C. C. C. Band Dance.

HALL SPLENDIDLY EQUIPPED.

The C.C.C. Band Dance held last night in the Cadet Hall was attended by a very large number of people. The music furnished by Captain Bulley and his picked orchestra proved a treat, whilst a supper served at 11.30 p.m. by Mr. John Robinson, the well known caterer was all that could be desired. Patrons were delighted with the cosy aspect of the Hall since it has been renovated. The gallery has been remodelled, the dancing floor made smooth by an electrically operated scraper. In addition to these improvements a platform for the band has been erected in the southeast corner of the Hall. The dance concluded at an early hour this morning, all present voting the affair a most enjoyable one.

Golden Jubilee.

CELEBRATE FIFTY YEARS OF MARRIED LIFE.

Capt. Abram and Mrs. Kean yesterday celebrated the attainment of fifty years of married life. A record which few have equalled. Capt. Kean is perhaps the best known of the local skippers, and he has lived a life, every minute of which has been filled with action. Capt. Kean was married at Greenspond in 1872, to Miss Caroline Yetman, by the Rev. Solomon Matthews, a young English clergyman, performing the ceremony. Five sons, all of whom followed out the tradition for a life of energy and action set by their father, and two daughters were born to them. Of the sons, Capt. Joe was drowned in the Florid disaster, while the others, Capt. Nathan and Weston, and Mrs. Samuel and Cecil, all survive. Of their two daughters, one, Miss Allie Kean is living in St. John's and the other is the wife of Capt. Mitchell of S.S. Silvia.

The Telegram joins with the many friends of Capt. and Mrs. Kean, in congratulating them on the celebration of their Golden Wedding.

Moving Sheep.

A NOVEL STUNT.

The correct way to move sheep was demonstrated before a large crowd on Water Street this morning. A flock of sheep had been landed from S.S. Canadian Sapper, destined for Neale's Wharf. The leader of the flock was taken in advance to the entrance to the wharf. The rest of the sheep were driven up Water Street, and when they came near, the captive leader being released, they followed him down to the wharf. Mr. Jonas Barter superintended this improved method of moving sheep.

Warship in Port.

IS THE VISIT SIGNIFICANT?

H.M.S. Wisteria arrived in port early this morning and anchored in the lower basin. The arrival of the warship has given rise to much speculation as to the nature of the ship's visit at this particular season. Many are inclined to think that she has been ordered here to offset any demonstrations that may be contemplated. Some weeks ago the Wisteria sailed from Forteau, the scene of the wrecked cruiser Raleigh, and it was presumed she had gone to Halifax.

Split Herring \$7 Barrel on Labrador.

HOME BRINGS 150 PASSENGERS.

With about one hundred and eighty passengers on board, the S.S. Home, Capt. Norman, docked here from Straits about 8 o'clock on Saturday night. She brought along a full load of freight. The Home encountered fair weather except the last couple days of the trip when gales of wind and heavy seas were experienced. Codfishery operations on Labrador are now over and most of the fish has been made ready for market. The catch was a small one. Most of the people who were operating in the Straits have returned to their homes. The herring fishery along Newfoundland section of Labrador was a small one. The herring were plentiful, but they struck in about the middle of August, and had passed on by the time the season for packing by the Scotch method (Sept. 1) opened. There is a big school of herring at Long Point and other sections of Canadian Labrador; these fish are of a smaller run than what are usually taken on Newfoundland section of the Straits. The residents are doing well, the fish are being split and packed for the Canadian market, and buyers there from Montreal and Quebec are paying seven dollars per barrel of 200 pounds of fish.

At Port aux Choix, Brig Bay and

other places on Newfoundland North West Coast herring have struck and fishermen are doing fairly well. James Barry's crew on Thursday had a hundred tubs at Port aux Choix. The Home also passed a school of herring off Cow Head.

Operations at the Hawke Bay Pitt-prop cutting have been considerably curtailed and the number of men working there now is about thirty or forty.

Salmon fishing along the coast the past season was good. Only a few caribou have been killed so far. Many of the people are now in the woods trapping.—Western Star, Oct. 18.

Reduced Fares.

Messrs. Harvey & Company, Agents for the Canada Steamships, were notified yesterday, that for the remainder of the season a reduction of 25 per cent. in passage rates by the Manoa comes into effect. The reduction is a big one and first class fares by this ship to Montreal now range from \$55.00 to \$65.00.
