HAMILTON EVENING TIMES FRIDAY DECEMBER 10 1909.

Measure Introduced in Common- by Mr. Verville.

In Its Present Shape it Might Cause Confusion.

Hon. Mackenzie King and Others Critcise the Measure.

Ottawa, Dec. 9.- A proposal to fix an eight-hour day in public works has before Parliament for four years without getting "any forrarder." One ession it was crowded out of the order paper, in another it was not pressed to ue, and it looked as if its fate was to be that of the hardy annuals which appear, reappear and disappear from session to session. To-day, however, the House of Commons applied itself usly to the consideration of the bill introduced for the fourth time by ANTI GAMBLING BILL. The special Commons committee appointed to consider Mr. H. H. Mil-ler's anti-gambling bill met this even-ing for organization. Mr. Miller was elected Chairman, and it was decided to meet again after the Christmas recess on January 18. Opportunity will be giv-en then and on the following days to all advocates and opponents of the pro-posed legislation to present their ar-guments. Verville, the Labor representative of Maisonneuve, and the result was the tiscovery that it was much more important and far-reaching than most o the members had supposed. Not only does it apply to public works in the cceptea sense of the term. to every contract involving the yment or labor that the Governbut to

ville

guments

but to every contract involving the employment or labor that the Govera-meat may enter into. In the course of an interesting debate on the the second reading of the bill, it was pointed out that this provision would lead to endless compications, that there would be a limitation in one trade and not in another, and that even the employee of one department of a factory might be compeled to work eight hours a day, while those of another depart-ment not engaged on Government work would continue to work ten. Several of the members were disposed to support the measure in spite of these difficulties, but the majority re-garded it as impracticable in its pre-sent form, and, acting on the sugges-tion of the Minister of Labor, who dis-played a masterly grasp of the subject, the House agreed to the appointment of a special committee to consider the bill. guments. Mr. A. C. Macdonell moved the second reading of his bill to amend the Dom-inion election act by dispensing with the \$200 deposit by candidates, and provid-ing far a general holiday on election day. Hon. Mr. Aylesworth thought the present law had worked very well, and did not see the necessity for the changes proposed. The abolition of the deposit might lead to frivolous candidatures, while a public holiday on election day might be abused. He therefore moved the six months' hoist. Mr. Macdonell, in urging the abol-tion of the deposit of \$200, declared there, had been instances where to this had been taken advantage of to void an election. Hon. A. B. Aylesworth questioned

The debate was marked by a disposi-tion on the part of several Conservative members to bait Mr. Mackenzie King, but the Minister of Labor showed that was able to more than hold his own, he was able to more than hold his own, and the fact that in the end the Opposi-tion agreed, without a division, to ac-cept his suggestion was in itself an ana-wer to their criticism of his attitude. Mr. Verville, in moving the second reading of his bill fixing an eight-hour day in public works, confined himself largely to combatting the objections of-fered when the subject was discussed last seasion. He denied that it would ten to limit production or wages, or that it was objectionable class legislation, and claimed that it would make work for the unemployed, give the laboring man "a chance to enjoy the pure air of heaven," and benefit the working class ea morally, physically, and mentally. Mr. A. Claude Macdonell pointed out that the bill was of a most drastic character, inasmuch as it struck at everything or anything the Govern-ment witch underse. the fact that in the end the Oppos character, insandent as it is dock at everything or anything the Govern-ment might purchase. He conceded that there might be no objection to buildings, but under the bill as draft-ed every factory which secured a Government contract would be com-walled to adopt an eighthour day or e contract would be void.

the contract would be void. Mr. Guthrie, while in hearty sym-pathy with the principle of shorten-ing the hours of labor, and disposed to give an eight-hour day a trial in connection with public works, as gen-erally understood, agreed with Mr. Macdonell that the scope of the bill was too wide, and would create seri-out difficulties. He thought the sug-gestion that a special committee be appointed to consider the question ought to be adopted.

adopted. . Goodeve armitted that in view of the interpretation placed upon the bill by Mr. Macdonell they should move cautiously, but he was in favor of the principle of an eight-hour day, and pointed out that in British Colum-hie minas where it had been tried if ines, where it had been tried, it had worked very satisfactorily. Mr. Rhodes declared himself

Mr. Rhodes declared himself abso-lutely in favor of the bill, even although it might have the effects suggested. Dr. Sproule regarded the legislation propsed as impracitcable, and a simi-lar view was taken by Mr. Maddin, who declared that it would make it practically impossible for the mlnes in Nova Scotia to supply the Government with coal.

Mr. Crosby supported the bill. Mr. Main Smith (Nanaimo) ap-proved of the general principle of an eight-hour day that could be made placticable, but he foresaw connder-ably difficulty in securing absolute equality in the hours of labor in dif-ferent industries and under different conditions MUST KEEP Mr. Cowan was for the bill as it tood. Dr. Reid (Grenville) charged the Minister of Labor with attempting to

ANTI GAMBLING BILL.

