ICAN AND QUIRINAL. ROME, Jan. 24. Vatican of the January.

To-day perhaps the sunrise meets virgin snow upon the streets, a sheen of white where hours ago the soiled snow-sheet lay. The air is not enough to move the burdened trees in yonder grove as battle-torn felines throng their homeward tracks away. Along the shore a loaded wave moans wearily as if to crave for freedom of season's rest, and now and then a howl, a plaintive whine is heard abroad—'tis just a tired working dog, a winter help, and summer pest wishing he were a fowl. To-morrow morn ing sees no sun a poet's dream to look upon, no patient trees and rest ful snow we saw on yester morn, but one great wind swept, torn earth, where wind and snow join in the mirth of freesome Neptune as they go to make us sounds forlorn. The
