

The Patent Fused Joint
AS USED IN OUR
HECLA FURNACE

is the most valuable improvement in furnace construction in recent years. By means of this patented method we fuse the steel and iron which go to make up the dome and radiator into **ONE SOLID CASTING**. There is no danger of cement falling out, to let the dust, smoke and gas escape into the house. Another feature of the Hecla is that it will burn

The Rippley Hardware Co. Gentlemen:—For three years I have been experimenting with different things to keep flies off my cows, but not until I tried your Fly Remover and Compressed Air Sprayer was I successful. I used this last year and found that it cost less than one cent per week per cow. With your Compressed Air Sprayer it takes but a few minutes to put it on, and the result has been that my cows were free from flies, and during the year gave 6000 pounds of milk each, which made 234 pounds of butter per cow. I can heartily recommend it to all stock owners.—**JOHN ARMSTRONG,** Pres. State Board of Agriculture, De Smet, S. D., June 4, 1901. **RIPPLEY HARDWARE CO., LONDON, ONT., CANADA.** U. S. "OSHAWA" STEEL SHINGLES differ from other shingles in many respects. Their superiority is shown by the demand for them from all parts of the globe. Once you've made the acquaintance of the "Oshawa" Shingle you'll use no other. The reason is very plain. They do away entirely with cleats, which experience has proven do not hold the sheets down firmly, and are always being opened up with sliding ice and snow. Locked shingles mean a big saving to you, as they are easier to apply than any other. Our catalogue gives fullest particulars. It's yours for the asking. **THE PEDLAR PEOPLE, Oshawa, Ontario.** Eastern Branch, 22 Victoria St., Montreal.
