But after a few days she began to get better; the intense pain was relieved, although her burns were very sore, rendering her hands almost useless. A barber had to be called in to shingle the scorched locks, and she looked like "a little girl again," her mother said, after the clipping process was completed.

The caller proved to be Kenneth, and Mrs. Sherman invited him directly up into the preity parlor on the second floor, which Mrs. Everet had given up to Bess.
She was about to go in with him, when a servant approached to ask for directions regarding something she wanted done; so, opening the door for Kenenth, she sent him in alone to Queen Bess.
He entered the room with a smile on his lips and a light in his eyes that sooke volumes; but he, too, was pale, and there were hollows under his eyes, for he had not yet recovered from the terrible exhaustion which had followed the fearful ordeal to which he had subjected himself on the night of the fire.

FOOTBALL.

THE NEW SCHEDULE GOES. Toronto, Nov. 13 .- The western section of the intermediate series, O. R. F. U., stands as drawn up by the executive on Wednesday night. Peterboro is not drawn in the new schedule. It is rumored that the Torontos will default to the Argonauts on Saturday, and this will mean that the Argonauts play in London on Nov. 22. A meeting of the executive is called for Monday night. Referring to this the Toronto Star

westerday says:

"The London protest against Toronto having been sustained, that game only should have been ordered to be replayed. Instead the executive has ordered a new series. The arrangement did not find favor with the clubs concerned, so by 'phone today it was practically agreed that two games should be played off on Satur-day, as follows: Toronto at London, Argonauts II. at Peterboro, the winners to play off for the championship at some point to be decided by the executive the following Saturday,'

This proposition was communicated by 'phone to London, and the reply sent back that the London Club had decided to hold to the original arrangements made at Wednesday night's meeting and would not play on Saturday. Gordon Crawford further stated that it would be quite impossible to play the game, here on Saturday as the grounds were not available on that

SKATING. IN ENGLAND.

London.

Nov. 13 .- During the last

few years skating of the highest class has been making vast strides in popularity; and if there are not people who skate now than there were, say, five years ago, there are certainly more people who skate well. This is mainly due to the introduction of rinks in which artificial ice is to be found, always in perfect condition and quite independent of the weather. Three of these rinks have been at work in London of late; but one of them-Niagara, where the world's championships were contested in the spring-exists for skating Windsor track for running meeting ed in the spring-exists for skating next year, there are plenty of others no longer. And of these the best—the

day. At the club there is a splendid sheet of ice, over 10,000 square feet in extent. There are instructors of great skill, pleasant galleries spectators, and every temptation for skaters and non-skaters alike to make use of the place as an agreeable lounge. Music is supplied by the Blue Hungarians; certain times are set apart for the delightful exercise -equally delightful to watch or to perform-of waltzing on skates, and for ice hockey.

AQUATIC.

PENN TO BE REPRESENTED AT HENLEY.

Philadelphia, Pa., Nov. 13.-Another attempt will be made by the University of Pennsylvania to send a crew to Henley next year for the purpose of trying to carry off the grand challenge cup. The student body of the university is anxious to send a crew over. It is not known whether the faculty will sanction the proposal or not. This would be the first time in the history of the classic English row-ing Derby that two American crews have tried for the main race in same year, as Cornell also expects to send over a crew for the same race.

WILLIAM MONTIE DEAD. William Montie, of Ecorse, Mich., is dead. He was one of the four brothers French Canadians, who composed the Ecorse crew, a famous rowing organization of about twenty years They rowed the "sewing machine" stroke, cut off at both ends and running up to 50 a minute for long spells. The Monties were very successful against both Eastern and Western United States crews, and were only defeated when they met Canadian fours.

Unimpeachable

If you were to see the unequaled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective alterative and tonic medicine

"Are Dramatic Critics Any Use?"

That is the question which the O. P. and gold medal donated by the Can- Club, a theatrical organization of Lonadian Kennel Club, went to pointed don, debated at its session last night, dog Duke II., by Duke, out of Neil, owned by Pickering & Oldershaw, morning gives a summary of some of the answers to the riddle that were Fiirt II., by Pearls Boy, out of Queen, owned by Thomas Reeder, of Detroit; given by members of the profession. If the average theatergoer were asked his opinion he would say that he doesn't care a rap for the individual opinion of a "critic," whose praise has often sent him to see a poor play and whose adverse notice might make him miss a good one.

The know-all critic and his longwinded effusions are relics of old-time journalism that are wholly out of place nowadays. The theatergoer does not want anything more than a fair and square report, by a reporter, of what the play was about, who acted it and what the audience-not what the critics—thought of the performance. And when the latter disagree, as they generally do, who is to decide?

After all, the gallery god is the best critic going. Find out what he thinks

and you'll generally know whether or not the play is worth seeing. If the question before the O. P. Club had been "Should the dramatic critic be declared, like the dodo, extinct?" it would have been much more to the point.-New York Herald.

THE FLAGGING ENERGIES REVIV-ED -Constant application to business is effective alterative and tonic medicine for that blood disease from which you are suffering.

It eradicates scrofula and all other humors, and cures all their inward and outward effects.

Take Hood's.

Wood intended to be made into pianos requires to be kept 40 years in perfect condition.

ED.—Constant application to business is a tax upon the energies, and if there be no relexation, lassitude and depression are sure to intervene. These come from stomach troubles. The want of exercise brings on nervous irregularities, and the stomach ceases to assimilate food properly. In this condition Parmelee's Vegetable Pills will be found a recuperative of rare power, restoring the organs to healthful action, dispelling depression and reviving the flagging energies.
