A Model Kitchen

With our forefathers the hearthstone was the centre of the home—the special sphere and pride of the housewife. Here all her talents as a home maker found full expression. Here before the great hearth—whose flue kept the air as pure and clean as the fresh scoured tiles—she prepared the great white loaves—the delicious flakey brown pastry—the roasts whose juicy tenderness made her simplest meal a feast—

Have a kitchen *you can always be proud of*—always clean and sweet—always free from stuffy, smelly air—always cool.

Have *meals you can always be proud of*—everything just browned to a turn—never over-cooked—never under-cooked—always just right.

The Wonderful Oxford Economizer

guarantees such a kitchen—such meals—always.

The Oxford Economizer sucks all the foul air from the room just like the old-fashioned chimney, leaving it sweet and pure.

It gives you an evener, steadier fire than ever before known.

It insures the best results in cooking always.

It saves you at least 20% of your coal bill in real dollars and cents.

It is the most remarkable device ever found on a cook stove.

Yet this is only one of the special features found only in

Gurney-Oxford Stoves and Ranges

There are many others, each one of which will save you time, money and inconvenience. Send us the enclosed coupon, mentioning whether you are interested in a steel or an iron range and let us send you our book on how to save time and money in *your* kitchen.
