THE MARKETS.

THE LOCAL MARKET. London, Tuesday, Jan. 27. The market was not very well attended this morning, considering that the roads are in splendid condition, and also that was a tine day. The fact is, the farmines to sell at present. Hay and oats were the features of the market, as far as supplies were concerned. as supplies were concerned.

Grain—There were fully 25 loads of oats offered; the demand was good, at slightly higher prices; most of the loads sold at 52c to 53c per cental; a few loads at Hay and Straw—There were nearly 30 loads of hay offered, which brought \$7 to \$8 per ton for poor, and \$9 to \$10 for choice, only 5 loads selling at the latter figures. Straw is plentiful and sales slow, Butter and Eggs—The supply in this line was again light, and prices were unialtered, with the exception of fresh-laid eggs, which were easier at 22c to 25c per dozen.—Scarce, and prices are firmer, at \$1.20 to \$1.25 per bag; holders of car lots are asking \$1.15 and \$1.17 per bag, laid down here.

Apples—More plentiful, owing, no doubt, o the fine weather; sales were slow, at Poultry—The supply was light and prices remain unchanged, with the possible exception of turkeys, which went higher, to 15c per pound, dressed.

Dressed Hogs—There were 50 or 60 carcases on sale, and prices ranged from \$7.75 to \$8.15, \$8 being the ruling figure.

Well-Known Gentleman Makes a Remarkable Statement.

He Assures Rheumatic Sufferers

Banished His Pains and Agonies.

The startling and happy cures wrought by Paine's Celery Compound for rheumatic sufferers have deeply impressed medical men everywhere, and today, the best practitioners are recognizing the great value of the compound, and prescribe it with confidence

Paine's Celery Compound stands unequaled as a cure for all the varied forms of rheumatism. At this season its good work is apparent in thousands of Canadian homes. Men and women, lame and crippled and utterly helpless from the terrible disease are being restored to activity, health and strength. Paine's Celery Compound is the only medicine that rescues and saves the despairing victim who is told that he or she is incurable. Mr.

Morisette, Roxton Pond, Que., says: "Having been given up to die by some of the best doctors of the United States, I came to Canada last autumn terribly ill, and had lost all hope. Suffering agonies from inflammatory rheumatism, I was strongly urged to use Paine's Celery Compound. I gave it a trial, and the first bottle did me so much good I continued with the medicine until I had used seven bottles, when I found myself perfectly cured; indeed, I never felt better in all my life than at present. I use every possible means to tell others of Paine's Celery Compound, and will recommend it to those troubled with

Varying Views of the Treaty Expressed in England.

Some Canadians Consider It a Surrender-What the Times Says.

London, Jan. 27 .- The Alaska treaty is not favorably received by Canadians here. It is considered another surrender to the United States. the British Government being anxious to show its friendliness to the United States because of the Venezuelan question. Discussing the treaty, an ex-cabinet minister said that Great Britain's friendliness with the United States is of first consideration and Canadians'

second. The Times today, commenting on the treaty to settle the Alaskan boun-dary difficulty, says: "In 1899 the United States desired a commission to be composed of three members from each country. Canada strongly urged that it should consist of seven altogether. The present commission is an effort to settle the differences by friendly decision. The same commission, with an odd man, would, in point of fact, be an arbitration court, but should this commission not arrive at any decision no harm would be done to either party." The Times believes that the commission will arrive at a decision in the only manner that will leave no sense of soreness or disappointment on either side. The Daily News says the Alaska commission will meet in London.

LINIR WRECKED OFF HOLYHEAD

During a Gale in St. George's Channel—Seventeen of Crew Reach Shore.

Holyhead, Wales, Jan. 26.-An American liner is reported to be ashore off Aberfraw Point, fifteen miles south of Holyhead. A heavy gale is raging in St. George's Channel.

London, Jan. 27 .- A dispatch from Holyhead says that a portion of the crew of the liner reported ashore off Aberfraw Point, numbering seventeen men, have come ashore in their own boats. They report that the vessel is a total wreck. The name of the vessel ashore off Aberfraw Point, Isle of Anglesey, is not yet known. Part of the crew gained the shore in the steamer's boats, but it is ed an operation in a case prepared stated that the remainder are unable to by Dr. Lorenz before he left. get ashore owing to the heavy seas running.

WHAT STEAMER IS IT? New York, Jan. 26.-It is improbable that any vessel of the American Line of steamers is ashore at Aberfraw Point. Fraserville, Que., Vessels of the American Line's Philadelphia-Liverpool service sail from Liverpool on Wednesday, and the only steamer The master-in-chambers at Toronto bound from Philadelphia to Liverpool which might be in that locality is the Noordland. It is not likely that the Noordland has reached St. George's Channel, as she has not been reported passing off the Irish coast, nor arriving at Queenstown, where she always stops, unless prevented by a severe gale. It is not improbable that the vessel is the Chesapeake and Ohio Steamship Company's steamer Shenandoah, which left Newport News Jan. 13 for Liverpool, and which passed Kinsale, on the Irish coast, early on Monday, bound to Liverpool. STEAMERS COLLIDE.

London, Jan. 26.-The British steamer British Prince (Capt. Smith), from Antwerp for New York, was in collision during a southwesterly gale early today, three miles from Dungenness, with the Company, Toronto, yesterday directed British ship Waterloo (Capt. Fellows), Langley, assignee, to wind up the from Iquique, Chili. In answer to distress signals, a lifeboat was launched and stood off near the vessels, but her services were not required. The engineroom and stoke-hold of the British Prince filled rapidly and she was run ashore. At high water the steamer was refloated and headed for this port. The head gear of the Waterloo was carried away. NO LIVES LOST.

