

PARAGRAPHIC.

IMITATORS VS. SUBSTITUTES.—Good points are worth remembering, for the reason that they assist us in avoiding many discomforts, and protect us against the cupidity of over-reaching people. When you learn from friends that PUTNAM'S CORN EXTRACTOR is safe, prompt and effectual, don't allow druggists to palm off a worthless and perhaps poisonous substitute. His object is quite patent. He wishes to make the few cents difference between a good article and a cheap imitation or substitute. Putnam's Corn Extractor. Sold everywhere. Beware of dangerous imitations. Polson & Co., proprietors, Kingston.

A Continental paper says that England's wars in remote regions at least promote the study of geography.

SCOTT'S EMULSION OF PURE COD LIVER OIL, WITH HYPOPHOSPHITES. Very palatable, and increases flesh. Dr. F. H. Clement, Brighton, Ill., says: Scott's Emulsion is the best I have ever prescribed. It is very palatable, easily assimilated, and gives strength and flesh to the patient.

The Bible is circulated in Pennsylvania in twenty-two languages, and sixty languages and dialects are spoken in the State.

The unanimous verdict of the druggists, both wholesale and retail, throughout the Dominion, is that DR. SMITH'S GERMAN WORM REMEDY, or Wormerine, has the largest sale, and gives the most perfect satisfaction of any worm preparation they have ever handled.

Fruit trees are so heavily laden in places on the Pacific coast that hundreds of laborers are kept employed thinning out the fruit.

FOR KIDNEY COMPLAINTS.—Take a teaspoonful of Perry Davis' Pain-Killer in a gill of milk and syrup, equal parts, three times a day, bathing the body freely with the medicine wherever you feel distress.

An Indian doctor in Utah was stoned to death recently by his tribe for having failed to cure a patient placed under his charge.

THE BEST testimony in favor of PYLE'S PEARLINE Washing Compound is the millions of packages sold every year, and sales steadily increasing in spite of the numerous poor imitations.

Great Britain buys her postal card supply from Germany, the last order given the successful bidder being 150,000,000 cards.

'Tis a wise woman who will profit by the experience of others. The many millions of packages of PYLE'S PEARLINE sold annually, prove it a practical article. Beware of imitations.

About \$10,000,000 worth of corsets were sold in America last year. It will now be in order for somebody to say that this is a great deal of money to go to waist.

The vaccinations against small-pox in the Punjab last year reached 633,062. The natives of India hail the operation as the greatest of blessings.

FOUR ACTS PLAYED!

Sad Report about Ex-President Arthur.

WILL THE FIFTH AND FINAL ACT BE A TRAGEDY?

Rochester Democrat and Chronicle.

"Dr. Lincoln, who was at the funeral of ex-Secretary Frelinghuysen, says ex-President Arthur looked very unwell. He is suffering from Bright's disease. During the past year it has assumed a very aggravated form."

That telegram is Act IV. of a drama written by ex-President Arthur's physicians. In Act I. he was made to appear in "Malaria," of which all the country was told when he went to Florida.

In Act II. he represented a tired man, worn down, walking the sands at Old Point Comfort and looking eastward over the Atlantic toward Europe for a longer rest.

The curtain rolls up for Act III. upon the distinguished actor affected with melancholy from Bright's disease, while Act IV. discovers him with the disease "in an aggravated form, suffering intensely, (which is unusual) and about to take a sea voyage."

Just such as this is the plot of many dramas by play-wrights of the medical profession. They write the first two or three acts with no conception of what their character will develop in the final one.

They have not the discernment for tracing in the early, what the later impersonations will be. Not one physician in a hundred has the adequate microscopic and chemical appliances for discovering Bright's disease in its early stages, and when many do finally comprehend that their patients are dying with it, when death occurs, they will, to cover up their ignorance of it, pronounce the fatality to have been caused by ordinary ailments, whereas these ailments are really results of Bright's disease of which they are unconscious victims.

Beyond any doubt, 80 per cent. of all deaths except from epidemics and accidents, result from diseased kidneys or livers. If the dying be distinguished and his friends too intelligent to be easily deceived, his physicians perhaps pronounce the complaint to be pericarditis, pyæmia, septicæmia, bronchitis, pleuritis, valvular lesions of the heart, pneumonia, etc. If the deceased be less noted, "malaria" is now the fashionable assignment of the cause of death.

But all the same, named right or named wrong, this fearful scourge gathers them in! While it prevails among persons of sedentary habits,—lawyers, clergymen, congressmen,—it also plays great havoc among farmers, day laborers and mechanics, though they do not suspect it, because their physicians keep it from them, if indeed they are able to detect it.

