

NOTICE.

AN OLD COMPANY INCORPORATED.—On May 1st, 1902, E. W. Gillett Co., Ltd., succeeded the old established Canadian business of E. W. Gillett, of Chicago. The new company has a capital of \$350,000, fully subscribed and paid, and the shareholders are principally wholesale and retail grocers in business in Canada. The direct and personal interest of the shareholders of this successful concern has been shown in a marked degree. The increase in sales during the short time the company has been organized has already caused them to secure additional premises, fully as large as they are now occupying, which will increase their capacity for the production of their various lines of goods, viz.: Magic Baking Powder, Gillett's Perfumed Lye, Royal Yeast, etc. The company is doing a large business in Manitoba and the West to the coast, but with the increased facilities they will, no doubt, be able to double their western trade. The officers of the company are: Mr. E. W. Gillett, president; Mr. Wm. Dobie (who has managed the business for 16 years), general manager and treasurer; and Mr. Geo. Hepburn, secretary. The whole office and factory staff are Canadians and British subjects, and the company is, in fact, an all-Canadian one. The E. W. Gillett Co. are firm believers in printer's ink. This policy has made their goods easy to sell and has built up a prosperous and profitable business.

ALVINSTON, ONT., Oct. 22, 1900.

ESTATE OF JOHN BATTLE, Thorold, Ont.:

DEAR SIRS.—It is with pleasure that I testify to the good qualities of your Thorold Cement for building purposes. I have just completed an eight-foot wall under my barn, 36 x 60 feet. I have also floored all my stables with it, using in all 150 barrels of cement. The work was done under the supervision of William Hand, a man who I am pleased to recommend to any of my fellow farmers contemplating erecting concrete walls or floors.

I remain, Yours truly, JOHN BLACK.

Queenston Cement

WE have reduced our prices, and are prepared to demonstrate that no better value for the money is obtainable anywhere. All work done with our cement according to our instructions is guaranteed to be absolutely perfect. A barrel of Queenston Cement, though weighing less, contains just as many cubic inches of cement as any barrel of Portland. In mixing concrete, the cement is gauged by measure, not by weight. Farmers and others will do well to remember this fact, and not be misled by false statements. Write me, or see my agents, for full particulars.
