &c., would form an instructive study for many intelligent persons gifted with the faculties of both speech and hearing. Several of the more advanced pupils exhibited considerable knowledge of geography, particularly that of Nova Scotia, and much aptness in natural history, besides a respectable knowledge of simple but correct composition. Their expression of mute devotion while reciting the Lord's Prayer in their own silent language, was impressive in the extreme. The patrons of the institution where these children are thus educated, are entitled to much praise for their beneficent charity, and Mr. Hutton is deserving of great credit for the evident progress they are making in their studies under his efficient management.—*Express.*

The new Spire of St. Matthew's Church, south end, is the most elegant specimen of ecclesiastical architecture in our city. It was designed by Mr. Thomas of Toronto, and erected by Messrs. Peters, Blaiklock & Peters.

From the ground to the vane the height is 170 feet, and from the base of the spire to its summit 69 feet.

We congratulate all concerned, designer, architect and congregation, on the erection of so graceful a structure—it is a credit to them and an ornament to Halifax.

And besides the credit it reflects on them, it indicates a growing desire to make the House of God excel in beauty the houses built for our own habitation.—*Church Record.*

Death of the Hon. Rufus Choate.—This gentleman, so highly distinguished in the neighbouring republic, arrived in this city, by the Cunard steamer, on Friday the 1st instant. Being in a very infirm state of health, he had set out for Europe, accompanied by his son; but by the time he had reached Halifax the invalid had grown so much worse that it was considered unsafe to proceed any further. He therefore disembarked here and put up at Mrs. Jubien's, Hollis Street, where he was attended by Dr. Domville, of the flag ship, and we believe, other medical men. The patient recruited rapidly after his arrival here and his health was so far improved that he was beginning to plan his removal from Halifax, when, about 2 o'clock on the morning of Wednesday last—13th inst.—he had a sudden and violent attack which in a few minutes terminated fatally. Mr. Choate was probably since the Hon. Daniel Webster's death, the greatest barrister in the United States, everything considered. The members of the legal profession of this city held a meeting in the Law Library, yesterday, at which they passed resolutions expressive of their condolence with the family of Mr. Choate, upon their great bereavement. Mrs. Choate, the lady of the deceased arrived here on Thursday night in the Cunard steamer from Boston.—*Recorder.*

A correspondent of the Miramichi *Gleaner*, writing from Dalhousie, says:

We are pleased to hear of the favourable condition of the crops in all directions. The catch of spring herring was unusually large, and the fish were fine. The Salmon up to the present time have been abundant, fine, fat and large.—One salmon was caught a few days ago in the vicinity of Dalhousie, in Mr. Dugald Stewart's nets, which weighed *forty-three* pounds.—This was, in olden times, a common affair, but of late years, a thing of rare occurrence.

The St. John *Courier*, of July 9 says, about nine o'clock last evening we were visited by one of those electrical disturbances of the atmosphere, which rarely fails to impress the most reckless with dread, and the philosophic mind with an abiding sense of the might and magnificence of nature's operations. The most vivid and continuous sheet lightning, springing seemingly from all points of the compass at the same instant, enveloped the city, while appalling peals of thunder crackled and reverberated overhead without cessation. For full three quarters of an hour the elemental conflict raged, a very slight rain falling at intervals. It finally died away in the North West, to the infinite relief, no doubt, of many families. We hope we may not yet have to record disasters caused by its close proximity in the neighborhood.

The Fredericton *Reporter* says, that there is to be a great Festival and Tea Meeting held on the grounds of the Hon. Judge Wilmot, some time in August, of which due notice will be given. It will doubtless be one of the most attractive ever known in the Province. In addition to many other well-conceived arrangements we have heard that it is the intention of the Hon. proprietor—in order to guard against the contingencies of sun and shower—to import a large tent, which will be capable of sheltering five or six hundred people. The whole decorations of the place will be extremely beautiful.

