BOY WANTED.

Wanted a boy to learn the printing business. Apply to

JAS. A. STEWART

THE BOLD Y.

Drake, Nelson, and others, his their "fling."

"Tis of a new champion that now we sing.

Whose match is scarce found in the annals of war;

'Tis of Commodore Dewey that bold Yankee tar.

Who tackled the Spaniards, and wholloped them sore

'Till their squadrons, and forts (like their hopes) were no more,

And fierce though the fight was received not a scar,

True, fortune did smile on the bold Yankee tar.

Immense were the risks that he ran in the fight.

He entered the Bay of Manila by night,

And early next morn from the forts rang afar,

Their welcome to Dewey the bold Yankee tar.

Yes, Dewey was welcomed with shot, and with shell,

In turn he did welcome his brethren right well,

He sank all the ships that against him made war

And he silenced the forts did the brave Yankee tar.

Now Freedom rejoices, and Tyranny quakes,

The cheer of the former the foundations shake,

Of the latter who sees its overthrow not afar,

All honor to Dewey "The Bold Yankee Tar."

JOHN DUNHAM

LIBERTY.

Oh Liberty! blest Liberty!

Thou art the watch word of the brave

And manhood's foremost deity.

Thy charms inspire the lowly slave

To rise and join the freeman's van

Hold up his head and be a man.

Oppression thou dost overthrow,

And set his long wronged subjects free;

Before thy might the grovelling low,

While they their praise blest Diety,

To the man life the captured eye,

Thou movest him to do or die.

Thy power is felt o'er all the world,

Where'er thy standard is unfurled;

Boast of the Anglo-Saxon race.

The Red Cross flag, which none dare mar

And Stars and Stripes, thy guardians are.

WOODVILLE.

Farm and Household.

Care of Milk.

Milk should be set as soon as possible

after being drawn from the cow, whether

shallow or deep setting is used. With

open setting it must be in a room where

the air is pure. A pantry with a door

opening into the kitchen is a bad place.

The odor from cooking vegetables and

meat will surely injure the butter. Many

make butter in a cellar because it is cool,

but it is apt to impart a musty, mouldy

smell to the butter. A cellar may be

good and cool, and yet be so ventilated as

to have pure air; then it is all right for

butter making. To get the best results

with shallow setting, the temperature of

the milk should not go much above 60° F.

At that temperature it can usually stand

about thirty-six hours. The time to skim

is when the milk has soured just enough

to be a little thick at the bottom of the

pans and to thicken the cream. The

cream cannot be skimmed off when it is

thin and sweet without loss. No milk

should be taken with the cream. Cream

with milk in it sours much more rapidly

than cream with no milk in it. This

cream will be very rich and thick, and

although partially ripened when taken off,

if kept at a temperature of 60° or below,

it will be all right if held two or three

days before churning. Whenever a new

skimming is put into the cream jar or can

the whole should be thoroughly stirred

and mixed.

In the winter effective creaming may

be had when the room in which the milk

is set is very cool, even down near the

freezing point. This is accomplished by

heating the milk above 100° F., before

setting. The cream will rise very rapidly

while the temperature is falling. The

warming can be repeating after twelve

hours, if the milk is in small pans, by

setting over a kettle of boiling water. If

large pans are used, such as have been

described, the heating is done by running

hot water through the water channels be-

neath the milk. This practice of repeat-

ed heating and cleaning makes very effec-

tive creaming, leaving very little butter

fat in the skim milk, and the cream is

rich and thick.

Dahlia Culture.

Dahlias are most satisfactorily grown

from roots, which can be safely planted

when the danger of freezing is over. There

are three distinct systems of growing,

the best of which is the single stem

branching system. This method does

away with the unsightly stakes and pro-

duces fine, symmetrical plants of medium

height. In other words, a plant growing

New Brunswick, County of Queens, ss.

To the Sheriff of the County of Queens or any Constable within the said County.

GREENING: Whereas Wesley T. Hamilton has filed a petition praying that Letters of Administration of the Estate and effects of Thomas Hamilton late of the Parish of Peteraville in the County of Queens aforesaid Farmer may be granted to him.

You are therefore invited to cite the following persons viz: Jane Scribner wife of Robert Scribner of the Parish of Peteraville aforesaid and all minors, the creditors of the said Thomas Hamilton and all others interested to appear before me at a Court of Probate to be held at my office in Gagetown in the Parish of Gagetown in said County of Queens within and for the said County of Queens on Wednesday the eighth day of June next at two o'clock in the afternoon to show cause if any they have why Letters of Administration of the Estate and effects of the said Thomas Hamilton should not be granted to the said Wesley T. Hamilton as prayed for. Given under my hand and the seal of the said Court this seventeenth day of May A. D. 1898.
