storm was the heaviest and most general of the season. A fall of eight ture, for they sleep in the daytime and inches is reported from Owen Sound to teed at night. How much sleep they do Woodbridge, and the district west of take is a matter of contention even London was covered in the same ex-Deer reverse the apparent order of na-London was covered in the same ex-tensive manner. East of Toronto the blizzard was less cyclonic, but violent was reprienced stalkers—some say tensive manner. East of Toronto the blizzard was less cyclonic, but violent we are inclined to agree with the for-mer, for it has to be remembered that mer, for it has to be remembered that they chew the cud when lying down. Two most experienced and observent foresters, the one in Argyllshire, the other in Aberdeenshire, thus gave their enough to be unpleasant. The snow-plows are working overtime again, but the trains from the north are not so very late, the delays ranging from half an hour to an hour. other in Aberdeenshire, thus gave their opinions: "Deer sleep or rest from about ten or eleven A. M. to four P. M." "Deer sleep from noon to five P.M." It is no uncommon occurrence to come on deer asleep; a stalker in the Blackmount had the rare experience of coming upon a parcel of seven stags, all sound asleep. A herd was seen to move in Glenteschie, but one stag remained behind, lying motionless. On a careful approach, he was found to be asleep. Perhaps, however the oddest occurrence of this nature happened in Braemore, when a stalking party, on going up to a stag that had just been shot, found a three-year-old close to it fast asleep. In fact it is by no means rare to get within a yard or to of a sleeping deer.—Scottish Field. Aylmer, Ont., Jan. 15.-A meeting of held at the town hall, Aylmer, yester-day. Speeches were delivered by M. K. Cowan, M. P., of Essex; Col. convention to the executive committee.

NOT A NAUSEATING PILL.—The excipient of a pill is the substance which eniods the ingredients and makes up the pill mass. That of Parmelee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their strength. Many pills, in order to keep them from adhering, are rolled in powders, which prove nauseating to the taste. Parmelee's Vegetable Pills are so prepared that they are agreeable to the

BUTTER TRADE

Famous Philosopher Tells Complaint Made That Quality Lacks Uniformity.

THE TESTAMENT A LONG ONE CLOSE OF THE CONVENTION

Late Mr. Pattullo's Services Was

late Herbert Spencer was published ing's meeting of the dairymen was yesterday morning. It fills three news-paper columns. Beginning with elab-ing session, the attendance was good, prate instructions for the disposal of while the greatest interest was mainhis body, the document contains the tained until the last, Mr. James Connolly, the immediate past president, occupied the chair.

Mr. J. C. Bell was the first speaker, with a loose lid and cremated, and the his subject being "Ripening Cream, Churning and Packing Creamery Butter." After a technical explanation of the best methods of churning and rip-

may be living at my decease, and of the survivors or survivor of them for twenty-one years after the death of such survivors.

The English market, he said, the finest butter was the best offered there, but the trouble was that the quality was irregular. If it were uniform the The ultimate disposition of the ester pleased, and better prices would be ate, after a minute directions, of ate, after a minute directions, of vail. The remedy was in watching the temperature should be maintained the creamery, and from there until at the British merchants'. Prof. Ruddick referred to the comparison Canadian butter was put in with New Zealand butter, the latter arriving in Eng-land in cold storage. He then touched on paraffining of cheese. It prevented loss of moisture and weight, and he showed, by a chart, the difference between paraffined and unparaffined cheese. He then explained the method money spent on boxes was thrown away and he recommended stronger

> facture of them. Mr. Dan Derbyshire took a few minutes to emphasize the importance of refrigerator cars and to thank the department of agriculture for what they had done so far. The establish-ment of cold-curing stations by the Do-

spencer, adding: "I hope the legatee. of previous speakers that the export by thoever he may be, will think it well butter lacked uniformity. He had prepared to be the gift as an heirloom in his pared a statement showing that acfamily," Charles Holme, however, is cording to the output last season the living, and one of the executors.

The will is dated Jan. 19, 1900. A 000. The best factories had sold butter among other directions, instructions to great deal depended upon the buyers, the trustees to assist in opposing the salesmen and transportation companintroduction of the metric system into Great Britain. > A paper in which was introduced some new matter was that on "Recent Investigations re the Percentage of Water in Butter," read by Prof. Frank T. Shutt, chemist of the experimental farms, Ottawa. The investigations were made during the past year, and he gave the results of these. The higher the churning temperature, he pointed out, the larger percentage of water. Experiments with wash water at high and lower temperatures further proved the former assertion and that the higher the temperature of the wash water the larger percentage of water. Prof. Shutt had a large table placed on the platform, and he went into the details of his scientific

research.

Prof. Dean summarized some experiments in ripening cheese at various temperatures, illustrating that a temperature of 40 degrees gave the best results, that a temperature of 50 to 55 was nearly as good, but the shrink-Cambridge—Modern History, Vol. VII. things that the temperature of the fac-"The United States." age was greater, and among other

This concluded the addresses, and the resolution committee presented their report, including the nomination

RESOLUTIONS PASSED. A resolution expressing the associathe late Andrew Pattullo, M. P. P., to his country and particularly for his dairymen in this territory, was moved

by Mr. MacLaren in a feeling speech It was unanimously carried. A resolution also introduced by Mr. MacLaren and also unanimously carried was one indorsing the action of the board of directors in urging upon the Premier that he recommend the appointment of Hon. Thomas Ballantyne to a seat in the Senate.

Resolutions were adopted thanking the mayor, aldermen and board of trade of St. Thomas for their entertainment, and the press of the various places, which sent representatives to report the proceedings.

I vote of thanks was tendered t Retiring President Connolly for his active work during the past year, and the convention concluded its session at

#### FAILURES IN CANADA

Last Year's Record the Smallest Since 1882

Toronto, Jan. 14.—According to Bradstreet's record of failures in Canada, the failures for the year 1903 are the smallest in number since 1882, when there were 755. In 1903 they totaled 956, with assets of \$3,852,197, and liabilities is rushing a suit for \$20,000 damages in now in of \$3,28,362. The detailed statement by against the order. The case is now in provinces is as follows:

EVERYTHING

## JUST ANOTHER WEEK

And we're done asking you to take off 20 cents on every dollar's worth of goods you bus. So great a saving is an attraction you don't see every day. Doesn't matter whether you are a regular customer of this store or not-doesn't matter whether you ever bought a yard of goods here before—such a big saving is liberal enough to bring everyone to our counters. Every

reduction is real-everything is as stated. The earlier you come the surer you are of getting what you want. Remember this is the last week.

#### These Are Some of the Bargains:
