Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

A FISHING PROCLAMATION.

An old Highland fishing proclamation was read by the Rev. Percy Coats at a meeting of the Lunenburg Fishery Board at Lancaster. The proclamation read as follows:—"This shall be a proclamation of Her Grace the Duke of Argyll: If any man be found fishing in the loch, on the loch, around the loch, through the loch above the loch, or hinder the loch, his neck shall be broken in twelve places, and if he shall hereafter offend he shall be persecuted with far war persecution, for he shall be burned and hanged. By all the laws of the European of Scotland and Her Grace the Duke of Argyll."

WEEPING ECZEMA SOON RELIEVED

A Perfect Treatment For This
Distressing Complaint

WASING, ONT.
"I had an attack of Weeping Eczema; so bad that my clothes would be wet through at times. For four months, I suffered terribly. I could get no relief until I tried 'Fruit-a-lives' and 'Sootha Salva'. The first treatment gave me relief. Altogether, I have used three boxes of 'Sootha Salva' and two of 'Fruit-a-lives', and am entirely well!"
G. W. HALL.

Both these sterling remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa. "Fruit-a-lives" is also put up in a trial size which sells for 25c.

EXPLOSION IN ANNAPOLIS.

(Spectator).
What might have been a very serious explosion happened in the kitchen of G. G. King's house last Saturday morning, when the stove was blown to pieces and Mrs. King sustained several cuts and bruises. It seems that she had been doing some painting in the pantry the day before and left the doors open at night for the paint to dry not anticipating that the mercury would drop to zero with a gale of wind before morning. On lighting the fire in the kitchen range, however, the explosion occurred, the water-jacket having been frozen solid. Mr. King happened to be out of the kitchen at the time and escaped damage altogether.

THE QUEBEC RIOT.

Five Citizens Killed, Five Soldiers and Two Citizens Wounded.

Quebec, April 1.
The riotous faction in Quebec and the military forces which have been taken over the policing of the city, fought a battle here tonight in St. Roches, the lower town section of the city, as a result of which five civilians were killed, five soldiers were wounded and 100 men placed under arrest. The fighting lasted from 8.30 till midnight, and during this time the snipers fired revolvers haphazard at the military from doorways and from behind snow banks. The military, who fired on the disturbers with machine guns, were much hampered in locating them, by reason of a thick fog, which settled on the city.

Quebec, Nov 3rd—Gen. Lesard with a strong body of trained militia has now the situation under control and no further riots are expected.

WHOPPERS.

Two soldiers, an Irishman and an Englishman, having met in Wanders, began to talk of their hairbreadth escapes they had in battle.

"Well," said the Englishman, "one day, in the height of an engagement, a shell took the hair off my head. Now, what do you think of that for a hair-cut?"

"Sure," said Pat, "when I was in a battle a bullet from one of them Maxims whizzed by me and took off every hair of my face. What do you think of that for a close shave?"

THE EMPIRE'S BIGGEST BARN.

What is termed the largest barn in the Empire is situated not far from Swift Current, Sas. This exact location is eight miles from a town called Prussia (This was named before the war began). This barn was built by a Mr. Smith in order that he might put his cattle inside during the severe winters of the prairie provinces.

The barn is built of lumber and cement, and contains the following material:—

875,000 sq. feet of lumber, 30,000 sacks of cement, 60,434 sq. feet of corrugated iron roof.

It has 126 windows, 16 doors, and 7 ventilators, each 36 in. square (in roof.)

The barn is 100 feet long, 128 feet wide, and 62 feet high. The painting of it would take 50 men one week to do it once over.

The farm on which this barn is located contains 10,000 acres of which 2,000 are irrigated.

Between 2,000 and 3,000 cattle can be kept in the barn at one time. The cost of labor and material would be in the neighborhood of \$100,000, as all the materials, such as lumber, iron, cement, and gravel, have to be hauled by wagon and horse eight miles.

MUST PLAN FOR TEN YEARS FUEL SUPPLY.

"Canada must plan for a fuel supply, not merely to a decade to come," said Prof. Gillespie, the chairman of the Toronto branch of the Canada Society of Civil Engineers, in discussing the plans and purposes of the conference which has been called to meet in Toronto, Mar. 26-27 to discuss the fuel situation in Canada.

Prof. Gillespie declares that the situation is serious. "I would not be surprised if the United States should soon put an embargo on its coal. Canada has large fuel resources even if they are not ideal, it is our purpose to have the men who know tell the facts as they are about these fuel resources so that the public will know the situation as it is."

SPRING WEATHER

HARD ON BABY.

The Canadian spring weather—one day mild and bright; the next raw and blustry is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is often over-heated and badly ventilated. He catches cold, his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the sto-

ing or curing colds, simple fevers, colic or any other of the many minor ailments of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Military Service Act

Important Announcement to All

EXEMPTED MEN

and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the Duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

CHARLES J. DOHERTY,
Minister of Justice.

Correspondence should be directed to E. Hart Nichols, Esq., Registrar under the Military Service Act, Halifax, N.S.
