The Evening Chit-Chat

By RUTH CAMERON

"Well," sighed the little stenographer lady, as she passed me a newspaper indicating three tiny lines which set forth the portentous fact that Theodosia So-and-So's parents were announcing her engagement to Roderick Bling-Such-and-Such—tiny as it looks to us I've no doubt that agate type stands out like seventy-point head lines done in scarlet to Roderick and Theodosia—"I hope this will teach me a lesson."

"About what?" we naturally inquired.

"That it's time persons of your advanced age were thinking about their futures," suggested the wants-to-be-cynic.

"Nobly apparently didn't even hear this interpolation."

"Well, my dears," she answered us, "Theodosia, as you know, is an old chum of mine and last time she came to visit me she told me all about her love affairs and asked my advice. There were two men and she said she wanted my honest opinion of them. And what do you think I did? I actually gave it. I told her I didn't see how she could have a moment's peace. I said that one of them was a nice, clean looking, clean minded, hole souled, honest young chap that any girl would be proud to have love her, and that the other was a perfect bill. I said he was the most totally and thoroughly uninteresting man I ever talked to, that his looks made me think of an undertaker, that I knew he was the kind of man that would never expect her to stray from her own hearth once she was married, and that I'd heard he was terribly close."

Ruth Cameron

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Fads and Fashions.

Some people have been de rosy, green or violet ribbon using their latent leather walking shoes, recalling the belt, or the embroidery, or some sort of trimming on the costume.

A combination of flat venise lace on heavy flat net is very beautiful and modish, and so are darned flirts, especially a new variety, in brilliantly colored Oriental designs on crin net.

The directive note is struck over and over in the new spring styles. It is in the coats, in the hats, in the revers, the plated frills, and the long, tight sleeves. It isn't new; far from it; but it is popular.

KEEP MINARD'S LINIMENT IN THE HOUSE.

Newfoundland Football League.

REPORT FOR SEASON 1910.

Your officers congratulate the League upon the successful conclusion of our fifteenth year, and beg to submit the following report for the past season:

The championship games were participated in by the teams of the year previous, with the exception of the Casuals replacing the Total Abstinence representatives, and the order in the table of points at the conclusion was: Star, St. Bon's, Collegians, Fieldians, Casuals, C.E.I. and B.I.S.

The Star team thus for the second successive season secured possession of the championship cup and so are well on the road to a repetition of their success in former years, of becoming the absolute owners of the emblem of first place honours. As in the past their conspicuous hard play marked them out as well deserving the position they have secured.

The St. Bon's are to be complimented upon the marked advance in their play from the season previous, and upon their securing such a fine place on their second year in the League.

The Collegians and B. I. S. moved towards the reverse end of the table, and the last mentioned for the first time became the spoonholders.

The Fieldians and C. E. I. improved the positions from the year previous, whilst the Casuals for their first appearance are deserving of congratulation. Their games were well fought and it was only the breaking up of their team by the loss of some of their most prominent players that prevented even better results.

Altogether, however, the games did not show the vim and enthusiasm that we would desire, due we think in a large measure to the lack of practice by the various teams. It is to be earnestly hoped that during the coming season this feature will be remedied, and that the members of the various clubs will make some attempt to revert to the old time appreciation of the value of sufficient practice before entering into the fixtures.

In the Brigade Division the Church Lads' Brigade again led the way; the Catholic Cadet Corps, Methodist Guards and Nfld. Highlanders following, thus merely repeating the order of the year previous. The champions in this division well merited their win, their play being consistently good throughout the series.

Financially the season worked out about equal to 1909. The receipts from champion competition were \$672.32 as compared with \$756.85 for the former year. The Brigade Division receipts were \$466.39 as compared with \$567.27; whilst the total receipts from all sources were \$1,393.94, and disbursements, \$1,398.65, as compared with receipts of \$1,485.31, and disbursements of \$1,447.75 for 1909. The total funds now to the credit of the League amount to \$2,777.99.

The annual games with the naval teams took the form last year of three contests with H. M. S. Cornwall. We regret that the local teams the games were none the less enjoyed. It is only fair to state that one of the city losses might be attributed to the lateness of the season preventing a number of the selected players from taking part.

Recently the matter of the taking over of St. George's Field by the St. John's Cricket Association has been under discussion. As you are aware it has been the desire of this League to assist in the revival of the sister game so far as possible, and to that end we have made certain proposals to those interested in the cricket proposition. Nothing definite has yet been done, but if arrangements are finalized we feel that the new condition of things would tend to the general increase of interest in both games.

The new regulation confining players to separate divisions in the League came into effect for the first time last season, and whilst of course it is somewhat early to judge anything as to results, we confidently predict that the wisdom of this alteration will be amply borne out in the very near future by the creation of a good supply of new material for the various teams in both sections of the League.

The matter of endeavouring to secure a visit from an English team has again been considered, and it is earnestly hoped that the steps which have been recently taken will result in our having our wishes in this respect gratified. With this possibility before us we trust that the various clubs will make an especial effort to elevate the standard of the game to as high a plane as possible during the approaching season.

To the members of the League we again express our sincere thanks for their kind co-operation during our term of office.

MARK CHAPLIN, President.
W. J. HIGGINS, Secretary.

Just what I've been looking for

"BEAVER FLOUR"

makes ideal bread and pastry, because it is a perfect blend of Manitoba Spring wheat and Ontario Fall wheat. You don't need to keep two kinds of flour for bread and pastry. Beaver Flour makes both—a pure, white, nourishing, light loaf that "stands up" in the oven, and pastry that is crisp and appetizing. It is more economical than other flours, and appeals to all thinking women.

Order it to-day from your grocer.

8922

8922—A Dainty Morning Jacket. In this dainty model for a dressing sacque, the front, back and sleeve are cut in one piece. An unusually trim, neat appearance is given at the waist line by the fulness being gathered in to a smoothly fitted bodice, finished by a belt of ribbon-run heading. The style is adaptable to such materials as lawn, batiste, dotted swiss, and cotton crepe. The pattern is cut in 3 sizes: small, medium and large. The medium size requires 2 1/2 yards of 24 inch material.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Suitable materials for any of these patterns can be procured from AYRE & SONS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.
