

Rgt.Hon. Arthur Meighen

Sometime ^{when} you have a moment to spare I would certainly appreciate it if you would write me explaining the whole thing as I would like to know, if possible, what happened. Anything that you write me will be treated as confidential.

I am writing all of the workers in Lakeside thanking them for their efforts and I am also writing the members of the Young Conservative Club. It may take a week to get all these letters out but it will be done with as little delay as possible.

Just what result this election will have on next year's Provincial Election, is hard to say, but at the moment of writing I do not think it will place us in a very favorable position.

I do not suppose that you have yet decided what course you are going to take. I have seen articles in the paper that you might possibly be dropping out of politics and as far as you are concerned yourself, I think you would have a much easier and happier life but I do not know who in the world the Conservative party will get to lead them with one half the ability that you have. Mr.Bennett is certainly a wonderful man but I often wonder if he will continue on in politics very much longer himself.

Yours truly,

JCM/S.
