

... During the greater part of the period
the power almost wholly has been concentrated
in the hands of a small number of persons
... has been almost entirely
... had a direful influence upon the people

It must also be admitted, that while
... had an opportunity of trying their
... strength, very many efforts have been
... different times to sustain their patriotic
... party or other in the troubled regions

That just importance in the body
... has never so well known before, not with-
... before in such danger of abusing it

It must be added the susceptibility of the
... generally as disposed of getting excited by the
... of public meetings, on account of the
... between the population and the masses

Now let all these things be taken into
... it is remembered what momentous
... have suffered for their country
... let it also be remembered what
... have been actually done
... it can be realized that it can be realized
... diffusion of moral principles
... of Sunday Schools that there
... have been uncounted, and the history
... degree with the world

What is the result? What is the
... and human progress
... have done for the world
... to the world
... the world
