## NO DEBENTURES FOR SUNDAY SCHOOL PARK DEPT. DEFICIT

Issue Them at Board's Request.

Appropriation—Cut Down Expenses.

By a rigid system of cutting down expenses, the park commission will endeavor to overcome its deficit of \$3,314.48, the figure shown at the close of 1913. The park board made a requisition to the water commissioners at a meeting of the latter body yesterday afternoon to have debentures issued to care for this overdraft and also to provide for permanent improvements in the park.

Chairman Philip Pocock pointed out that a number of heavy expenses which had confronted the park commissioners last year would not be met with in 1914, and thought that the board would he able to squeeze through on its revenues and the one-half mill allowed from the tax rate. He declared that the time was not opportune to ask for an increased allowance owing to the probability of a heavy expenditure and a correspondingly high rate in the city this

General Manager H. J. Glaubitz contended that the amount allowed for park purposes in London was not high enough and cited Toronto, where the appropriation for park purposes this year is \$687,-000. Toronto has but four times as much park acreage as London.

Commissioner Dr. H. A. Stevenson suggested that the commissioners should seize the opportunity to secure another park in the east end before property became any higher.

High Tax Rate Holds Up Added Unique Get-Together Function Held in First Congregational Church.

> Preston G. Orwig and Rev. W. J. Knox, M. A., of the First Presbyterian Church, were the principal speakers last evening at the session and banquet of the local Sunday School Workers' annual institute held in the First Congregational Church. Preceded by a "father and son" banquet in the basement of the church, two concurrent sessions were held, Mr. Orwig addressing the boys on the essentials of a successful Sunday School class and Rev. Mr. Knox addressing the men on the importance of character-making training for young people.

In the afternoon Mr. Orwig, at the Collegiate Institute, addressed the older boys in the assembly room of the institute. R. I. Watson presided at the evening session in the First Congregational Church tional Church.

young people. Failure to grasp this was the cause of much of the weakness of the work of the church. "Our country," said Mr. Knox, "has great rewards for those engaged in material production, in the making of things, but it has only indifferent rewards for those engaged in the supreme work of the shaping of character. We as a nation have not commenced to grasp the importance of the menced to grasp the importance of the shaping of character. But Sodom and Gomorrah perished because there were not ten righteous men in these cities. We have been trying to force on the boy a religion that his nature won't stand for, that God in his nature tells him not to stand for. We must make a sane religious appeal to the boy along athletic, literary, and of nearly three years' duration.

Sunday Schools, said Mr. Knox, should use methods suited to the boy. The Bible stories of Moses, Samuel and Jesus, appealed to the child of six, but the story of Jonathan warring with the Philistines would appeal more to the boy London; William J., of Avon; E. R., of 16, who wants stories of action, and of Saskatoon, and Mrs. Hansford, of courage. Boys over ten should have male Sunday School teachers.

Value of Co-operation.

A. J. Omond spoke on the value of co-peration between different Sunday Schools. Mr. Orwig, addressing the men, spoke of the modern "efficiency movement" in business spheres. The Sunday School class, he said, was a business proposition. He spoke strongly in favor proposition. He spoke strongly in favor of organized Sunday School classes, election of teachers and officers by the class, and the co-operation of Sunday Schools through an inter-Sunday School council. The session closed with a union meeting of the boys and men when the addresses delivered at either meeting were summed up in an open discussion. The points for a successful class were: Leadership, a definite interest on the part of teacher and pupil, organization, lesson preparation during the week, regular Cigarettes, irregular attendance, lack of organization, poor teachers, including poor talkers, teachers lacking preparation It is a wise law of nature that has made the stomach man's strongest organ, but when it stops work man ought to realize that it does so because it can continue no longer.
