LOUNSBURY—LAMKIE Dalhousie, N. B., June 9—The marriage of Miss Greta Pauline Lamkie, daughter of Mr. and Mrs. George Lamkie, and Mr. George Holland Lounsbury, of Chatham, was celebrated at the residence of the bride's father by Rev. W. I. Bate, rector of the St. Mary's Episcopal church, last Tuesday evening at 9 o'clock. The bride looked charming in a beautiful gown of ivory duchess satin, with a bodice of crystal and seed pearls, and carried a shower bouquet of bride-cakes and lilies of the valley. The drawing room was tastefully decorated for the occasion with palms, ferns and cut flowers. Only immediate relatives were present. Mr. and Mrs. Lounsbury left for a trip to Montreal, Boston and New York, the bride wearing a traveling costume of green broadcloth with a flower trimmed hat to match. The popularity of the young couple was shown by the numerous wedding gifts received.

IF I COULD If I could lead one soul to Calvary's Cross, And show Him, there, the cure for sin and pain, What'er my earthly fortune, wealth or loss, I should not feel that I had lived in vain. If I could wipe one tear from Sorrow's face, And bring the lovelight to the grief-dimmed eye, Whose might win the laurels in the race, I should not miss them when I came to die. If I could raise one blossom from the mire, And kiss its faded petals back to bloom, With humble gladness should I walk, nor tire, The way of lowly serving, to the tomb. If I could stand within the crowded mart, And teach one toiler of the Father, God, I should take up my cross with thankful heart, And tread the flinty path my Saviour trod. If I could do—but through my dreaming brain Ring clear these words in glorious ecstasy— Feed these My lambs—nor live in dreaming vain, Thou canst do all, through Christ, who died for thee. Robert Dorman. Ottawa, Jan. 17, 1910.

DEANERY MEETING Chatham, N. B., June 1—The clergy of the deanery of Chatham met in St. Paul's rectory, Chatham on May 25 and 26. There were present Rural Dean, Rev. W. J. Bates of Dalhousie, Rev. C. W. Nichols, of Newcastle, Rev. F. W. M. Bacon of Richibucto and Rev. F. H. Thomas of Harcourt. The Rev. Canon Smithers, diocesan missionary, was present as a visitor. A committee was appointed to arrange for the formation of a society for the week day instruction of children by the clergy. Venerable Archdeacon Forsythe was re-elected rural dean and the Rev. W. J. Bates, secretary. Hon. J. P. Burchill and the Rev. F. W. M. Bacon were elected deanery representatives on the board of diocesan missions.

At a meeting of the clergy and lay delegates, Ven. Archdeacon Forsythe was appointed a governor of Kings College for the rural deanery of Chatham. Science has lifted the band of kissing which it had been endeavoring to maintain with such indifferent success. It is now all right for healthy persons to while away a pleasant half hour trading microbes. Science saw that kissing was here to stay, and so decided to make the best of it. John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all dealers.

NEW BUILDINGS FOR BIG FAIR

Dominion Exhibition at St. John Necessitates More Structures.

Arrangements for special features of the Dominion Exhibition, to be held at St. John, N. B., Sept. 5th to 15th, are progressing most successfully. Surveys have already been made for the new buildings, the chief of which will be the Horticultural structure. This will be 60 by 150 feet in size, 3 stories high, and containing upwards of 30,000 square feet of floor space. It will adjoin the large southerly wing of the Main Industrial building, and will be erected in an easterly direction towards Courtney Bay. In this new building the Agricultural, Horticultural, Dairy, Educational and Women's Work departments will be located, thus relieving the main structure of much pressure for space, and making room thereby for scores of western exhibitors, whose applications for space are already in hand. The activity of St. John Board of Trade members in securing local Provincial and Maritime Provincial exhibits to offset the competition of western concerns makes it look as if there will hardly be enough space to accommodate all who desire to take part in the big show. However, the Exhibition Management, by urging prospective exhibitors to make early application, are enabled each day to better gauge the ultimate result.

A few years ago from fifty to seventy-five million feet was considered a large cut for the Restigouche, whereas this year it is estimated that one hundred and twenty-five millions will pass through the Restigouche boom.

A New York physician says that going to bed is the quickest and surest cure for any illness.

A Seattle man with indigestion decided to cure himself by fasting forty days. On the thirty-fifth he said he felt fine. The starvation cure works all right if one can only live long enough. There are seven or eight murder cases now before the Canadian courts, some of them for most brutal crimes.

There has been a substantial drop in the price of wheat. This will be followed by a corresponding reduction in the price of bread—we don't think.

There is a statement in circulation to the effect that in the State of Maine between a hundred thousand and one hundred and fifty thousand people have been set out this year. Maine is apparently going into the business of cider raising.

The suggestion that the coronation of King George should take place on May 24th next, is one which will appeal to the general sentiment throughout the world and would do more to give to the world a day that recognition in the world, which it has won. The world would sincerely mourn the death of Dr. Koch, whose researches into the origin and progress of tuberculosis have made him a benefactor of the race. His work is not only effective as against that disease, but it has been full of valuable suggestions for all inquirers who have been endeavoring by scientific methods to discover how other dangerous diseases can be counteracted.

HOME SEEKERS

The Grand Trunk Railway are planning excursions to the Canadian North West. These have been christened Home Seekers Excursions and bring to mind the thought that there are thousands of new homes yet to be found in this ever-growing country particularly along the line of the Grand Trunk Pacific.

The Grand Trunk Pacific has acquired sufficient land to make nearly 100 town cities between Winnipeg and Edmonton. The lots are now placed on the market for sale, and are being rapidly picked up.

Since last September between Winnipeg and Edmonton, the G. T. P. have been operating passenger and freight service. This is a distance of 703 miles, and all along the line there are villages and towns springing up with surprising activity.

There are four or five divisional points within this mileage that are showing marked development, and would well engage the special attention of those seeking a home or an improvement of their financial condition.

These excursions will be run on April 5th, 19th, May 3, 17, 31, June 14, 28, July 12, 26, August 9, 23, September 6, 20. Good for return within two months of date of issue.

Other and full particulars may be obtained on application to J. Quinlan, District Passenger Agent, Montreal, or any other G. T. representative.

An attempt will be made to vindicate Dr. Cook. Whatever may be said of the Doctor's moral status, he has done more than any other man to discourage the sacrifice of life and health in efforts after the glory of reaching either Pole.

A SPEED CURE

Kentville, N. S., Jan. 1st, 1910 Messrs. C. Gates, Sons & Co. This is to inform you that I have been a sufferer for the last fourteen years from Kidney and Stomach trouble, brought on by severe colds, having been laid up every winter during that time. Last year I was laid up seven months so that I could not go out of the house. Dropsy set in and my stomach swelled so that I was six inches larger than my usual size, had two doctors in attendance but I grew worse and they were going to lay me. My friends despaired of my life. At this time I was recommended to use GATES' LIFE OF MAN BITTERS and REGULATING SYRUP and in a week after commencing their use my size was reduced two inches, and in four weeks was reduced to usual size so that I went to work in my mill, and have been able to continue it ever since. By continuing the use of your BITTERS and SYRUP I hope to get a cure of the kidney and stomach trouble so far as it is possible as it always helps me when I take it. You may make these truths known for the benefit of sufferers. Yours very gratefully, JOHN W. MARGESON.