We learn that the Rev. John Prince has been appointed to Bedeque, P. E. I. We regret to have to announce this fact to his many friends, here who will sincerely regret his loss. We are pleased to know that the place of Mr. Prince, as likewise of Mr. Smith, who also is to be removed, is to be filled by gentlemen who sustain very high reputations for talent, and who, from personal acquaintance, we believe to be well adapted for this circuit,—namely, Revs. R. A. Temple and D. D. Currie.—*Carleton Sentinel.*

The number of persons assessed in St. John N. B. this year, amounts to 5,457. The real estate is valued at £1,815,975, and the personal estate of the inhabitants at £1,425,675. The per centage on £100 is fixed this year at £1 11s 11d. The poll tax now amounts to only 5s. The assessed taxes for Corporation purposes will be less this year than last.—*New Brunswicker.*

A sad accident occurred on Sabbath last at Grgetown, by which Thomas Johnston, Esq., son of the late Hon. Hugh Johnston of this city, and also Miss Gilbert, his sister-in-law, and daughter of the late Hon. Thos. Gilbert, of Gagetown, lost their lives. It seems that they were returning from Church in a closely covered carriage. When near the residence of Mr. Johnston the horse became ungovernable, backed off the bank of the river (the road being near the river in that locality), and bote found a watery grave. Assisting friends rushed to the rescue, but arrived only in time to take them from their watery bed of death.—*Christian Visitor.*

P. E. Island.

General Williams landed at Charlottetown on Tuesday the 5th inst, and was enthusiastically received. "The day" the *Islander* says "was set apart as a general holiday—the shops through the city closed—and every one appeared prepared to do honor to the distinguished visitor. Previously to the arrival of the Steamer, a large concourse of people from Town and Country had assembled on the Wharf. On landing, the General was met and welcomed to the Island by His Worship the Mayor and Common Council of the City, and by the former was accompanied to Government House, followed by the cheers of the assembled multitude.

The Civic authorities having expressed to his Excellency their desire to be permitted to present him with a complimentary address, arrangements were accordingly made to receive the same at twelve o'clock, in front of the Colonial Building. Arches had been thrown across Queen Street, at its entrance, and also near the City Hall, which were tastefully ornamented and bore appropriate mottos. At noon by far the largest number of persons ever seen together in Charlottetown had assembled. All the different Societies—the Free Masons, the Highland Society, the Benevolent Irish Society, and Sons of Temperance, dressed in their appropriate regalia—the Militia Officers, Civil Officers, &c., formed in order and proceeded to Government House, whence they conducted his Excellency, through the principal streets of the City to the Colonial Building. General Williams rode in an open carriage, in which, were the Lieutenant Governor, the Mayor, and the Recorder of the City. The several Societies with their bands of music and banners, preceded the carriage, which was followed by the Common Council, Officers of Militia, Civil Officers, Magistrates, the entire population of the city and great numbers of people from the country.

On arriving in front of the Colonial Building, the Address of the City was read by the Recorder, and appropriately replied to by General Williams." On Wednesday evening a grand banquet was given in the Colonial building.

Surrender of Indian Reserves.—We find it stated in the Toronto Colonist, that R. T. Pennefather, Esq., Superintendent of Indian affairs, visited Sault Ste. Marie during the past week, and succeeded in making Treaties with several bands of Indians for the surrender of their reserves, which were retained in most desirable locations at the time they made the Treaty with the Hon. W. B. Robinson for the surrender of the lands on Lakes Huron and Superior. The Sault Ste. Marie band surrender for £300 a reserve of 100,000 acres on the Goulias and Batchawana Bays along the shore of Lake Superior. The Garden River band for £300 surrender 60,000 acres of their reserve on Echo River and St. Mary's River, retaining 15,000 acres, on which they will be joined by St. Mary's band. The Thessalin band surrender their reserve on Lake Huron, comprising 30,000 acres, for £150. These reserves thus given up to the Government, and to be made available for the purposes of emigration, are said to contain a great deal of valuable agricultural land, besides much mineral wealth of copper and iron. We hope the Government have given the Red Men fair play, in driving this bargain with them, but if the lands is of any value whatever, it certainly does appear that the price paid to the Indians is ridiculously small.