Minister of Labor with attempting to side-track the bill. Mr. Borden twitted the Government with having taken no steps to obtain information on the subject, although the bill had been before Parliament for four years. He was prepared to support every measure for the bene-fit of laboring men, but he agreed that the present bill should go to a committee, not to be shelved, but to be seriously dealt with. Mr. Verville expressed his willing-ness to have the bill referred to a special committee on the Governat Higher Salaries. Principal Schofield's Cases Leads

to Action. The Board of Education decided las night to put its foot down good and hard on the practice of teachers asking to be released from their contracts her ness to have the bill referred to special committee on the Govern-ment's assurance that the matter would be brought to an issue before so that they can accept better positio elsewhere, particularly in Toronto. The

discussion was provoked by the resignation of W. A. Schofield, principal of the Caroline street school, who has been aphe end of the session. The bill was read a second time and referred to a committee composed of Messrs. King, Macdonell, Ralph Smith, Staples, Prowse, Marshall and Versalary by the Toronto board.

thing," suggested Trustee Bell. Trustee Booker—Yes, let us see whether these contracts are worth the paper they are written on. Chairman Holson—There is no doubt about them being legal. Trustee Bell—I don't think we should release him until we get another teacher. Chairman Holson—There are no teach-ers in the market, and I believe the time has come when we must ask them to live up to their contracts. to live up to their contracts. Trustee Bell-They certainly have

Mr. A. C. Macdonell moved the second nap with the board. Chairman Hobson—I had another one

Chairman Hobson—I had another one speak to me to-day about resigning. I think it's time the board put itself on record that teachers must live up to their contracts. Trustee Booker moved that the mat-ter be referred to the Internal Manage-ment Committee, and that the board go on record as insisting that the contracts are fulfilled. This was unanimously en-dorsed.

are fulfilled. This was unamounted to dorsed. Trustee Allan—It's time we gave the Toronto board an intimation that it can't steal our teachers. I think it is time to choke them off. Trustee Wodell—I doubt very much if they break the contract if you can proceed against them. Trustee Bell—Any teacher who breaks a contract loses his standing.

a contract loses his standing. Chairman Hobson—The Government cancels teachers' certificates when they

break their contracts. Trustee Wodell suggested that the matter be taken up at the next general meeting of the trustees of the Province, and an arrangement made whereby no board would engage teachers employed by another board until the end of the term.

had been taken advantage of to void an election. Hon. A. B. Aylesworth questioned this statement, and Mr. Macdonell quoted the election in Durham in 1900 as a case in point. Mr. Aylesworth, speaking with the authority of a counsel at that elec-tion trial, declared that the scat had been vacated not on any technicality in respect of a deposit, but because of corrupt practice. Mr. Thornton (Durham) promptly challenged the accuracy of the Min-ister's statements, going so far as to declare that if there was a word in the trial judge's finding about corruption he would resign his seat in the House. Mr. Aylesworth produced the journals of the House and read the official report of the judges, stating explicitly that Mr. Thornton had been unseated in June, 1901, because of corrupt practice by an by another board until the end of the term. "You will never get them to stand by a combine of that kind," remarked Truatee Bell, and the discussion ended. The Internal Management Committee's recommendation that residents on the west side of Garth street, south of Aber-deen avenue, in the township, be allowed to send their children to the public schools by paying a fee of one dollar for each family per month, was sharply crit-icised by Trustee Booker. He wanted it referred back. 1901, because of corrupt practice by an

referred back.

Mr. Mei

1901, because of corrupt practice by an agent. "Resign, resign," called the Liberal members, amid laughter. Mr. Thornton, how over, in the face of the official record, stuck to his original statement. "I have a copy of the findings of the judges in my possession," he said, "and I shall produce it in the House within the next week. If there is a word in it about my election being voided for corrupt practices. I am willing to resign, and if the Minister of Justice is shown to be wrong I shall expect him to resign." "It is an encouragement to large fam ilies," said one of the trustees jocu him to resign

