Farmer's Advocate of Winnipeg

WINNIPEG - MAN.

**TORTURED DAY AND NIGHT.
ZAM-BUK CURES PILES.**

That there is no end to the healing powers of Zam-Buk is being demonstrated every day. Mr. Julius Glacier, of Denbigh, Ont., was tortured day and night with blind bleeding piles, so bad that he says: "I could find no comfort standing, sitting or lying down, and was unable to do any work. One day my eyes rested upon a little sample box of Zam-Buk. I picked it up and read the words, CURES PILES. I started using Zam-Buk that night, and before I could purchase a large box I was already cured, and HAVE NOT BEEN TROUBLED SINCE. You may publish this if you wish for the benefit of other sufferers." This is only one of the many cases where Zam-Buk has healed piles when all else failed. Why do you go on suffering when such a splendid remedy is near at hand?

Zam-Buk heals sores, cures eczema, skin eruptions, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scalds and all skin injuries and diseases. Of all stores and druggists at 50 cents, or from Zam-Buk Co., Toronto, for price of boxes for \$1.25.

**ASIATIC IMMIGRATION FROM A
WOMAN'S STANDPOINT.**

(Continued from page 1840)

"messing" around as they see fit. Indeed he will probably be most interested, and ready to render any assistance in his power. If the mother does not care to have the daughter do this, there is abundant opportunity to have the sole use of the kitchen and utensils, when Li is away in the afternoon and evening.

I hope that I will not be interpreted to mean that the list of "positive" qualities attributed in this article, to Asiatic service, may not be found in white servants nor that all Asiatics possess them in the same degree. Human nature is largely the same in all races, though, owing to differences of environment, and the mental, moral, and physical ideals of different nations, its form of expression is varied. In many parts of Canada white service cannot be obtained so when Asiatic labor presents itself, and housewives must make a "virtue of necessity," instead of maligning it, and saying all manner of evil against it falsely, let us rather be thankful that the "necessity" possesses so much "virtue."

It is enough to make one blush for shame to read many of the flimsy arguments advanced for the discontinuing of the employment of Asiatics, whether in the realms of mechanical agricultural, or domestic labor. The superiority of service rendered by the Orientals few dispute. What standard of loyalty, or honesty, are we indirectly inculcating in our children, when we teach them—practically—that preference and reward should be bestowed chiefly on account of color, or because of geographical position, rather than on account of merit, and faithful, efficient service? It is noticeable, too, that though we hear so much, now-a-days, about the large sums of Canadian money that are said to find their way to China and Japan, we hear nothing about the large sums it is well known are made by British and Canadians in these foreign lands, and spent at home.

That limited immigration is a wise measure there is little disposition to dispute but let us urge it on sane and honorable grounds, rather than from motives of selfishness, or a desire to "corner" the labor market. Canadians are quite capable of arranging these points of difference in a wise and broad-minded way, without assistance from alien agitators—clerical, or otherwise. And before our chief staff of assistance is taken away from our homes, the Government must see to it that we are assured of an adequate supply from other sources.

In the meantime, while the Asiatic is allowed in Canada, let us copy from him all that is commendable and do him the good that lies in our power, equally with those of our own nationality, or color. It is what we expect when we go to his native land. The Oriental cannot be expected to acknowledge, without previous teaching, the exclusive claims of our Christian Bible but in the Canadian "Christian kitchen" there is a volume which he interprets as readily as we do ourselves and when he returns to his native land, it is this book, rather than that of the missionary, that will be potent with him—for good or evil—and with all those whom he can influence.

We should also remember that one great world-power has already arisen, in Japan—our near neighbor across the Pacific and that another one—China—is even now rapidly coming to its own. Is it not worth while—even from a selfish point of view—to use the humble instrumentality of the Asiatic domestic, to cultivate a friendly feeling with these two great nations with whom our very geographical position forces us to be intimate? The power of the "Christian kitchen" in matters relating to both State and religion, can scarcely be over-estimated.

A Fruit Farm in the Kootenay District

WE offer for sale 320 acres of Crown Granted land situated within three-quarters of a mile of the shore of the Lower Arrow Lake and close to Burton City in the District of Kootenay.

Burton City is situated at the mouth of a fine large open valley containing about 9000 acres of fine, level land. This 320 acres is situated in the centre of the valley and is surrounded by first-class properties. There is a large settlement in this valley now and more practical farmers have moved into this valley in the last six months than possibly into any other point in the Kootenay District. Settlers in this valley are in no way isolated; there is a daily steamboat service, daily mail, a Post Office, store and hotel accommodation at Burton and good roads extending through the valley. Some of the oldest and finest orchards can be seen at this point, and an inspection of these and the valley in general will thoroughly demonstrate to intending purchasers the richness of the soil and its freedom from stone in general, as well as the fine possibilities of fruit growing.

We offer this block of land for sale at a price which even the speculator cannot afford to overlook. If cut into 10 or 20 acre blocks it would sell to-day at \$100.00 per acre. This would make a fine proposition for about eight good prosperous Manitoba or Northwestern farmers to get control of. It would give each 40 acres of absolutely first-class land, thus allowing plenty of ground for the growing of feed for stock and for the cultivation of fruits and vegetables. Three fine creeks of clean and pure mountain water run through this block of land and every portion of it can be easily watered should it ever be found necessary to irrigate.

The whole tract is practically clear from stone and is an exceptionally easy piece of land to clear. Large portions of it have been burned over, which could be cleared at from \$15.00 to \$20.00 per acre.

There is a good wagon road from the lake shore to the property.

Taking it as a whole we have not seen a better piece of unimproved fruit land any place in the district. The soil is rich and we guarantee it to grow and to produce anything in the line of fruits and vegetables that can be raised in this district.

Seven acres of the property have already been cleared and stumped. We can furnish a clear title for this property and we offer it for sale at \$35.00 per acre, terms one-quarter cash, the balance in 1, 2 and 3 years. We are willing to give any outside purchaser the benefit of a thorough inspection of this 320 acres, and we agree to pay the cost of such inspection, provided we do not show a block of land as good as is represented in this description.

Complete plans and maps furnished.