Walking the Rapids above Niagara Falls 100 years ago.—A letter from Mr. Kalm, a Swedish gentleman, to his friend in Philadelphia, dated September 2nd, 1750, contains the following narrative:—

"Twelve years ago, two Iroquois Indians fishing above the Falls, were cast on to the Island. It was seven days before their condition became known. The Commandant, when he came to the spot, ordered poles to be made and pointed with iron. Two Indians determined to walk to the Island by the help of these poles to save the poor creatures or perish in the attempt. They took leave of their friends as if going to certain death. Each had two poles in his hands to set against the bottom to keep them steady. So they went and got to the Island, and having given the poles to the Indians there, they all returned safely to the main land. Those two Indians who, in the above-mentioned manner, were first brought to the Island, are yet alive. The Indians go to the Island now to kill deer, but if the King of France were to give me all Canada, I would not."—*N. Y. Com. Advertiser.*

The Boston *Traveller* of July 9 reports:

The Southern papers give full descriptions of the latest arrivals from Africa. They make no secret of the fact that the slave trade has been revived with that country, but they are horrified at the thought that there should be any people at the North so wicked as to resist the fugitive slave law, because it *is* law.

New York continues to improve under the effect of the closing of the liquor holes on the Sabbath. In some wards the reform is only half effected, the people drinking as much as ever, but entering the shops by their back doors, which indicates the existence of that sense of shame which is the first step towards reformation.—There was considerable "side-door business" done by the lager beer shops last Sunday, but not more than might have been expected. On the whole, the condition of the metropolis is quite hopeful.

Miramon has banished all the English residents of Mexico from that city. The young gentleman certainly carries matters with a very high hand, and will not behave civilly until he shall have been handsomely birched. We shall have to lend Gen. Scott and a few regiments to the English to set matters right in the sister republic.—What is odd, the English minister is represented as consenting to the banishment of his countrymen. Either they must be very bad creatures, or he must be a very poor creature.

Railroad accidents, drownings, burnings and explosions, murders with malice, suicides, and so forth, are raging; and this week, if all the instances of wounds and deaths could be collected in the United States, the returns would be found as horrible as those from an Italian battle field. We sometimes think that the only difference between peace and war is, that in the former the field of death and disaster is a wide one, while in the latter it is hedged in, a *champ clos* as it were, in which the dead and wounded are brought under the eye at a single glance. The 90 persons who were slain or mangled at South Bend, on Monday, would have made a liberal contribution towards the returns from a second class battle, a Palestro, or a Montebello.

Perry Davis' Vegetable Pain Killer I have used with great success in my family, in cases of colds and coughs, and also had the happiness to see my son immediately relieved of distressing dysensery, and completely cured in a few days.

The *Freeman* commentary on the dispute between the English and French on the subject of the Newfoundland fisheries, says:—

If the people of Newfoundland see no hope of retaining their exclusive rights, their best plan will be, instead of voting away their fisheries to the French, to vote away themselves, the island and all.

Our contemporary might have spared himself the trouble of throwing out the loyal suggestion, of annexation to France. The British do not surrender their colonies so easily, nor lose them quite so fast as the French. There are some changes going on in the world, but we have little fear either that France will be able to seize British possessions, or that England will, after past experience, not take ample care of the interests of her colonies. The same paper lately intimated to its readers that Ireland—free and prosperous though it is—was worse governed than Lombardy, where not a vestige of civil or religious liberty remains to a down-trodden and exasperated people! Shame on the British subject who could even insinuate that the Catholics of Austria enjoy a tithe of the privileges they do in Great Britain! How would the maxims of the Liberal party to which the Catholics of Ireland have so frequently attached themselves, suit in Austria?—*Colonial Presbyterian.*

Literary Notice.

The Scientific American.—The publishers of this widely circulated and popular illustrated weekly journal of mechanics and science, announce that it will be enlarged on the first of July, and otherwise greatly improved, containing sixteen pages instead of eight, the present size, which will make it the largest and cheapest scientific journal in the world; it is the only journal of its class that has ever succeeded in this country, and maintains a character for authority in all matters of mechanics, science and the arts, which is not excelled by any other journal published in this country or in Europe. Although the publishers will incur an increased expense of $8,000 a year by this enlargement, they have determined not to raise the price of subscription, relying upon their friends to indemnify them in the increased expenditure, by a corresponding increase of $2. Terms $2 a year, or 10 copies for $15. Specimen copies of the paper with a pamphlet of information to inventors, furnished gratis, by mail, on application to the publishers,

Periodicals Received.

From Mr E. G. Fuller we have *Blackwood's Magazine* and the *North British Review* for May.

Messrs Hall & Beamish have sent us the second number of Dickens' new periodical, "*All the Year Round.*"

The *Cosmopolitan Art Journal* for June has been received from the Publishers. To the friends of Art it is a desirable publication. It is issued quarterly. Subscription $2 per annum. Address 548 Broadway, New York.

