RECRUITING FIGURES
IN NOVA SCOTIA

Nova Scotia enlisted 363 men for the week ending Saturday, February 26, a little more than double the number of recruits obtained in New Brunswick during the same period. And recruiting for the Highland Brigade had not started then. Prince Edward Island signed on 30 men for the week.

The following were the figures by Counties in Nova Scotia:

Pictou	70
Halifax	59
Cape Breton	55
Cumberland	34
Kings	23
Annapolis	23
Richmond	22
Dibby	22
Lunenburg	19
Yarmouth	10
Queens	6
Hants	5
Shelburne	5
Inverness	5
Colchester	3
Antigonish	2

KING GEORGE PRESENTS
STALLION TO CANADA

Ottawa, Mar. 3.—King George has presented to the Canadian Government for remount breeding purposes the famous stallion Amner. This is the horse that struck and killed the suffragist, Miss Davidson, who ran on to the track and clutched his bridle in the Derby three years ago. He is 6 years old. His sire, Florizel II, was a full brother to Persimmon and Diamond Jubilee, Derby and St. Leger, winners for the late King Edward. Amner's dam, Guinea Hen, was a famous brood mare.

ESTATE OF LATE
WILEY SMITH

It is understood that the late Wiley Smith did not leave a will. His estate will probably amount to nearly one million dollars. Mr. Smith was the third largest shareholder in the Royal Bank of Canada and held the largest number of shares in the Acadia Sugar Refining Company and the wholesale grocery house in which he had the controlling interest, carries on as large a business as any other in the City. There being no will, administration will be taken out in the probate court. The Nova Scotia statute of distribution of estates, under these circumstances, provides that the widow shall have half of the realty and personalty. Mr. Smith had no children surviving so that the remaining half of the estate will likely be divided among the next of kin, who are two nephews—L. Mortimer Smith, of Halifax and Mr. Young of Shelburne. The succession duties will be estimated amount to about \$75,000.—Ex.

BRITISH ARE QUIETLY
DOING THEIR SHARE

London, March 2.—There has been much impatience in England the past few days because the British on the west front have been comparatively inactive, while the French have been engaged in desperate encounters, and it has been often asked by the men in the street why is not this the proper time for a great British offensive to deliver a smashing blow and relieve the pressure on the French side.

Some of the special despatches to the London morning papers from the British front endeavor to reply. The Times says:

"We are fretting because the British troops are not yet engaged in the fight. We need not fret. They are acting closely with the French and Belgian allies, and when the hour strikes they will take their part."

The Daily Sketch believes that the British may get a chance soon to take a hand by the use of their fleet, and quotes Lord Fisher as saying he is convinced that "a big Anglo-German fleet action may take place at any day or hour now."

The Chronicle's correspondent remarks:

"The situation along the British front is normal and unexciting. The truth is, however, that we are waiting and watching for any sign that the enemy intends to take the offensive elsewhere than at Verdun, when all attention is directed on that point. Meanwhile, we are holding great German forces in lines which cannot be thinned because of our strength. By this means, we are helping our allies very effectively."

We have been using MINARD'S LINIMENT in our home for a number of years and use no other Liniment but MINARD'S and we can recommend it highly for sprains, bruises, pains or tightness of the chest, soreness of the throat, headache or anything of that sort. We will not be without it one single day, for we get a new bottle before the other is all used. I can recommend it highly to anyone.

The Counties of Queens and Shelburne have accepted the Nova Scotia Temperance Act, the former by a majority of 692, with 75 against; the latter by a majority of 900, with 300 against. This shows every county of Nova Scotia as having accepted the Nova Scotia Temperance Act, excepting Halifax.

GinPills
FOR THE KIDNEYS
What They Have Done

"I suffered a great many years with kidney trouble; tried several remedies, with no result. Two years ago I read an ad. in a newspaper of 'GIN PILLS FOR THE KIDNEYS,' and sent for two boxes. They did me more good than all the medicine I had ever taken. After I used the first two I sent for two more boxes, and I am satisfied, and also know, that Gin Pills are the best kidney remedy made."

I used to have to rise three or four times in the night; now I can sleep and don't have to get up at all, thanks to GIN PILLS. Am seventy-two years old.

COOKING HINTS

If cookies are baked on the bottom of inverted dripping pans, they will keep from burning on the bottom and are more easily removed.

To keep yolks of eggs fresh, if only the white is needed, cover the yolk gently with a little cold water so as not to break it, and it will keep fresh for several days.

To make puree of pea soup, heat in its own liquor a can of peas, press through a sieve and add the pulp thus obtained to one quart of beef stock. Reheat and serve with cubes of toasted bread.

Apples cut in irregular blocks bake more quickly in a pie than in thin slices. When piled in a pie there is more chance for the heated air to circulate through the fruit than when it is packed in thin slices.

To prevent the drops of liquid that sometimes appear on a meringue, let the pie or pudding become slightly cooled before putting on meringue. Brown in a slow oven.

The secret of flaky pie crust is the use of hot water (not boiling) rather than cold in mixing dough. If this suggestion is followed the crust will always be flaky, tender and crisp.

Test potatoes by cutting in two and rubbing the cut surface together; then press the two parts together. If they stick the potatoes are good.

The addition of a little soda mixed with a teaspoonful of cornstarch to the cream before pouring it into the tomato mixture will prevent curdling soup.

No matter how much dripping is used, fish when fried is apt to stick to the pan's bottom. If a teaspoonful of dry salt is put into the pan and rubbed over it will be found satisfactory.

British Wrecks in February
Numbered 69

London, March 2, 11.35 p.m.—An official communication issued tonight concerning marine losses says:

"British wrecks reported to the Board of Trade in February aggregated sixty-nine, involving a loss of 420 lives. Included in the wrecks were 42 steamships of a total tonnage of 56,856."

"Ten of these steamships were sunk by enemy warships, with a loss of 36 lives, five by mines, with a loss of 176 lives; one by a mine or submarine, with a loss of eight lives, and one by bombs from a Zeppelin, with a loss of 13 lives."

"Of twenty-seven sailing ships lost six were sunk by enemy warships."

Army Chaplain's Tribute to
Canadian Red Cross.

A letter sent to the Glengarry Red Cross by Allan P. Shatford, a chaplain with the Canadian forces in France, contains an appreciation of the work of the Canadian Red Cross.

"To me, he says," It is simply wonderful that the women of Canada have done; you need be over here to see what all these comforts mean for the soldier in order to fully appreciate the Red Cross.

I am constantly witnessing the far reaching and benevolent power. In hospitals where I have been for four months, the Red Cross ministered to thousands of wounded and made comparatively comfortable the lives of the patients. Up here at the front men have been saved terrible suffering by the comforts sent.

Christmas was made a time of delight and merriment because of the tender thoughtfulness of the women at home. My heart is full of gratitude to you all for your noble and unselfish labors. I speak out of a full experience and want you to know that words are weak and wholly inadequate to express all the appreciation we feel for the splendid work of the Red Cross. There never was a more christian work than that which you are doing — it relieves the war of much of its horror. It glorifies humanity and lends dignity to all sacrifice made for our empire.
