LIVE STOCK
The situation at the stock mar-
ket last week was practically the same
as that which prevailed the week pre-
vious, and closing quotations were
about the same. A week ago to-day receipts were
small and of good quality, but trade was
dull.

Although reports indicate that western
states of the United States are short of
cattle. Our western reports show very little
interest in stockers. Many feeders are
steering forward to selling their finished
heaves at practically the same price as they
purchased them for as stockers, and
very few stockers are being offered on
the market, however, and the demand is
not such as to induce large offerings.

The Thursday market was the most satis-
factory of the week, and prices closed
higher at last week's quotations. Export
cattle, choice \$5.70 to \$6.25; medium,
\$5.50 to \$5.70; butchers, \$5.25 to \$5.50;
calf, choice, \$5.55 to \$6.20; butcher
\$5.25 to \$5.45; and common, \$4.75 to
\$5.25; heavy cows, \$4.75 to \$5.25;
mand at \$4.75 to \$5.25 and poorer
grades at \$4.25 to \$4.75; canners are quoted
at \$2.25 to \$2.75.

The market for milk cows showing a
decided advance in many quotations. A
handful at \$75, and several went as high
as \$80, and medium grades sold at
\$25 to \$30; and springers, \$15 to \$20.
Large veal and veal are weaker owing to
values of beef. Cows are comparative low
to \$5, and calves, \$3.50 to \$4; spring
lamb, \$3 to 4; and calves \$3 to \$4;
\$3 to \$5; and calves \$3 to \$5.

But prices show no further advance. In
country prices are \$6.15 to \$6.20 at
heavy hogs are docked 50 cents a cwt.

CHEESE MARKETS
Pleaton, April 21 - The Pleaton Cheese
Board opened for the season to-day, when
the highest bid was \$1.25. Thirty-five sold
at \$1.25. There were three offerings
at the opening cheese board for the season.

Montreal, Saturday, April 22 - The de-
mand here for live stock is not so
supplied is plentiful, and dealers find the
market for live stock is not so good as
the previous week but their offerings
at the opening board for the season.
