Cows are milking well and milk is sell-Cows are milking well and milk is sell-ing at a fair price. Last week a large number of fat hogs were sold at 89.50 a cwt. Old fowl brought 12c a lb., live weight. Eggs are 18c to 20c a dozen.—C. A. W.

ONTARIO VICTORIA CO., ONT.

VICTORIA CO., ONT.

HARTLEY.-Crops are looking well except barley which has been affected by the frost. Occasional showers are a help for the root crops. The pastures are in good condition which accounts for the stock looking so well. Early fruit promises an abundant harvest as it is well blossomed. Road work is the order of the day. This township believes in good roads. They are using the road grader and stone creuber.—W.

DON.—Although the weather has con-tinued cold, crops are looking well. I have a field of alfalfa that will be ready to cut by the middle of the month.—C. H. W. BRANT CO., ONT.

BRANT CO., ONT.

FALKLAND.—The weather has been cold and wet, but grain crops are all growing nicely. Some corn that was planted early is not coming on very well but the later planting is all right. Pasture is short yet and has also will be light in many fields. But the constant of the constant of the constant is constant to the constant of the constant in the con

OUR FARMERS' CLUB and, the crops are a bad color. From present appearance, crops will be a low present appearance, crops will be a low average. Corn planting average average average. Corn planting will be a low will on account of cold, well on account of cold, well on account of cold, well as self-ing for si0 a ton; oats, 35c a bush, bran, 30a ton; eges for a doz; butter 30c a lb.—J. McK.

-J. McK. GOLSPIE--We are having very wet, cold weather. Fall wheat and spring grain are doing well, but hay will be light. Alfalfa is good. A great dean of it is badly lodged. I am afraid this weather is bad for corn, as corn needs dry warm weather.

weather.

The wire worm and white grub are doing a great deal of damage in some sections. Owing to the cold weather growth was tardy so they had more time to destroy the roots of the grain. I think the grain is strong enough now to be out of harm's way. Some buyers are offering big prices way. Some buyers are offering big prices of the cold of the cold
