## An Interest in the Business

(From the Manufacturers' Record.)

A gentleman asked a youngster how he was getting along in his new job, and the young man, who had been employed but for a month, replied that he was getting along "all right and that he had an interest in the business." Somewhat surprised that such rapid advancement had been made, the gentleman, upon further questioning the youngster regarding his promotion, received this answer: "I got that interest the day I went to work. My employer told me he wanted me to take an interest in the business, and I did it from the very start."

The above may sound like a vaudeville joke, or an extract from a comic supplement, but the man or boy who takes an interest in his employer's business is made of the right stuff; and if the employer is not broad enough to appreciate these sterling qualities, the employee will not be the chief loser, for by diligent and faithful attention to duties he has been gathering information and acquiring experience that will enable him to serve to be sought by outside concerns, or probably he will have so mastered the business that he will be able to

branch out into the business for himself.

There is often heard in the office or shop the complaint that this or that fellow has a "pull" with the "boss." Nine times out of ten it will be found that the secret of the "pull" is a willingness to work and take an interest in the business. You will not find a

## A Frightful Death! Suffocated in Asthma Attack.

Every sufferer from asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old fashioned remedies may relieve, but never cure. Best results come from Catarrhoxone, which cures asthma after hope is abandoned. It's because Catarrhoxone kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronics experience immediate relief and lasting cure. Equally good for bronchitis, throat trouble and catarrh. The large one dollar outfit includes the inhaler and lasts two months, sold by all dealers or from the Catarrhoxone Co., Kingston, Canada.

young man "with an interest in the business" watching the clock while waiting for the "ghost" to walk," receiving payment for work which it is doubtful whether it has been earned; but he will be among those who are talking about "our concern," "our policies," "what we expect to do," etc. Would Carnegie, Schwab, Edison or any of the great host of successful business men and men of affairs of today that have risen from the ranks have amounted to anything if they had not taken an interest in the business, or if they had been under the control of high-salaried union labor officials and allowed to work (?) only eight hours a day, becoming merely automatons, instead of being permitted to develop the latent ability possessed by every conscientious worker? If a job is made important enough to put one's whole life-interest into it, it will return the favor nearly every time. Take an interest in the business; by so doing your employer will take an interest in you.

**POULTRY SHOW.**—The Poultry Association are now making arrangements for their annual event, which has proved to be successful in the past. The show will likely be held on Nov. 20th and Dec. 1st. It is said that in conjunction with the poultry display this year will be a dog exhibition.

## Change Islands Notes.

Capt. Louis Hoff arrived home from St. John's with a full cargo of freight for the Union Stores.

Mrs. Tom Chafe left by the Prospero for St. John's to join her husband who is working there.

Since the men have started working on the roads people can walk around without going to their knees in mud. They have built bridges in the worst places which is much better than piling the mud on.

Elliott & Co. have rented the premises of Thos. McGlin, Esq., and are doing a rushing trade. We understand that they have a "salt vessel" coming from Cadiz, taking back some of the enormous amount of fish that they have bought the past week. Things have commenced to look bright and prosperous here just now.

We wish to draw someone's attention to the fact that when the Prospero calls here she scarcely ever blows her whistle. Several passengers nearly lost their passage this week as only those in Fox Cove Head know that she is in.

Mrs. Wm. Temple, of Twillingate, spent two weeks here, guest of Mrs. J. Roberts.

Weddings have started here already. On Wednesday Cave-Clench wedding took place, Rev. Wilkinson officiating.

The S. U. F. opened last week with a dance. All the girls and boys had an enjoyable evening.

Mrs. A. Elliott and child returned to Laurenceston on Monday last.

The Woman's Patriotic Association are now collecting for wool and hope to collect \$150.00. Change Islands people are to be congratulated on the grand sums that they have collected this year.

Miss Ethel Torraville leaves on Saturday to spend the winter in Truro, N.S.

Miss Mabel Earle accompanied by her sister, Mina and her cousin, Miss Pauline Holden, leave shortly for St. John's where they intend spending a few days before returning to Toronto.

Miss Laddie Ledrew and Miss Emma Phillips leave on the 19th November for Toronto where they will enter a Business College.

SAM.

## DULL CAMPAIGN.

I wonder what's the matter? The statesmen rant and chatter, and yell a n d scream and toot; but no one seems frightened, and no one gets excited, and no one cares a hoot. We poor, downtrodden voters are busy with our motors, for now the roads are grand; we haven't time to harken to statesmen and their barking of perils in this land. The weather's most enchanting, so we go gallivanting, in "sixes" "eights" or "fours;" or, who would list to yawping, and sunshine's out of doors? Who cares about the issues? Let statesmen sprain the tissues of larynx, lung and throat; we will not linger near them, for here's our choo-choo boat. Who cares a prun or prism for this or t'other issue, since autumn zephyrs blow? Our problems may be deeper—but gasoline is cheaper than 'twas a month ago. The statesmen talk and twitter, but where is there a critter who'll list to what they say? The roads are fine and dandy, the good tin car is handy, and so we drive away.

## Wedding Bells.

A very pretty wedding took place on Sunday night, Oct. 29th, in the C. of E. Cathedral, when the Rev. Canon White joined in wedlock Sadie, daughter of Sarah and Mathias Clark to Thomas, son of Robert and Jessie White. The bride was neatly dressed in a sage blue costume and white plumed hat. Annie White, sister of the groom acted as bridesmaid and Arthur Lusk as best man. After the marriage the wedding party repaired to the residence of the bride's parents where supper was held and a very enjoyable evening was spent.—Com.

## Confirmation Service

For Soldiers To-Night.

The Lord Bishop of Newfoundland arrived by the express yesterday from Trinity Bay. At St. Thomas's Church to-night His Lordship will hold a Confirmation service when several volunteers now in training will receive the laying on of hands.

MINARD'S LINIMENT CURES DIF-  
TERIA.

In 3 Minutes—Nothing To Take Apart

A man usually dreads shaving for two reasons—lack of comfort and because it takes so much time. The **AUTOSTROP SAFETY RAZOR** overcomes both.

It's a real pleasure to shave with one. "Once over" and every vestige of hair has disappeared—no pulling—no discomfort—no after soreness.
