FRUIT PROSPECTS. Montreal, Sept. 10.—So far this week 1,872 barrels of apples have been shipped from the port of Montreal to Liverpool and Glasgow, and by the close of the week this amount will be consider-ably increased. This is a very heavy rease as compared with last year. Regarding the prospects in Canada, Simons, Shuttleworth & Co.'s latest cir-cular-Mr. A. R. Fowler, Montreal re-presentative—says: In the great fruit beits of Canada reports indicate a very largely increased quantity over what largely increased quantity over what is generally being published, though the crop will fall behind the average of Oats-No. 2 Sept., 31le; Dec., 33lc to 33lc; May, 36lc to 36lc.

Oats-No. 2 Sept., 20c; Dec., 21lc to 21lc; May, ordinary years. The quality will not compare with last year. Fruit will be packed closer and made dangerously poor in quality. This will tend to limit the output very materially.
