CHAPTER		PAGE
Bacteriology	.	438
Varieties of puerperal infection	.	440
Pathology	.	443
Symptoms of puerperal infection	.	445
Treatment of puerperal infection	.	455
XXII.—PUERPERAL INFECTION (Continued)	.	473
Phlegmasia alba dolens	.	473
Gonorrhœal infection	.	476
XXIII.—DEFORMITIES OF THE BONY PELVIS AND INJURIES TO THE CHILD DURING DELIVERY	.	480
Causes and forms of deformity	.	480
Contracted pelvis	.	482
Treatment	.	484
Injuries to child during delivery	.	489
Abnormalities and diseases of the new-born child	.	491
XXIV.—OBSTETRICAL OPERATIONS	.	496
General considerations	.	496
General operations	.	499
Repair of lacerations of the genital canal	.	508
Lacerations of the vagina	.	509
Lacerations of the pelvic floor and perineum	.	510
Induction of abortion	.	519
Induction of premature labor	.	520
Accouchement forceé	.	522
Cervical incisions	.	528
Version	.	530
XXV.—OBSTETRICAL OPERATIONS (Continued)	.	534
Delivery with the forceps	.	534
Indications	.	535
Kinds of forceps	.	539
The Milne Murray axis-traction forceps	.	543
The Porter Matheva axis-traction forceps	.	546
XXVI.—MAJOR OBSTETRICAL OPERATIONS	.	559
Cæsarean section	.	559
Porro's operation	.	560
Hysterectomy	.	561
Symphiotomy	.	561
Operation for ectopic pregnancy	.	563
Embryotomy	.	563
