Even Fur Is Draped Nowadays

Ermine is so enormously expensive in itself that the idea of draping it, with a consequent use of extra yards of the pelt, seems almost appalling. Yet draped ermine wraps are being turned out by the fashionable furriers for women of fashion—and substantial pocketbooks. This wrap of unspotted ermine has most beautiful lines, the snow white pelt being draped a bit around the feet. A collar and cuffs of civet fur make a striking contrast with the ermine, which is worn over a trailing gown of white satin.

of nourishment. I should like to try your orange-flower cream. Please tell me where I can have the formula filled.

Here is the recipe you desire. You can have the formula put up at almost any drug store. I am not at liberty to mention the name of any firms. Cream of Sweet Oranges.

(A Skin Food) Sweet oil of almonds, 1 ounce; orange-flower water, 1 ounce; white wax, 1 dram; oil of sweet orange, 1/2 dram; spermaceti, 1 dram. Half fill saucepan with boiling water. Stand a jam jar in this. Shred the wax and spermaceti into the jar. Let it dis-solve. Heat almond oil and add to the wax. Heat orange-flower water; add it half a teaspoonful at a time, stirring the mixture quickly. Lift the jar out of the saucepan. Beat mixture with the whisk. Heat and add oil of sweet oranges. Whisk cream until it is cold. Put in pots and cover with

Trouble With the Eyes. Dear Miss Grey-My eyes have been giving me much trouble lately. Do you think this is because I read on the

K. P.

A .- I feel quite sure that your habit is responsible to quite an extent. The way in which we all abuse our eyes, which are so delicate and so important, is serious. You should be careful to have the light fall from the left side while reading, writing or sewing. Read only well-printed books and papers. Never read, write or sew while lying It is bad to read while feeling physically tired. You cannot be too careful of your eyes. Stop reading on the car for a while and see if there is not an improvement. If at the end of the test you still suffer, you should consult a reliable oculist.

How To Test His Love. Dear Miss Grey-I am 19, deeply in love with a very nice young man two years my senior. I do not know if he loves me or not, but son times I think he does. Do you know c. a good way to test his love?

A .- Better wait until he tells you he loves you. That's the safest plan. Don't try to force any particular proof, or you will succeed only in losing his interest in you.

His Name Is "Clarence." Dear Miss Grey—I work in an office and one of the fellows, whose name is Clarence, is stuck on me, and I must say I like him better than anybody I know. Whenever we talk to each other the others in the office poke fun at us and tease us about being in love and tells us we ought to get married and so on. What shall I do? Shall I quit

small pieces, two quarts of boiling salted water, one cupful of milk, two tablespoonfuls of flour, one quarter to one half pound of cheese, half teaspoonful of salt, speck of cayenne

pepper. Cook the macaroni in the boiling salted water, drain in a strainer, and pour cold water over it to prevent the pieces from adhering to each other. Make a sauce out of the flour, milk and cheese. Put the sauce and macaroni in alternate layers in a buttered baking dish, cover with buttered crumbs and heat in oven until crumbs are brown.

BOILED FONDUE. One and one-half cupfuls of bread crumbs, one and one-half cupfuls of nilk, one and one-half cupfuls of cheese cut into small pieces, one egg, two tablespoonsful of butter, six

ounces of crackers. Soak the bread in the milk. Melt the butter and add the cheese. When the cheese has melted add the soaked crumbs, the eggs slightly beaten, and month!" the seasoning. Cook a short time and serve on toasted crackers.

OATMEAL WITH CHEESE.

Two cupfuls of oatmeal, one cupful of grated cheese, one tablespoonful of butter, one level teaspoonful of salt. Cook the oatmeal as usual. Shortly before serving, stir in the butter and add the cheese, and stir until the cheese is melted and thoroughly blended with the cereal. The cheese should be mild in flavor and soft in texture. The proportion of cheese used may be increased if a more pronounced cheese flavor is desired.

WITH TOMATO SAUCE. Boiled macaroni may be heated in tomato sauce and sprinkled with grated cheese just before serving.

Tea From Coffee Leaves. Tea, as everybody knows, is made from leaves, while coffee is derived from berries or beans. Just here is where some thing has been overlooked, in the opin ion of a scientific investigator. The leaves of the coffee plant are not only available for making a beverage, but they possess properties which make them more valu-

the than the coffee beans.

In appearance and fragrance the dried coffee leaves very much resemble those of the toa plant. An infusion of them being made, just as in the case of or-dinary tea, an aromatic beverage is produced that is bitter to the taste, but not disagreeably so, and which contains almost as much theine as real tea, while there is a much smaller proportion of
