Northern Electric POWER and LIGHT

☐ This Belt-connected Plant makes the installation of electricity in the smallest mills, practicable and economical. The unit can be driven from any power shaft. Twenty-four hour service is obtained by the use of 16 cells of TITAN storage battery.

☐ The plant is 32 volt and has a capacity of 32 lights direct from the generator, or 67 lights for 5 hours when combined with TITAN 200 ampere hour battery.

☐ Complete stocks of 32 volt belt-driven or direct-connected plants, appliances and standard wiring material always on hand at our Houses.