It sweeps thousands of women and children into untimely graves every year. The health gives way gradually, the strength is variable, the appetite fickle, the vigor gets less and less. This isn't malaria—it is the beginning of kidney disease and will end—who does not know how?

No, nature has not been remiss. Independent research has given an

infallible remedy for this common disorder; but of course the bigoted physicians will not use Warner's safe cure, because it is a private affair and cuts up their practice by restoring the health of those who have been invalids for years.

The new saying of "how common bright's disease is becoming among prominent men!" is getting old, and as the Englishman would say, sounds "stupid"—especially "stupid" since this disease is readily detected by the more learned men and specialists of this disease. But the "common run" of physicians, not detecting it, give the patient Epsom salts or other drugs prescribed by the old code of treatment under which their grandfathers and great grandfathers practiced!

Anon, we hear that the patient is "comfortable." But ere long, may be, they "tap" him and take some water from him and again the "comfortable" story is told. Torture him rather than allow him to use Warner's safe cure! With such variations the doctors play upon the unfortunate until his shroud is made, when we learn that he died from heart disease, pyæmia, septicæmia or some other deceptive though "dignified cause."

Ex-President Arthur's case is not singular—it is typical of every such case. "He is suffering intensely." This is not usual. Generally there is almost no suffering. He may recover, if he will act independently of his physicians. The agency named has cured thousands of persons even in the extreme stages—is to-day the mainstay of the health of hundreds of thousands. It is an unfortunate fact that physicians will not admit there is any virtue outside their own sphere, but as each school denies virtue to all others, the people act on their own judgment and accept things by the record of merit they make.

The facts are cause for alarm, but there is abundant hope in prompt and independent action.

THE GOVERNORS OF KING'S COLLEGE, Windsor, N. S., will be glad to receive applications for the office of PRESIDENT, combined with Professorships of Divinity and Classics. SALARY \$2,000 and a House. The President must be a Clergyman in full orders of the Church of England, M. A. of some University incorporated by Royal Charter. Applications, with testimonials, to be sent to

T. BITCHIE,
Secretary of Governors,
HALIFAX, N. S.

1-3W

Of the best workmanship and on reasonable terms. Estimates sent on application. Apply to J. T. Rectory.

St. JOHN THE EVANGELIST CHURCH,
Montreal, Que.

St. Margaret's Home
666 SHERBROOKE STREET.

A need has long been felt by those interested in works of charity in the city for a home for incurables. The hospitals had no room for them, other institutions could not take them in, and just when one needs all the care and comforts that human aid can give, and when the hope of restoration to health has been taken away, the unfortunate, whose case was pronounced hopeless, had to leave the home or hospital where for awhile he had been sheltered, to suffer the privations of a poor man's home. Now, however, there is a chance of this need being supplied. The Sisters of St. Margaret's (Church of England), from Boston, have taken a large and sunny house, No. 666 Sherbrooke Street, and on or about the 6th May it will be open for the reception of incurables, and works of charity in general which do not come under the scope of other institutions. Although managed by sisters of the Church of England, the home will be absolutely unsectarian, and persons of all denominations will be received, and may be visited by the clergy or ministers they prefer. The good work that English sisters are doing may be seen in New York, Boston, and other large American cities, where the hospitals, homes, and nurseries for children are among the most heart-cheering sights of the 19th century. The refining influence of ladies, and the self-devotion that works for love, cannot but produce an effect on those who, alas, are brought so seldom under the influence of either. To do a work of this kind, however, funds are needed. A guarantee endowment would enable the sisters to extend the work to cases that would be otherwise out of their reach. It remains, therefore, with the public how far the home is to be a success. The amount of money needed is not very large, and it will indeed be a pity if we let pass this chance of ministering to the sufferings of those who, though so poor and helpless, are nevertheless our brethren in the sight of God. The Metropolitan (Dr. Medley, of Fredericton,) has kindly consented to be "Patron."

The Rectory School,

FREELIGHTSBURG, QUE.

A HOME SCHOOL FOR BOYS, IN ONE OF THE MOST BEAUTIFUL AND HEALTHY SECTIONS OF THE EASTERN TOWNSHIPS ON THE LINE OF THE N. E. RAILWAY AND UNDER THE PERSONAL CARE AND TUITION OF THE RECTOR.

Apply to Rev. Canon Davidson, M. A.,
18-11
RECTOR

The Collegiate School

of which the Rev. O. WILLETTTS, Graduate of the University of Cambridge, is Head Master, supplies an excellent preparatory course of instruction, enabling students to matriculate with credit at the College, and including all the usual branches of a liberal education.

The Head Master will be happy to furnish information in answer to applications addressed to him at Windsor.
