Keep the Home Fires Burning Every Day!

But in the nights, and when you are away from home, you can

Use one of our Alcohol HEATERS, at 50c. each.

It's a wonder. Boiler is complete with handle and cover, there is a tripod and a tin holder of solid alcohol (nothing to spill). Everything is compact. Tripod folds up and so does boiler handle, and the boiler will contain tripod and alcohol holder and a cup and saucer. Alcohol refills cost 15c. each. These Heaters are useful at all times, but especially for

- Infants and sick people at night.
- Anyone who hates laying fires in hot weather.
- Picnicers, trouters and owners of motor cars, motor cycles side-cars and motor boats.
- Travellers on the railway or elsewhere.

Spring Suitings!

Have just opened our new Spring Suitings. We were fortunate in securing a splendid range of

English Worsteds and Irish and Scotch Tweeds.

Notwithstanding the scarcity of the woollens and the drawbacks in freights, we are able to show as good a selection as before the war. The latest in cut, the best in make. Write for samples and self-measuring cards.

New Cable Ship "Lord Kelvin" Reaches Port.

IS ON MAIDEN VOYAGE AND HAS MANY NOTABLES ON BOARD.

The British cable steamer Lord Kelvin, Captain DeCarteret, steamed into this port at 8.30 a.m. to-day. She came from Halifax via St. Pierre and has a special mission in this territory, as she has on board Newcomb Carlton, Esq., President of the Anglo-American Telegraph Company, Ltd., who, accompanied by his Secretary and four other Directors of the Company, is on a visitation of the Company's cable system at St. John's, Heart's Content and Bay Roberts. This party came from New York and port she embarked two days ago on her maiden voyage for Newfoundland and waters. The Lord Kelvin was only quite recently launched and is a brand new ship, being owned by the Amalgamated Cable Companies, Western Union and Direct. She was built, we understand, to replace the "Minta," which has done good service in these and other waters for a half century and will be going over to London shortly to complete her career.

The new ship is almost a fac-simile of the Minta in construction, design and size.

To-morrow she may leave here with the Directorate party on board for Bay Roberts.

Extensive Damages Done to American Yacht to Abandon Fishing Voyage.

The American yacht Sagamore is still anchored in the stream, where she has been the past fortnight awaiting repairs. The vessel sprang a leak while en route from Boston to Iceland on a herring fishing trip. Her damages are more extensive than at first thought and it will be necessary for her to be dry docked. At present, however, the dry dock is occupied and will be engaged for the next couple of months by two lumber-laden steamers which ran ashore to the westward within the past month or so. In view of the lengthy delay, it is not unlikely that the Sagamore will have to abandon her herring fishing voyage to the Iceland coast, lay up here all next winter and begin operations in the spring.

The Reid Sanitarium.

On Saturday excavation on the Reid Sanitarium at Bowcock's Farm, was commenced. Messrs. M. & E. Kennedy are the contractors and will keep a number of carpenters and masons busy for the next three months. The building will be 90 feet by 30 feet the material being of wood and concrete. It will be fitted with all up to date appliances and will equal any of its size in Canada or the States. It is expected to have the Sanitarium ready for use about a week before Christmas.

Weak, Sickly Folks Regain Health Quickly By New Remedy

A BLOOD-FOOD NOW MANUFACTURED THAT ACCOMPLISHES MARVELS.

Lots of people that were thin and miserable for years have recently been restored by this simple treatment. All you have to do is take two little chocolate-coated tablets with a sip of water at the close of each meal.

The tablets which, by the way, are called "Ferrozone," are in reality a perfect food for the blood. They contain exactly those elements your blood lacks when it becomes thin, weak, and unhealthy.

This is just the time to use Ferrozone; it excites splendid appetite, gives digestion splendid aid, supplies nourishment for all weak organs. At once you feel fresher and stronger. Nutritious blood courses through your veins, supplies strength, makes you tingle with animation and ambition.

No more headaches.

None of that tired languor.

You feel like doing things because Ferrozone completely renews and strengthens your whole system.

No medicine on earth gives such quick, lasting benefits as Ferrozone. It has raised thousands from downright weakness, brings robust health simply because it contains the fortifying elements that run-down systems require.

One week after using Ferrozone you'll feel like new, you'll appreciate what real robust health means. In a month you'll scarcely credit the push your vigor and spirits have received. Ferrozone is more than a tonic because its work lasts, its benefits remain and are not temporary. It restores health where other treatments fail, and should be used by every man, woman and child. Try it, 50c. per box or six boxes for \$2.50. Sold by all dealers or by mail from The Carthozwale Co., Kingston, Ontario.

Chain of Brotherhood.

