### "BAKER" Wind Engines.

The "BAKER" Wind Engine is built for heavy duty. Neat and compact in design. Do perfect work because they are built on principles that are absolutely correct, and the easiest-running mill made.

The wheel is built on a hub revolved on a long stationary steel spindle. As a result there is less friction.

It has a large number of small sails without rivets. The small sails develop the full power of the wind.

The engine is so constructed that the gears cannot wear out of mesh.

Has ball-bearing turntable, and self-regulating device.

All working parts are covered with a cast shield, thus protecting same from ice and sleet.

We make a full line of steel towers, galvanized steel tanks, pumps, etc.

All goods fully guaranteed. Write for catalogue No. 58.

## Two Minute Talks About PANDORA RANGE for Coal or Wood

**B**RAINY stove experts designed the Pandora Range. They introduced a new system of flue construction so that the draft for cooking would also be the draft for baking. With the Pandora you can have the kettles boiling over every pot hole at the same time the oven is baking pies and roasting beef.

Just think of the time that this perfect system of flue construction will save for you when you're hurrying to get a big dinner ready. Just think how much fuel the Pandora will save for you by doing the baking and cooking at the same time. And remember, no other range has this perfect system of flue-construction. Send for the Pandora booklet. It tells of other conveniences designed by our brainy stove experts.

### Make Him Listen to You

Show any agent, who claims that complicated cream separators are modern, that you know more than he thought. Make him listen to you while you give him some facts. He may mistakenly believe that other contraptions are needed in a modern separator; if so, set him right. But if he pretends to believe it, in order to mislead you into buying a complicated machine, then send him flying. In either case, tell him plainly that

### Sharples Dairy Tubular Cream Separators

contain neither disks nor other contraptions, produce twice the skimming force, skim faster and twice as clean as common separators. Tell him that is proof enough for you, and should be for him, that Tubulars are the only modern separators—The World's Best.

The manufacture of Tubulars is one of Canada's leading industries. Sales exceed most, if not all others combined. Probably more common separators than any one maker of such machines sells.
