A Text-Book of Human Physiology

By **A. P. Brubaker, M.D.**

Professor of Physiology and Hygiene at Jefferson Medical College; Professor of Physiology, Pennsylvania College of Dental Surgery, Philadelphia.

Second Edition. Revised and Enlarged. With Colored Plates and 356 other Illustrations. Octavo; 715 pages.

Cloth, \$3.00; Leather or Half-Morocco, \$4.00, *net*.

"An admirable exposition of the facts of physiology brought down to the latest date. . . . The author's style is lucid, concise, and pleasing. The work is one which may be warmly commended in every respect."—*New York Medical Journal*.

Landois' Human Physiology

Including **Histology and Microscopical Anatomy,**
with **Special Reference to the Require-**
ments of Practical Medicine

By **Dr. L. Landois**

Professor of Physiology and Director of the Physiological Institute in the University of Greifswald.

Tenth Edition. Revised and Enlarged.

Edited and Translated by A. P. Brubaker, M.D.

Professor of Physiology at Jefferson Medical College, Philadelphia, etc.,

and Augustus A. Eshner, M.D.

Professor of Clinical Medicine, Philadelphia Polyclinic, etc.

With 394 Illustrations. Octavo; 1027 pages.

Cloth, \$7.00; Leather or Half-Morocco, \$8.00, *net*.

"There is no other work of its kind in the English language which deals with the normal physiological processes so as to show where the physiological merges into the pathological, and how the facts of pathology are to be explained by, and how they are in reality of the same essence as, those of physiology. . . . The book will be useful to practitioners of medicine and to clinicians, while students reading for the higher examinations will find it a trustworthy guide to the fundamental facts of physiology and histology, and an encyclopædia of reference as well as an exposition of the latest discoveries and theories of physiology."—*The Lancet, London*.

"The author, editor, translator and publisher have unitedly produced a most valuable and attractive book which can in every way be depended upon as authoritative."—*American Medicine*.
