The potato yield in Arcostook county, Maine, will be nothing short of marvelous this year. With the average yield, 150 bushels to the acre, there will be at least six million bushels put into the market. It is feared, however, that potatoes will be a glut on the market this year in the eastern states, as the western crop is reported large.

Dr. George M. Dawson, director of the geological survey, arrived at Ottawa on Friday last, after making an inspection of the experimental boring for petroleum at Athabasca Landing, Northwest territories. The money received for Manitoba's flax produce this year will form a more important item in the revenue of the farmers than ever before in the history of the Province. In the course of a conversation with a gentleman interested in the flax trade, he stated that the quantity exported would amount to fully one million and a quarter bushels. Of this nearly one million bushels would be taken by Mr. Livingston, of Baden, Ont., who turns it into oil cake for the European markets. Besides this, there will be a local consumption of from 6,000 to 9,000 bushels.

The value of the gold in money was $3,276.13 and of silver in it $18.55. The charges for melting, refining, alloy, etc., amounted to $8,41, the net return to the department being $3,285.77.

The very valuable saddle horses belonging to Their Excellencies the Governor-General and Countess Aberdeen were literary steamed to death a few days ago while on their way to the Governor-General's Okanagon ranch in British Columbia. Steam fittings had been placed in the car for the purpose of regulating the temperature if necessary. The steam cock was inadventenly left off. After an hour and a half's run from Vancouver it was noticed something was wrong with the steam, and, on the car where the horses were stalled being opened both animals were found dead on the floor. The horses were thoroughbred animals; one horse, belonging to the Countess, was considered the best in Canada of its kind,

THE fisheries department, Ottawa, has received returns of the salmon pack of British Columbia for the season just closed Although it was expected that it would be an off year for canners, the owners of the different establishments on the Fraser river have been agreeably surprised at this year's run. Fletcher has established a Piano Warerooom in the Opera House building, where a choice collection of pianos and organs manufactured by the Bell Organ & Piano Co., are kept constantly on hand, and where you can buy a choice instrument on easy terms. In connection with these instruments is an ingenious device called the "Mandolin attachment." This attachment gives a perfect imitation of the sound of the mandolin, and is so arranged that the change from piano music to piano and Mandolin is effected by simply pressing a button. Don't fail to see this.

MR. JOSEPH ARSENAULT has Mr. McRae's farm in Bedeque rented. Last spring he sent away to Wm. Rennie of Toronto for a bushel of white Siberian oats which he sowed on May 13th and reaped on August 22nd. The bushel was sown on a plot of ground 35 by 80 yards—something over a half acre—part of which was potato land and part stubble, the latter receiving a dressing of manure prior to seeding. From this plot of ground 28½ stooks were cut which, when threshed, gave a return of 47 bush. and 4 lbs. Our agricultural readers will say this is an extraordinary good yield. Although at first Mr. Arsenault did not know it, Mr. Rennie in the spring offered prizes of $10, $6, and $4 for the first, second and third best yields of his white Siberian oats, and Mr. Arsenault has duly filed out the particulars and sent them on in the hope that he may be among the successful ones.—Pioneer.
