

Goldwin Smith at Home.
The Toronto correspondent of the *Acadian Recorder* writes the following regarding the Professor—
A little less than a mile from the Toronto Asylum, on the Dundas road, there is a modest, unpretending mansion, the classic abode of Goldwin. There is a little history attached to this place, and I give it as I receive it. A short time ago the Professor became interested in a young couple who had all the inclination, most of the romance, but not the facilities of wedded bliss. It came under Goldwin's notice, who at once got the swain a comfortable situation; a new brick house was secured, the lovers united, and the only condition made was that the literary benefactor should reserve to himself a suite of apartments, the remainder of the mansion being for the exclusive use and occupation of the happy pair. I often pass Goldwin's retreat; his window is visible from the Dundas road, and the man of letters is frequently to be seen at his window, making war upon intellectual foes, and preparing his lectures and articles which, no doubt, keep him very much in harness.

Breakfast—Epps's Cocoa.—(Grateful and Comforting.)—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills.—*Cleff's Service Gazette.* Made simply with boiling water or milk. Each packet is labeled "James Epps & Co., Homoeopathic Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk).
Consumption, Bronchitis, Dyspepsia, Feeble, Irregular Action of the heart, and a long list of kindred diseases, are attributed to a low state of the nervous system. Owing to its bracing effects on those centers we may ascribe to Fells' Compound Hypophosphites the prompt and decided benefit received by patients laboring under these diseases.

THE REASON WHY
Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is called a Chemical Food and Nutritive Tonic, because Phosphorus constitutes more than half the material of the human body, and are absolutely essential to the growth of Bone, Muscle and Nerve, which cannot attain full development without them. They promote a good appetite, perfect digestion, create pure, healthy, vitalizing blood, and supply the waste constantly going on in the system as the result of mental and physical exertion. Being combined with Calisaya, the Peruvian Bark, the only specific for Chills and Fever, and that condition of Nervous Prostration and General Debility arising from low vitality and exhaustive diseases, it forms an elegant and agreeable, invigorating Tonic, purely physiological in its action, that may be taken safely under all circumstances, and in all diseased conditions of the body, as it builds up the constitution in the same manner as our daily food.
Sold by all Druggists at \$1.