Later.-The steamer reported ashore at Aberfraw Point, Isle of Anglesey, is the Bohtilde-Russ. She is a German vessel, of cigarettes on Sunday. The case and was bound from Liverpool for Cardiff. All her crew were landed in safety.

LORENZ CRITICISED

London Surgeons Do Not Approve His Operations.

The Orthopedic Hospital Is Profiting by His Visit.

London, Jan. 27 .- Prof. Lorenz's short stay in London was not very pleasant. A great number of London's surgeons do not approve of his "bloodless operations" for congenital displacement of

the hips. The reception accorded to Dr. Lorenz's methods of operating was illustrated at a meeting of the Clinical Society, when Prof. Openshaw read a paper severely criticising the methods of the Vienna surgeon. His attitude was supported by the chairman, Dr. Howard Marsh. In fact, Surgeon Howard Marsh. Noble Smith was the only member to advocate the professor's mode of treatment which he has practiced himself a long time at the City Orthopedic

But Dr. Lorenz expected opposition and criticism and came prepared for it. He was approached by an eminent surgeon with a view to giving a demonstration in a London hospital, but he replied that if the surgeons of London really were interested in his work they could quite as well come to the City Orthopedic Hospital, where his system was appreciated and followed and where there were special facilities for conducting the demonstrations.

As a result, a number of surgeons who had previously professed themselves eager to see the professor at work, absented themselves altogether

from the demonstrations. Dr. Lorenz had to suffer the treatment which the profession often deals out to specialists whose metrods are not considered orthodox. Not that this neglect disturbed him in the least, for he cares nothing for social func-tions. He contented himself while in London with visiting a few personal friends, going to the theater and see-

ing the metropolis. At the City Orthopedic Hospital they profiting already by his demonstrations, Dr. Noble Smith, on a direct personal observation of Dr. Lorenz's methods, having successfully conduct-

Disease Conquered by Bodd's Kidney Pills-

Israel Boyer, Jun., Gives His Experience. St. Marguerite, Que., Jan. 26.-There eems to be no end to the list of diseases that spring from disordered Kidneys and that can consequently be cured by Dodd's Kidney Pills. Rheumatism, Bright's Disease, Heart Disease, Dropsy and similar complaints, have yielded readily to this wonderful remedy, and now Israel Boyer, jun., of place, comes forward with the statement that Dodd's Kidney Pills have cured him of a seemingly incurable stomach complaint. He says: "For fifteen years I suffered from malady of the stomach, and had long given up hope of ever having it cured. Then I was induced to try Dodd's Kidney Pills. They relieved me almost at once, and by the time I had finished the first box my complaint had disappeared. I am well now and can work all the time."

A Fifty-Foot Calendar.

N. W. Ayer & Son, the Philadelphia dvertising agents, who have a national reputation for "keeping everlastingly at it," believe in sticking to a good thing when they have one. For instance, their calendar for 1903 follows the design used for several years past, but with new coloring. And in truth it would be hard to improve upon their design; the dates are plainly readable at 50 feet, yet the calendar is not unpleasantly conspicuous; it is artistic, simple and useful, and it is not surprising that it has become so popular an adjunct to business offices that the supply never equals the demand. While they last one will be mailed to any addres for 25 cents, which barely covers cost and postage.

A GOOD NAME IS TO BE PRIZED .-There have been imitations of Dr. Thomas' Eclectric Oil which may have been injurious to its good name but if so, the injury has only been temporary. Lieut.-Gov. Tillman May Escape Punishment.

Plea of Justifiable Homicide Will Be Made in His Behalf.

New York, Jan. 27 .- A Columbia, S. C .. special to the Herald says: The general defense of Lieut -Gov. Till-

man's friends is that during the last campaign for governor, in which Tillman was a candidate, Gonzales carried his opposition to Tillman too far, and that he "hounded" the man. The friends of Tillman say that Gonzales gave Tillman sufficient and ample provocation to kill

Tillman's counsel avoid anything so extremel radical. They take the position that Gonzaes and Tillman were sworn enemies, and that Tillman expected Gonzales to be armed, and expected to have a street fight on the first encounter. They held that Gonzales had his hands in his pockets, and that Tillman thought that Gonzales had his hand on his pistol and intended to fire from the coat pocket, and on such a supposition he drew his revolver and fired on Gonzales.

As a matter of fact, Gonzales was unarmed, and had no idea of an encounter with Tillman, and as a further fact Gonzales was not in the habit of carrying a weapon, and had not done so.

There are many people who believe that nothing will be done in the end toward punishing Tillman. They think that the first trial, which will take place at any time after April next, will result in a mistrial or possibly a conviction of manslaughter, and that the case will dreat Tillman's counsel avoid anything so ex-

trial or possibly a conviction of man-slaughter, and that the case will drag along on appeals until everybody gets sick of it, and that in the end Tillman will go unpunished.

Varying Prices of Gas.

Varying Prices of Gas.

Toronto, Jan. 27.—Mayor Urquhart has received a communication from Mayor Cochrane, of Montreal, confirming the report that there is a difference of 50 cents per 1,000 cubic feet in the price of gas for heating and lighting purposes supplied in that city. For heating only 60 cents is charged; for cooking, \$i; and for lighting, \$i 10. Mayor Urquhart argues that as the same quality of gas is supplied in each case, it is ridiculous to make such a discrimination. He does not think it likely the company in Montreal would sell gas for any purpose at less than the cost of production, so that it is evident that an excessive price is being charged in both cities for the control of the con cost of production, so that it is evident that an excessive price is being charged in both cities for gas used for lighting. In Toronto there is no difference between the rates for hating, lighting and cooking.