How often in this busy world, Do we stop to consider and think That in brotherhood we are all chained With many a different link?

Your link may be rich and splendid, But mine poor and hard to bear; Oh! why has Nature so formed it, That all do not equally share?

If all of our shares were equal, This world would not be the same; There would be no sorrow of war-time, And Nations would not fight for fame.

But as Nature has formed it otherwise, Then brighten dull links in the chain; Get up and fight with all your might, And then demand your claim.

Your brother may fall but never despair, Let courage and manhood be found, Avenge your brother, and drive the foe.

That your link may be stamped with a Crown.

Bay Bulls Garden Party

The annual Bay Bulls Garden Party was run off yesterday by Rev. Fr. O'Brien, the Pastor there, and proved a magnificent success in every respect. The attendance was the largest on record and the day's programme was thoroughly enjoyed by all. A special train left town at 12.30 p.m. yesterday with 600 passengers and returned this morning at 2 o'clock. The proceeds of the affair, which were very substantial, we learn, will be devoted to church purposes at Bay Bulls.

Reids' Boats.

The Argyle arrived at Placentia at 11 a.m. yesterday.

The Clyde arrived at Lewisporte at 12.30 p.m. yesterday.

The Dundee arrived at Port aux Basques at 3 p.m. yesterday.

The Ethie is due at Flower's Cove from the north.

The Glencoe arrived at Port aux Basques at 11 a.m. yesterday.

The Home left Lewisporte at 8.15 a.m. to-day.

The Lady Sybil left Port aux Basques at 5.20 a.m. to-day.

The Kyle arrived at Port aux Basques at 7.45 a.m. yesterday.

The Meigle left Twillingate at 7 p.m. Saturday for the Labrador.

The Sagona sails at midnight to-morrow.

Rev. Dr. Powell, U.S.A., at Wesley Church.

On arrival of the express Saturday afternoon, it was discovered that a distinguished preacher, the Rev. Gideon Powell, D. D., was passing through the city, staying over Sunday, and would then leave for Bonavista, of which town he is a native, having left there twenty-six years ago, and having graduated from the University of Boston, has since pursued his studies securing degrees from other colleges through his excellent and high literary attainments, and occupying pulpits of some of the largest city churches in the United States. Called to be pastor of the Baptist church opening his discourse, retold the incident in 2nd Kings, 1st to 6th verses of 5th chap., where Elisha the prophet caused the fast ashen to swim. With vivid word picturing he described the earnest efforts of the poor student in the college, felling the trees on the banks of the Jordan themselves instead of calling on the wealthy for contributions as is done to-day, the little chick of the poor fellow whose axhead flies off and falls into the water; for alas it was borrowed, it was of considerable monetary value at that time and in his poverty he could not procure another. But we are taught that Divine interposition comes in times of extreme distress and distress, and God gave Elisha power to use means by which the axe was recovered. Cutting down a "chick" he threw it in the river and "the iron did swim." It was a miracle; any endeavor to account for it in any other way, or any theory to explain the raising of the iron instrument must be rejected. It was simply the working of the supernatural law on the natural. We are aware that much can be explained and the atheists like that German fraud Haeckel, may hackle and dissect and criticize, but they fail every time when the supernatural must be proved there was more than the working of natural law. The preacher then referred to some of these effects resulting from certain causes, and was exceedingly interesting. But then he soared to the profound when he continued to ask what explanations can you give of why the little chick the instant it comes out of its home in the shell in which it has been imprisoned say three weeks, though there may be hundreds of grains of dust around it, and but one grain of wheat or rye, the chick will immediately see, and seize that one grain. How do we explain the power of radium one gramme of which can lift a battleship of twenty thousand tons three quarters of a mile in the air. And yet some shallow headed folk with so little brains that when you tap their heads they will rattle, say, what I can't see through and understand I won't believe. What about God in nature, the flowers, infinite in their fragrance and variety, the fish, the salmon, in their habits and instincts, the ocean, and the heavens in their over-arching grandeur? After losing a magnificent peroration showing that ever greater things may be expected in the effect of supernatural on the natural, he then referred to God still being on the Earth, looking down on the murders and devastation of war, but he felt sure God was on the side of the Allies because they were struggling to secure liberty for humanity. He was rejoiced to read of the heroism of his fellow-countrymen, the Newfoundland Regiment on the 1st of July. It thrilled him through, and he assured the large congregation that nine-tenths of the American Republic favored the cause of Britain and her Allies, and he prayed for their final victory as it would bring about higher ideals in civilization and righteousness that would brighten and bless the world. Space forbids more expansion but it was a rare treat and very edifying.

Train Notes.