The Wesleyan Methodist Magazine for the present month with the number for August, published in advance, is now on our table. It contains a portrait of the Reverend Enoch Wood. The value of this Magazine should induce every Wesleyan to subscribe for it. Its pages are filled with articles at once interesting and instructive and adorned by the graces of composition. Those who cannot conveniently afford three dollars a year for a Magazine of such sterling worth will find in the *Christian Miscellany* a most excellent monthly at two-pence sterling a number.

Erratta.—In the "List of Stations," published in the last number but one, for R. A. Temple, *Financial Secretary*, (Fredericton District) read, T. M. Albrighton.

Also, for George Johnston, *Financial Secretary*, (Annapolis District), read James Taylor.

The above will be found the reading in the published Minutes of Conference—*now nearly ready.*

☞ We are pleased to see the announcement in this days advertizing columns of Mr. Strong's intention (the present proprietor of the American Book Store) to commence forthwith his Circulating Library—or, as he calls it, a Subscription Library (not supported by Shares.) The plan, as gleaned from the Prospectus, is novel and enterprising, and we wish him success in his praiseworthy efforts. A Library accessible to all and at any time is a great privilege to a reading community. The Subscription Book is prepared—and we observe the Countess of Mulgrave has headed the list.

☞ We call the attention of our readers to the advertisement in another column to the following Testimonials: Further particulars given and orders received at the Wesleyan Book Room:—

From Geo. Washbourne Morgan, Organist of Grace Church and Middle Dutch Reformed Church.

University Building, N. Y. July 10, 1858.

Gentlemen,—The near approach to the *Pipe* or *Organ* tone attained by Messrs. S. D. & H. W. Smith, in the voicing of their Melodeons, united with their prompt and reliable action, entitles them to the *first rank* among this class of instruments. I cheerfully recommend them to purchasers either for *Parlor, Hall*, or *Chapel* use.

Geo. Washbourne Morgan

From B. F. Baker, Professor in the Boston Musical Institute, Author, &c., &c., and Director of Music at the South Congregational Church.

Boston, Nov. 19th, 1857.

Gentlemen,—I confess to have entertained a prejudice against Melodeons before having heard your instruments. But, by your new method of voicing, the monotonous, droning, buzzing sound, has been entirely cured, and in place of it a pure organ-like tone substituted. The action is prompt, and the tuning is really perfect. If your Melodeons receive the patronage they merit, they must come into very general use.

With regard, truly yours,

B. F. Baker.

Messrs. S. D. & H. W. Smith. 511 Washington Street, Boston.

From Rev. L. Smith.

Honolulu, Sandwich Islands, Aug. 25 1856

Gentlemen,—I am happy to inform you the Melodeon which you forwarded to my address remains "in good order and condition. We use it in our house of public worship, and every much pleased with it. The tones are very pleasant, much like those of an organ; and we do not regret the cost and charges of this coadjutor to aid us in singing praise to the Lord in his sanctuary. I shall take much pleasure in advising clergymen, as well as my friends and neighbors, to forward their orders for Melodeons whether to be used in churches or private parlors o you. Believe me, gentlemen,

Most truly yours, L. Smith

Park's Prickly Plasters.

They soothe pain; protect the chest; they extract the congulated impurities and soreness from the system, and impart strength. They are divided into sections, and yield to the motion of the body. Being porous, all impure excretions pass off, and they cannot become offensive, hence can be worn four times longer than any other plasters, and are cheaper at 25 cents than others at 10. *Where these Plasters are, pain cannot exist.* Weak persons, public speakers, delicate females, or any effected with side, chest or back pains, should try them. You will then know what they are. They are a new feature in the science of medicine. All Druggists have them. Take no other. Each Plaster bears a Medallion Stamp and our Signature.

Nash's Superior Horse and Cattle Liniment.—One of the most valuable articles ever offered to the public for Sprains, Windgalls, Ringbones, Spavins, Stiffness of the Joints, Fresh Wounds, Galls, &c.

This truly valuable Liniment has been extensively used for upwards of seven years, and in no instance has it failed to give satisfaction. The Proprietors cheerfully recommend the above remedy to the public, under the full conviction of its efficacy in the above mentioned diseases, where an external application is required.

