Even well-sprayed orchards have a good deal of apple scab this year, very few appearing to have escaped. It is not yet demonstrated that lack of thoroughness was, in all cases, responsible for imperfect results, although it is indisputable that much spraying is not very well done. May it not be, however, that the particular time when the spraying was performed has had a good deal to do with it? It is believed that application at just the right stage of development of the scab fungus is important. We may yet have to take biologists and meteorologists into our orchards to tell us the critical moment at which to spray for best results.—Ex.

General Frost in Western Prov. Winnipeg, Sept. 11th.—Frost was pretty general last night over Alberta and Saskatchewan and the northern part of Manitoba, the low point recorded being ten degrees, but from one to four degrees prevailed over most of the districts affected. With harvesting practically completed and threshing in full swing all over the country, the frost has come too late to do any material damage. Conditions could not be better for threshing, and the country roads are in good shape for marketing.

Minard's Liniment Cures Diphtheria

Taken straight through, quality considered, the country merchant has the mail order house beaten on prices. It is ridiculous to say that retail mail order houses quote the lowest prices on all types of merchandise. If that is so, why do they advertise so strenuously? If their catalogues contained nothing but lowest prices, their hard work to secure trade would be superfluous; trade would flow to them as naturally as water flows down hill.—Maritime Merchant.

500 Miners Strike  
Charleston, West Va., Sept. 12—Alleging that the Paint Creek collieries company had failed in its promise to dismiss a company doctor employed during the recent labor troubles, 500 miners employed in the mines in and around Mucklow struck today.

Walt to Live  
Ottawa Sept. 14—The sentence of death pronounced upon Charles Watt, of Amherst, N. S., has been commuted to imprisonment for life.
