

A Real Sleeping Bag for Real Woodsmen

Rainproof, windproof, warm yet light in weight. TWO Kenwood wool inner bags and canvas cover—a tent and bed in one—weigh only 15 pounds.

The inner wool bags are easily removed for sunning or washing.

Simplicity is the keynote of design and construction. There are no rest-breaking buckles, buttons, snaps or lacing.

A double extension of the wool fabric protects chest and shoulders whichever way the sleeper may turn.

The Kenwood Grey All Wool inner bags may be purchased without the canvas cover where waterproof protection is not required.

At department and sporting goods stores. Booklet "Outdoor Comfort" mailed free on request.

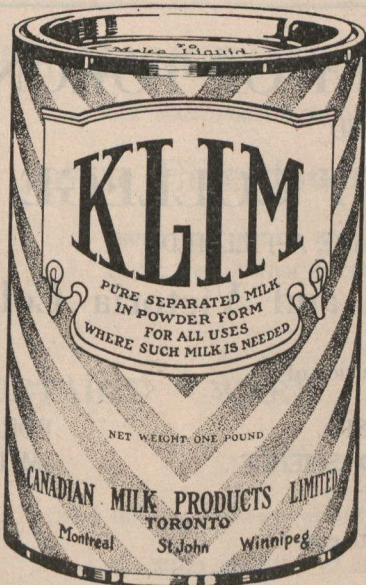

Kenwood Soft Wool Lumbermen's Socks.

Kenwood All Wool Grey Blankets for Woodsmen.

Tested and proved in many a camp. Exceedingly satisfactory and serviceable.

WHEN PLANNING YOUR SUPPLIES

Make sure you have plenty of KLIM—Being a fine dry powder it is light and requires but little space to transport or store.

When you are far away from your base of supplies you will appreciate KLIM when meal time comes round.

KLIM is always ready for use and it will not sour or spoil. Order it from your grocer in one pound or ten pound tins—One pound will make four quarts of pure, fresh liquid separated milk.
