10. What is the salary paid the Governor General of Canada and also the Lieutenant Governor of Ontario.

J. L.
Ans.—1. It is advisable to consult the Township fence viewers and have them pronounce on the stability of the fence. If they condemn the fence, then the neighbor has no authority for collecting damages, if the pigs gain entrance to his farm through his own fence.

2. According to the Act the council is supposed to make good a certain percentage of the loss of sheep killed by dogs. It is the council's fault that they do not collect the dog tax.

3. The house cannot be assessed twice. If the tenant is assessed for the whole house and pays taxes, it will be necessary for him to make it right with the landlord regarding the share of taxes he should pay for the rooms he has reserved.

4. No.
5. A cow has no right on the road unless accompanied by an attendant. Therefore the owner is subject to any damages which might result in the cow interfering with traffic.

9. Varieties of plums recommended: Abundance, Burbank, Bradshaw, Lombard, Reine Claude, Monarch. Cherries: Early Richmond and Montmorency for the sour, Black Tartarian and Windsor for the sweet varieties. There are numerous other varieties of both plums and cherries on the market which some growers prefer to those mentioned. However, the varieties named are among the most popular.

10. The salary paid the Governor General of Canada is \$57,000, and the Lieutenant Governor of Ontario is \$12,000.

The Farmers' Union of Canada, Inc., has been successful in its efforts to reduce the number of automobiles on the roads. It has succeeded in getting the Government to pass a law which will limit the number of automobiles in each township to one for every 100 acres of land. This will greatly reduce the number of automobiles on the roads and will also reduce the expense of maintaining them.

Power Makes Farms Pay

Put our Engine on your farm to give you power. Then plan to use power, instead of muscle, for every possible farm job. With it, separate cream, pump water, saw wood, grind chop, clean grain, pulp roots, mix feeds, etc. The jobs done in half the time. Besides, you can save a hired man's wages and yet raise more beef and pork than now. This Chapman Engine has the working parts in a detachable box.
