"Little Boy Blue"

THE NICKEL'S FEATURE.

The famous nursery rhyme "Little Boy Blue" was shown at the Nickel Theatre yesterday to the delight of hundreds of people young and old and everybody was delighted with it. The film was produced by the Lubin Co. and is one of the most attractive ever presented here. The story is known to everyone but this is the first opportunity of seeing it acted, and the film will attract many today. The other subjects were of a high class. For the Commonwealth is an Edison drama showing the competition of prison labor with other. "Professor Optimo" is a comedy in which the great humorist Marshall P. Wilder figures. Miss Guerin's song "As Long as the Shamrock Grows Green" and Miss Gardner's "Ragtime Goblin Man" were well rendered and favorably received. The entire programme will be repeated this evening.

Fishery News.

At present fishery prospects on the North Side of Bay St. George are discouraging. The total catch so far this season is two hundred and thirty. Herrings are numerous and the lobster fishery is good.

Three bankers arrived safely from the Grand Banks during last month. Another banker, the Companion, was lost in sight of the home port, with 400 quintals of fish on board.

Wreckage Reported.

The schooner Fiona, Capt. Charles Butt, while beating up off Sugar Loaf, on Wednesday evening under a strong breeze of wind passed by wreckage. Capt. Butt was close enough to identify it as the roof of a cabin painted dark red with a funnel hole in it, and supposed that it belonged to a craft of about fifty tons. It is just possible that the reported wreckage is a portion of the schr. Alphon which was lost a week ago off Blackhead.

A Fine Boat.

The fine new motor boat "Blue Bell" turned out by Shipwright John Taylor for Mr. Geo. M. Barr, was launched to-day and christened by Miss Barr in the conventional manner. She is a boat of very pretty lines, is 30 feet over all and is fitted with a Fairbanks Morse motor type K of 15 horse power which gave her on her trial spin on the harbor this forenoon, a speed of 12 knots. She can seat comfortably 25 persons and with her flag flying to-day, she attracted much attention along the water front as she went up and down the harbor.

She Was Helpless For Two Years.

WHY MRS. BALDWIN RECOMMENDS DODD'S KIDNEY PILLS.

She Could Find Nothing To Cure Her Rheumatism Till On a Neighbor's Advice She Tried Dodd's Kidney Pills.

St. Walburg, Sask., May 30.—(Special)—"I can truly recommend Dodd's Kidney Pills for any one suffering from rheumatism." These are the words of Mrs. W. A. Baldwin, a highly respected resident of this place. And Mrs. Baldwin gives her reasons.

"I was nearly helpless with rheumatism for two years," she states. "I got medicine from the doctor, and tried several other remedies but nothing helped me. Then one of my neighbors advised me to try Dodd's Kidney Pills. I bought four boxes, and they helped almost from the first. I have used nearly two dozen boxes and am nearly cured."

That rheumatism is one of the results of diseased kidneys is again shown in Mrs. Baldwin's case. She had headaches, stiffness of the joints and backache, her sleep was broken and unrefreshing, and she was always tired and nervous. Her limbs swelled and she was always thirsty. These are all symptoms of diseased kidneys. When she cured her kidneys with Dodd's Kidney Pills, the symptoms vanished—and so did the rheumatism.

The Tire That Never Tires

AGENTS
FOR
GOODRICH
TIRES.

ON an average size tire, any given point on the outside circumference comes in contact with the ground about 700 times in a mile; or, to put it another way, the same given point on a Goodrich White Tough Tread in 5,000 miles of service—and that's no big task for a Goodrich Tire—which have hit the ground 3,500,000 times. Some rub and grind there.

Yet, so effective is the wearing quality which the Goodrich factory imparts to the rubber of the White Tough Tread that it is no unusual sight to see an old Goodrich Tire, old in miles run, with the mold mark still fairly prominent and without those ominous looking scars anywhere on the tread, which foretell an early tire collapse.

We firmly believe that no other single factor of tire construction has done so much to emancipate the motor car user from tire disaster as the Goodrich White Tough Tread. A trouble buffer and expense saver of the first order.

Place your order for new tires with us and you'll be—tirely satisfied.
