

That
Little Blue Flag
ends guess-work
in buying paint

"You are absolutely sure of satisfaction in buying paint, varnish, enamel, or anything else of the kind, if you see the 'Little Blue Flag' on the pail or can. It is the stamp of highest quality.

"I am glad to recommend

Lowe Brothers
High Standard
LIQUID PAINT

Scientific and exposure tests at the factory, as well as use on thousands of farm buildings prove that "High Standard" paint will withstand the weather a long time, keep its color, and leave a good surface for repainting. You'll save money and get sure protection for your property by paying a few cents more a gallon for "High Standard" paint. It's sold by a dealer near you. Ask his name if you don't know. We have the largest line of concrete machinery of any firm in the world. Tell us your requirements. London Concrete Machinery Co., Dept. B, London, Ont.

Seeing the Difference BETWEEN THE DE LAVAL AND OTHER Cream Separators

IT DOESN'T TAKE AN EXPERT KNOWLEDGE OF mechanics or a long working test to tell the difference between the De Laval and other cream separators.

ON THE CONTRARY, WITH A 1914 DE LAVAL machine placed beside any other separator, the difference is apparent at first sight to the man who never saw a separator before.

IF HE WILL THEN TAKE FIVE minutes to compare the separating bowl construction, the size, material and finish of the working parts, particularly those subject to wear and requiring to be occasionally taken apart and put together, the manner of oiling, and everything which enters into the design and construction of a separator as a simple durable machine, he will still further see the difference.

IF HE WILL GO A step farther and turn the cranks of the two machines side by side for half an hour, particularly running milk or water through the bowl, he will see still more difference.

AND IF HE WILL TAKE THE TWO MACHINES home, as every De Laval agent will be glad to have him do, and run them side by side in practical use, the De Laval one day and the other machine the next, for a couple of weeks, he will see still greater difference in everything that enters into cream separator practicability and usefulness.

THE MAN WHO TAKES EVEN THE FIRST STEP indicated in seeing for himself the difference between the De Laval and other cream separators, doesn't put his money into any other machine one time in a thousand.

THE COMPARATIVELY FEW BUYERS OF OTHER separators are those who merely read printed matter claims or listen to the argument of some dealer working for a commission, and who do not think it worth while to see the difference for themselves.

THE WISE BUYER OF A CREAM SEPARATOR today does see this difference when buying his first separator, while the unwise or careless one usually finds it worth while to do so when he comes to buy a second separator a year or two later.

EVERY DE LAVAL AGENT CONSIDERS IT A PRIVILEGE to show the difference between the De Laval and other separators, and to afford every prospective buyer the opportunity to try out and prove the difference to his own satisfaction, if on first examination he feels the slightest doubt about it.

THAT'S THE REASON WHY FOUR BUYERS OUT OF five are buying De Laval Cream Separators in 1914 and why the use of De Laval machines will, before long, be nearly as universal on the farm as already is the creamery and milk plant use of power or factory separators.

LOUDEN

Bird Proof

Barn Door Hanger

and have the barn door hang and run right for all time. This is positively the finest Barn Door Hanger on the market. As its name implies birds cannot build in the track. The track is hollow with closed ends. No ice or snow in winter or trash in summer can possibly get in to clog it. Runs on two strongly braced trolley wheels always smooth and easy running. Hinged so as to make it flexible and to allow the door to swing outwards and upwards if occasion requires.

Ask for the Louden Line

—over 47 years of experience and practical experiments go to make Louden goods efficient and reliable. We make

"Everything for the Barn"

including Cow Stalls, Stanchions, Litter and Feed Carriers, Hay Forks and Slings.
