Protect Your Buildings Against Storm and Fire

Do you know what roofing is used by the Canadian Railways? It is

NEPONSET Paroid Roofing

The severest tests and long years of service have proved that NEPONSET Paroid Roofing is a protection against fire—gives many years' wear without a leak.

There are buildings in your neighborhood which prove the superiority of NEPONSET.

Send for the Bird NEPONSET Booklet, which tells about the different NEPONSET Roofings for different types of buildings and shows you just why NEPONSET Roofings are so absolutely reliable.

NEPONSET Roofings are made in Canada

NEPONSET Dealers everywhere. If you do not know the one in your locality, ask us.

Farmers Insist Upon Machine-Cut Ditches

FARMERS everywhere are insisting upon BUCKEYE machine-cut ditches, because:

- They save 25 to 50 per cent. in cost.
- They save backaches and worry.
- They are truer and of perfect grade.
- They place tiling within the reach of the most humble pocketbook.

It is not necessary to board several men for weeks while they are cutting the ditches, as is the case when hand labor is used.

THE BUCKEYE TRACTION DITCHER

is a machine that is operated by two men for steam power, and only one man is needed for the gasoline ditcher. There is no trouble keeping the machine busy in your neighborhood, as the tiling demand is greater than ever before. The BUCKEYE cuts from 100 to 150 rods a day, and earns from \$15 to \$18 a day. The machine pays for itself in a short time. The work is pleasant and agreeable. Be a man of great earning power. Buy a BUCKEYE TRACTION DITCHER and carry a bank account in figures that will make you independent. For further information, write at once for our catalogue T.

The Buckeye Traction Ditcher Co
FINDLAY, OHIO.

160 Acres of Land for the Settlers

Large areas of rich agricultural lands, convenient to railways, are now available for settlement in Northern Ontario. The soil is rich and productive, and covered with valuable timber.

For full information regarding homestead regulations and special colonization rates to settlers, write:

The Director of Colonization,
DEPARTMENT OF AGRICULTURE,
TORONTO.

NO LEAK-NO RUST

STEEL TANKS V. WOODEN

The steel tank for water storage is as much superior to wooden tanks as modern steel farming implements are to the crooked sticks of our ancestors in early ages. Wooden tanks are unsanitary and liable to leak. Our steel tanks are all steel of the finest quality—self supporting—surrounded by an iron angle framework with braces added according to size of tank. The angle iron framework ensures absolute rigidity, and the braces added give the tank strength four times in excess of any strain that may be applied.

Guaranteed for ten years but will last a lifetime.
