The Grand Falls Fire

SOME PARTICULARS.
We have gathered some particulars of the big fire at Grand Falls from passengers who came to the city by last night's express. The fire, which was due to the overturning of a stove in a "bunk house", was first seen by Mr. Harrison, who is one of the superintendents at the A. N. D. Co.'s works. He saw a volume of smoke coming from the sides and roof of the "bunk house" and at once spread the alarm. It was found, however, that the fire must have been burning for some time as the blaze had considerably worked back to where over 100,000 cords of wood were piled, and as there was a heavy N. W. wind prevailing at the time the fire was quickly fanned into greater force. When last night's express passed through Grand Falls yesterday morning the whole vicinity was dense with smoke and there were then six streams of water playing on the blaze. The R. N. Co. received a wire this a.m. saying that all danger was past as the fire was got under control during the night. The roof of the Penstock was burned. As this and the wood piles which have been partly consumed were insured, the total loss will not be as heavy as at first thought. The A. N. D. Co. hold big insurances in England.

Steamer Dragged Her Moorings.

The Norwegian steamer *Ontaneda* which put in here a short time ago short of coal, but will not be given a supply until the Admiralty wishes it by reason of that ship's activities in another channel within the past year or so, dragged her anchors in the harbor this morning and drifted quite a distance and would probably have gone ashore but for the timely aid of the tugs John Green and D. P. Ingraham which towed the Norwegian to a safe place anchorage, though after considerable difficulty.

The Packing Premises.

Employment will be given in the spring when the new buildings, now wharves for the N.B. American Fish Packing Co., will be started. This big premises will be in the East End, and a large business is expected to be done.

Mr. E. St. John Howley who is appointed local manager, will go to the U. S. about April to secure plans and specifications in connection with the plant.

The Recount.

The Fortune Bay recount gives the following figures: Polled, 1205. For Prohibition, 1095. Against Prohibition, 119. The St. George's ballots which will be counted this afternoon have all been assorted. The number of votes polled were 886. The recount for this district will probably be finished by to-night.

Train Notes.

An express left Port aux Basques this morning for St. John's. Last evening's outward express left St. John's Harbor at 8:20 this a.m. The Southern Shore train arrived at 11:50, bringing only a few passengers, among whom were E. St. John Howley, Mr. Grant and Mrs. J. Judge.

The local train was late in getting in and brought only a few passengers.

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Dandruff at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.

The Connaughts' Fine Record.

Stern and Gallant Work in Gallipoli.

The following is an account of the work of one of the youngest battalions of the Connaught Rangers in Gallipoli.

The battalion landed on the peninsula at the beginning of August and the same night was moved up to the extreme right of the Anzac position. There the various companies behaved with the greatest gallantry, fortifying a new position and burying the dead under a heavy fire.

On August 10, after being in actual contact with the enemy for the last twenty-four hours, the battalion was ordered to move to the left of the Anzac position up the Aghyl Dere, when two companies were sent forward up the steep and wooded slopes of the Chinak Bait to relieve the small detachment of various regiments that had clung to the edge of the ridge and to bring down the wounded and bury the dead.

The next evening the battalion seized a ridge in front of their last night's position and consolidated it. Then began constant trench duty, always under shell and rifle fire.

On August 20 the battalion was marched towards the left of the position held by the Indian Brigade. From here the next day the Rangers issued out to attack and capture the Kabak Kuzu Wells and the Turkish trenches in the neighbourhood. It did not take them long. The men poured out from a gap in the line, shook out to four paces interval, and with a cheer carried all before them, bayoneting all the Turks in the trench, capturing the wells, and even capturing some ground on the Kalajik Aghala. All that night the position was consolidated and in the morning it was still held by the Rangers.

The next day we were thanked by three General Officers and congratulated on the magnificent charge. On August 27 the Rangers were called on to capture another trench on the Kalajik Aghala in conjunction with the Australians. The attack was begun in gallant fashion, but it was stern work. The regiment gained the end of their trench at last, but the troops on their right were held up by a machine gun, and holding on until few survived they were forced to give way about midnight as a large force of Turks had broken in by a communication trench.

The battalion was again congratulated on its gallantry by three different General Officers, of whom one wired to the Commanding Officer as follows:

"Heartiest congratulations from the New Zealand and Australian Division on your brilliant achievement of the evening, which is a fitting sequel to the capture of Kabak Kuzu Wells and will go down to history among the finest feats of your distinguished regiment. Personally as an Irishman who has served in two Irish regiments it gives me the greatest pride and pleasure that the regiment should have performed such gallant deeds under your command. Stick to what you have got and consolidate."

BELOW THE STANDARD.
How do you feel to-day?
Not quite right? Emery a little below standard—not strong enough to make much exertion? Perhaps a slight cough?

Nyala's Cod Liver Compound is what you need.
Don't get frightened about those words "Cod Liver." You'll never know it from the taste.
It's a real tonic containing cod liver extract, extract of malt, wild cherry and hypophosphites—a splendid combination.