"It is an encouragement to have that like," said one of the trustees jocu-larly. "We don't want large families if we have to pay the bill," retorted Mr. Booker, who could not see why the rate-payers of Hamilton should pay for edu-cational facilities for the people of Bar-ton. Hamilton was responsible for pro-viding school accommodation, within the limits, and Barton had the same res-ponsibility. Trustee Callaghan regretted that the Board could not see its way clear to let these children attend at the regular fee charged city people. Trustee Allan suggested that in view of the fact that the district would be annexed shortly that the pupils be per-mitted to attend at the usual fee until the first of January and pending the ishim to resign." Mr. Meighen, after studying out the records of the case, endeavored to recon-cile the conflicting statements by show-ing that there were two petitions, and that Mr. Thornton was referring to one finding of the court while Mr. Ayles-worth was referring to the second and final finding of the court. Hon. Mr. Fielding and Hon. Mr. Graham declared that while they could not support Mr. Macdonell's bill, they would be in accc⁻¹ with any proposal to extend the time of voting so that the workingman might not be placed at any disadvantage. Mr. Thoburn strongly opposed the bill. Instead of abolishing the \$200 deposit he would be in favor of increasing it. Major Beatite also objected to the bill. Hon. Mr. Aylesworth's motion that the bill be read six months hence was car-ried without a division. QUESTIONS ANSWERED. ghen, after studying out the

the first of January and pending the is

the first of January and pending the is-suing of the annexation order. Trustee Lammoreaux explained that the last name to the annexation petition was signed yesterday so the district was eure to come into the city shortly. The board, however, passed the com-mittee's report. William Wright, of Crown Point, ap-plied for a position as drill instructor, and truancy officer in the newly an-nexed district. He was formerly a ser-geant-major in the imperial forces, and has had police experience. The board has not decided yet to create the new posi-tion.

The trustees were invited to be Hon. Mr. Fielding told Mr. Foster that to temporary loans had been made by he Government since the beginning of

The trustees were invited to be pres-ent this afternoon at the distribution of prizes and medals at the collegiate. Miss M. L. Wood, Agness Tulley and J. Caroline Smith, were applicants for posi-tions on the public school teaching staff. Oscar Main and Fred. Schooley were applicants for the position of principal on the public school staff. Miss Isabella Strong, teacher of Do-mestic Science at the Technical School, sent the trustees an invitation to at-tend a luncheon early in Januar to ha tend a luncheon early in January tend a luncheon early in January to be prepared by one of her classes. The board refused to guarantee \$50 towards teh appointment of an instruc-tor as requested by the Hamilton Col-legiate Glee Club, although the city would probably never be called upon to pay the money. The trustees thought the pupils needed outdoor exercise more than anything else in their spare time. The board will expropriate 40 feet of land adjoining the Barton Street School.

SIX MEN DROWNED CONTRACTS.

SINKING OF A DREDGE OFF FORT WILLIAM.

Board Will Refuse to Accept Great Lakes Dredging Company's No. Eight Sprung a Leak and Went Down in a Few Minutes-Re-mainer of the Grew Jumped on Scow and Were Saved. Who Want to Go to Other Cities

Scow and Were Saved. Fort William, Dec. 9.—At 3. o'clock this aftermoon dredge No. 8 of the Great Lakes Dredging Company, in charge of Chief Gregg, in tow by the Inex, in charge of Captain George Still, spring a leak between Mutton Island and the Welcomes, and two minutes after filled and went to the bottom, carrying with her six of the crew of fourteen on board. The balance of the crew were saved by junping aboard a light scow which was in tow, alongside the dredge. According to the story told by the survivors of the disaster, they were going along in tow about 250 feet behind the tig when the dredge spring a leak. She filled rapid by and the crew made a rush for the save alongside, and escaped just in time, a the dredge went to the bottom, carry-ing six of the crew with her. When the dredge went down those who jumped on the accow released enough rope to keep. The orew of the scow servered the tow form the green to the bottom before freme from the scow to the tug. The source of the dredge spring a leak, and and put about to her assistance. Nut she had gone to the bottom before freme from the scow to the tug. The serve of the dredge spring a leak, and and to jump on the scow. The the time the dredge spring a leak, and and to jump on the scow. The dredge, and that she went down so strived, the trew were unable to es-cape. Mr. Gregg says that Fradenburg, pust beide him before he jumped on the scow. When the count of the sur-pust beide him before he jumped on the scow. When the count of the sur-pust beide him before he jumped on the scow. When the count of the sur-pust beide him before he jumped on the scow. When the count of the sur-pust beide him before he jumped on the scow. When the count of the sur-pust beide him before he jumped on the scow. Then the count of the sur-burgers and the the scow at the surverses and the missing.

SIR A. WILSON.

The New British Admiral Fits Position Exactly.

Posses Many of the Qualities of Sir John Fizher.