It reduces inflammation or swelling, or where the flesh has become callous, it softens and reduces it, and produces a full and free circulation to the parts previously affected.

Numerous certificates from highly respectable individuals might be offered, "testifying to its efficacy" but the proprietors deem it unnecessary. All that is solicited is a fair trial of this Liniment, to convince the public of its value.

Sold in Halifax by appointment of the Proprietors at Morton's Medical Warehouse, north of the Province Building. All orders to be addressed to G. E. Morton & Co., or C. V. Poor & Co, Wholesale Druggists and sole proprietors, Boston, Mass.

NOTICE TO THE PUBLIC.

Compulsory Prepayment of Postage on Letters passing to and from the United Kingdom and Nova Scotia.

THE Government of Nova Scotia having some time since acquiesced in the proposal made by his Lordship the Postmaster General, to extend to Letters between the United Kingdom and this Province the system of *Compulsory Prepayment* of Postage, which has been applied with advantage to the Australian and some other Colonies, the Postmaster-General has been waiting the concurrence of New Brunswick in this measure to fix a date for its commencement.

Such concurrence having now been received coupled with a notice that it would be brought into operation on the 1st of August next, the Postmaster General has found it necessary for the convenience of the General Post Office to appoint the same day for extending the measure to Nova Scotia.

NOTICE IS HEREBY GIVEN that the system of Compulsory Prepayment of Postage on Letters passing to and from the United Kingdom and this Province will come into operation on the 1st day of August next accordingly.

To prevent inconvenience to the Public by the detention of their Letters for non-payment of postage until the new arrangement shall become generally known, Letters addressed to the United Kingdom posted in this Province, insufficiently prepaid, will be forwarded charged with the deficiency of Postage, and a fine of sixpence in addition, until the 1st of November next.

After that period, all Letters dropped into the Letter Box, *wholly unpaid*, or paid *less than a single rate of Postage*, will be detained and returned to the writer.

Letters on Service addressed to any of the Imperial Public Departments posted in Nova Scotia, will be exempted from the regulation requiring prepayment.

The Postmaster General begs to suggest that, in all cases, where practicable, the Postage on letters for the United Kingdom be prepaid by stamp.

Halifax, July 18, 1859 1m.

An Act to amend chapter 48 of the Revised Statutes "Of Townships and Township Officers."

(Passed the 15th day of April, A. D. 1859.)

BE it enacted by the Governor, Council, and Assembly as follows:—

1 The Clerk of the Peace shall cause lists of all officers appointed at the sessions for several Townships or districts to be posted in at least three of the most public places therein, within one week from the close of such sessions.

2. All such officers, except overseers of poor shall enter upon their duties on the twentieth day from the first day of the sessions, and the old officers shall serve up to that time. Overseers of the poor shall take office at the time now by law provided for the holding of the first town meeting after their appointment, and their predecessors shall discharge their duties of office until then

3. Surveyors of highways shall be indemnified by the County in cases where they may bring actions under the written authority of the two justices of the peace against persons neglecting or refusing to perform their statute labour.

4. All town officers shall be eligible for reappointment annually, and may serve in one or more offices.

5. Surveyors of highways shall make their return to the clerk of the peace at least twenty days before the meeting of the sessions, under penalty of ten shillings for each default.

6. The justices in session may fix the rate of the County Treasurer's salary, not to exceed five per cent. on the amount of monies received by him, unless the grand jury grant an additional sum.

7. In cases where the duties of town officers are not now defined by law, the justices in session shall have power to determine the same.

Langley's Cordial Rhubarb.

PERHAPS Rhubarb in the various forms in which it is presented to the public is one of the most reliable medicines for Summer use known. Its peculiar action, first as an Aperient and then as an Astringent, conduces greatly to the popularity it has obtained; and when to this drug are added other ingredients of aromatic, antacid and carminative properties, as in the Cordial Rhubarb, a compound is formed, invaluable in all cases of Diarrhœa, Dysentery, Cholera, &c. This preparation is not intended to produce the wonderful effects attributed to some of the Elixirs of the ancients and to many of those of modern invention but is designed to act as a corrector of acidity; as a remover of those disorders of the stomach most prevalent during the fruit season, and as a restorer of the tone of the digestive organs when relaxed through the heat of the weather or from any other cause.