The cod liver extract builds you up—so does the extract of malt. The wild cherry soothes the bronchial tract and the hypophosphites supply phosphorus to the nervous system—just the thing it needs.
And the taste is pleasant.
As an all round tonic, strength restorer and body-builder you'll find nothing better than Nyala's Cod Liver Compound—so why look further? You will be pleased.
The price is one dollar.

THERE IS A VAST ARMY

often men and women who really never know what it is to enjoy sound, vibrating health—who would be surprised to suddenly gain that exhilarating vitality that robust health brings.

Literally thousands without any particular sickness live in "general debility", as the doctors call it—have headaches, are tired and indifferent. To all such people we say with unmistakable earnestness—"Take Scott's Emulsion after meals for one month and allow its rare oil-food to enrich and enliven your blood, quicken your circulation, stimulate nutrition, and aid nature to develop that real red-blooded life that means activity, enjoyment, success."

Scott's Emulsion is not a drug, but a pleasant food, free from drugs. One bottle may help you.

Patriotic Hockey a Great Success.

Last night's hockey exhibitions at the Prince's Rink for the benefit of the W.P.A. were run off very successfully. The large attendance of spectators spoke well for their patriotism. However, everyone well got the worth of their admission fee. The first contest was between two teams of ladies, the Reds vs. the Greens and resulted in a win for the Reds by 5 goals to 2. The players were:

REDS
Vera O'Dwyer Goal
Beth Bartlett Point
Elsie Crowdy Cover
Helen Anderson Rover
Gwen Mews Right
Lizzie Howley Centre
Olive Hayward Left

GREENS
Misses Crowdy and Storey, of the winning and losing sides, respectively, gave good exhibitions of stick-handling. Mr. H. Winter acted as referee.

The veterans then entered the arena and were cheered by the spectators. The East End played the West End, the former winning by 4 goals to 1. The players were:

EAST END
Hearn Goal
N. Vinnicombe Point
G. Herder Cover
Marshall Rover
Higgins Left
Simms Centre

WEST END
Duff Goal
A. Hayward Point
Hutchings Cover
Dickinson Rover
James Left
W. Herder Centre

Three periods of a quarter of an hour were played. The exhibition was indeed creditable for those who have not used a hockey stick for a considerable time and some of them have not even donned a skate for many years past. Play opened very lively, splendid combination as well as individual work being handed out to the spectators, but the 1st period closed without any goals scored.

Right at the beginning of the second period, W. Herder drew first blood for the west, but Gus was not long sending in the equalizer. The East End scored three times more in the 3rd period through Marshall, Simms and Hearn. The latter was the East End goal-keeper and that made his work all the more brilliant. An amusing incident that happened during the game was the penalizing of Will Higgins, the referee for years past.

Jim Vinnicombe and Hal Hutchings were also put in the box for minor offences. For the winners all did well. They had a remarkable defence. Gus Herder, Nix Vinnicombe and Will Hearn being difficult to beat. Marshall and Simms made some fine runs for the forward line, but the first hockey match ever played in the rink some eighteen years ago, so that they are veterans in every sense of the word. Hal Hutchings and Will Herder displayed clever stick-handling for the losing side. Messrs. Duff, Hayward, Dickinson, Tessier and James were excellent considering they were out of the game so long. After the match general skating was indulged in to the strains of the C.C.C. band. Suppers were served by Miss Ayre and assistants. The proceeds from this source amounted to \$70, a similar sum being realized on the hockey receipts. The total amount will help to swell the W.P.A. fund. All connected with the affair are to be congratulated.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

1509—A TRIM & BECOMING STYLE.

Junior Dress in Semi Princess Style, With Convertible Collar.

Plaid woolen in soft blue and brown tones would be nice for this, or shepherd check suiting with facings of white pique. For more dressy effect, one could choose poplin, taffeta or velvet, with facings of silk or satin. Plaid silk with brown velvet, white satin with black taffeta, or messaline with poplin would all be equally attractive. The Pattern is cut with panel fronts, that join full skirt and waist portions. The waist back has no lines. It has a deep tuck at the sides, and is stitched over the skirt below the belt. The Pattern is cut in 3 sizes: 12, 14 and 16 years. It requires 5 1/2 yards of 36 inch material for a 14 year size.
A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

1522—A SIMPLE BUT ATTRACTIVE STYLE FOR HOME OR BUSINESS WEAR.

Ladies' House or Home Dress, with Sleeve in Either of Two Lengths.

As here shown striped gingham, in blue and white was used, with white line for trimming. The waist and skirt are cut on simple lines, with front closing; deep pockets trim the skirt, and a broad collar finishes the waist. The sleeve is dart fitted in wrist length, and is finished with a neat cuff. In short length a turn back cuff forms a suitable trimming. This style is good for all wash fabrics, also for taffeta, poplin, serge, corduroy, voile, and velvet. In Blue serge with facings of blue or black satin, it would make a splendid business dress. The Pattern is cut in 6 sizes: 34, 36, 38, 40, 42 and 44. Inches bust measure. It requires 6 1/2 yards of 44 inch material for a 36 inch size. The skirt measures about 3 yards at its lower edge.