London, Dec. 12 .- By the choice of Admiral of the Fleet Sir Arthur Knyvet Wilson, V. C., to succeed Lord Fisher of Kilverstone as First Sea Lord a question of some difficulty has been settled in the most satisfactory manner, says the New

York Herald's naval corresp ondent. It is even said that Sir Arthur's self-acri fice in relinquishing his leisured retire-ment for the arduous strain of duty at the Admiralty is due in no small measure to the initiative of the King. Most er-tainly it would have been almost impos-sible to have found another man who

stble to have found another man who enjoys so entirely the confidence of the navy and the nation. Sir Arthur Wilson is inspired by a whole-sould devotio nto his profession. Like Lord Fisher, too, he has had a scien-tific training and is reticent, determined and programming in fact, he carries retiand progressive. In fact, he carries reti and progressive. In fact, he carries recu-cence to an extreme, and whereas during his five years of rule Lord Fisher has made but two public speeches, it is quite on the cards that Sir Arthur will not make any at all, however long he re-mains in office. Unlike Lord Fisher, who specialized as a gunnery officer, Sir Arthur Wilson graduated in the torpedo school and exhibited early his bent in the invention of apliances connected with the invention of apliances connected with the use of the torpedo. It is, however, as the use of the torpedo. It is, however, as a strategist, a tactician and a handler of fleets that he is regarded as the high-est authority of the navy, which trusts him in these matters as only Sir Geod-frey Hornhy was trusted by his brother scamen in recent times. But although the two men, Sir Arthur Wilson and Lord Fisher, possess many qualities and aptitudes in common-taciturnity, screttveness, independence

if desired. taciturnity, secretiveness, independence and fearlessness of responsibility—they are very different in appearance. Lord Fisher is clean shaven, square cut of feature, bronked, and with humor for-ever lurking in his eyes. Sir Arthur Wilson is bearded, grey and grim; his eyes have a steely glint and he looks what he is, as hard as nails. It is not only because Sir Arthur Wil-son is a man with an executional wtaciturnity, secretiveness, independence and fearlessness of responsibility-they spoon of soda, a pinch of sait, and enough flour to make a stiff batter. Then add two or three tablespoonfuls of sour cream. Dissolve the soda in a little of the buttermilk. Then add the other ingredients, bake in hot gem pans in hot

Ome cupful of sour milk or buttermilk, a little salt, half teaspoonful of soda, half teaspoonful of melted lard, and enough flour to make a soft batter. This gives a rich and flaky taste to the cakes. son is a man with an exceptional re-cord of distinguished service and one son is a time cord of distinguished service and one whose strength of character inspires con-fidence that his selection to succeed Lord Fisher of Kilverstone has been received by the country with satisfaction. It is universally felt that with his accession to office there will come a cessation of the disagreeable asperities and unpleas-ant bickerings which have disturbed the navy of late and have had a most un-happy effect upon public opinion. Resignations of Teachers

wards that shortening the hours of lahor reduced the capacity for produc-tion. It was generally recognized that the shortening of the hours of lahor was an advantage not only to the working classes, but to the community. While the question was one primarily for the considera-tion of Provincial Legislatures, noth-ing but good could result from the discussion of the subject in the Domin-ion Hopse. He pointed out that the Government had already done much to improve the conditions of labor on pub-lie works. They had enacted a fair wage clause and taken steps to enforce it, of-Improve the constructure and a fair wage clause and taken steps to enforce it, of-ficers having been appointed for the pur-pose. While the object aimed at in the present bill was to be approved, it was desirable that the House should know present bill was to be approved, it was desirable that the House should know what it was voting for. If passed in its present form it would give rise to many complications, and might lead to serions misunderstandings not in the interests of the working classes them-selves. Some trade unions had agree-ments with their employers as to the conditions of labor, exetnding over a torm of years, and the effect which the bill would have on these agree-ments was a matter which should receive attention. Then, from in-formation collected in the department, he found that the hours of labor in the building trades in Canada differed in almost every Province. It might be that these differences were elimatic, or were due to other conditions, but before enacting legislation that would arbitrarily determine the hours throughout the country, they should give the men of the various trades likely to be affected an opportunity of expressing their views. Accordingly he suggested that the bill be referred to a special committee. present but the House

here expressing then he suggested that the bill be reached a special committee. Mr. McKennie was prepared to sup-port an eight-hour day, but he did port an eight-hour day, but he did not think the bill as framed would serve any good purpose.

HON. MACKENZIE KING. Hon. Mackenzie King dissented for the view expressed by Mr. Ed-ards that shortening the hours of hor reduced the capacity for produc-n. It was generally recognized it the shortening of the hours of or was an advantage not r to the working classes, but to community. Des Moines, lowa, Dec. 9.-Dr. Sam-uel Baily, of Mount Ayre, and a promin-ent member of the National Medical So-ciety, on Wednesday before the State Horticultural Society declared that ap-ple eating kills the taste for cocktails and other strong drinks. He says it is the meat-caters who be-come addicted to strong liquor, and that fruit-cating should the encouraged as a solution of the liquor problem. The soci-ety endorsed his theory. SOUTHERN WAFFLES.

The Illegical One. Wife—You refuse to lat me go to Nice, yet I notice you can buy yourself new boots."—Bon Vivant.
